(c)(1)(A) The comprehensive strategy submitted by the Board of Directors to the Congress pursuant to subsection (b)(2) shall be deemed approved if a joint resolution of approval has been enacted into law during the same Congress in which such comprehensive strategy was submitted to the Congress. If either House of the Congress within ninety calendar days of continuous session after introduction fails to pass such a joint resolution or rejects such a joint resolution, the comprehensive strategy shall be deemed disapproved.

"Joint resolution."

For purposes of this subsection, the term "joint resolution" means only a joint resolution of either House of Congress as described in paragraph (5) or paragraph (10)(B).

(B) Ninety calendar days after receipt by the Congress of the comprehensive strategy, on the first day that both Houses of the Congress are in session after such ninety-day period, a joint resolution of approval containing the authorization of appropriations requested by the Corporation for the proposed comprehensive strategy shall be introduced in their respective Houses by the Chairman of the Committee on Energy and Natural Resources of the Senate and the Majority Leader of the House of Representatives.

(C) The Corporation may withdraw the comprehensive strategy any time prior to the adoption of such joint resolution by either House of the Congress.

(2) Upon introduction, the joint resolution shall be referred immediately to the Committee on Energy and Natural Resources of the Senate and the appropriate committee or committees of the House of Representatives.

(3) For the purpose of subsection (c)(1)(A) of this section—

(A) continuity of session is broken only by an adjournment of Congress sine die at the end of the second session of a Congress; and

(B) the days on which either House is not in session because of an adjournment of more than 3 days to a day certain are excluded in the computation of the calendar-day period involved.

(4) This subsection is enacted by Congress—

(A) as an exercise of the rulemaking power of the Senate and House of Representatives, respectively, and as such it is deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of resolutions described by paragraph (5) of this subsection; and it supersedes other rules only to the extent that it is inconsistent therewith; and

(B) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of the respective House.

(5) The joint resolution approving the comprehensive strategy under this part shall read as follows after the resolving clause: "That the Congress of the United States approves the comprehensive strategy submitted to the Congress by the United States Synthetic Fuels Corporation on _____ and _____ dollars are hereby authorized to be appropriated without fiscal year limitation to the Secretary of the Treasury to purchase and retain notes or other obligations of the United States Synthetic Fuels Corporation.", the first blank space therein being filled with the date and year, the second blank space therein being filled with the appropriate dollar figure.

(6)(A) If any committee to which such joint resolution with respect to the comprehensive strategy has been referred has not reported it at the end of 60 calendar days after its referral, it shall be in order to move either to discharge any such committee from further consideration of such joint resolution or to discharge any such committee from further consideration of any other joint resolution with respect to such comprehensive strategy which has been referred to such committee.

(B) A motion to discharge may be made only by an individual favoring such joint resolution, shall be highly privileged (except that it may not be made after all committees to which such joint resolution has been referred have reported a joint resolution with respect to the comprehensive strategy), and debate thereon shall be limited to not more than 1 hour, to be divided equally between those favoring and those opposing the joint resolution. Except to the extent provided in paragraph (9)(A), an amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(C) If the motion to discharge is agreed to or disagreed to, the motion may not be renewed, nor may another motion to discharge the committee be made with respect to any other joint resolution with respect to the same comprehensive strategy.

(7)(A) When all such committees have reported, or have been discharged from further consideration of, a joint resolution, it shall be at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of such a joint resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

Debate, time limitation.

(B) Debate on the joint resolution and all amendments thereto pursuant to paragraph (9)(A) shall be limited to not more than 10 hours and final action on the joint resolution shall occur immediately following conclusion of such debate. A motion further to limit debate shall not be debatable. Except to the extent provided in paragraph (9)(B), an amendment to, or motion to recommit such a joint resolution shall not be in order, and it shall not be in order to move to reconsider the vote by which such a joint resolution was agreed to or disagreed to.

(8)(A) Motions to postpone made with respect to the discharge from committee or the consideration of a joint resolution, shall be decided without debate.

(B) Appeals from the decision of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedures relating to a joint resolution shall be decided without debate.

(9) With respect to the comprehensive strategy—

(A) In the consideration of any such joint resolution on any such comprehensive strategy, it shall be in order to offer an amendment to the dollar figure in the second blank of the text of the joint resolution described in paragraph (5), and any amendments thereto only containing such a dollar figure. No other amendments except pro forma amendments shall be in order.

(B) If one House receives from the other House a joint resolution with respect to the comprehensive strategy, then the following procedure applies:

(i) the joint resolution of the other House with respect to such comprehensive strategy shall not be referred to a committee; and

(ii) in the case of a joint resolution of the first House with respect to such plan—

(I) the procedure with respect to that or other resolutions of such House with respect to such plan shall be the same as if no joint resolution from the other House with respect to such comprehensive strategy had been received; but

(II) on any vote on final passage of a resolution of the first House with respect to such plan a resolution from the other House with respect to such plan where the text is identical shall be automatically substituted for the joint resolution of the first House.

(10)(A) The Corporation at any time after the approval of the comprehensive strategy may submit requests pursuant to subsection (b)(4) for additional authorizations of appropriations each of which shall be in the form of a joint resolution of approval (bearing an identification number).

(B) Such joint resolution shall read as follows after the resolving clause: "That the Congress of the United States approves the request transmitted to the Congress by the United States Synthetic Fuels Corporation on _____ and there are hereby authorized to be appropriated without fiscal year limitation to the Secretary of the Treasury to purchase and retain notes or other obligations of the United States Synthetic Fuels Corporation the sum of _____ dollars.", the first blank space therein being filled with the day and year, and the second blank space therein being filled with the appropriate dollar figure.

(C) On the first day that both Houses of the Congress are in session after receipt of a joint resolution of approval containing the additional authorization of appropriations requested by the Corporation, the joint resolution described in subparagraph (B) shall be introduced in their respective Houses by the Chairman of the Committee on Energy and Natural Resources of the Senate and the Majority Leader of the House of Representatives. Such resolution shall be considered in accordance with the procedures of this subsection.

(11) The aggregate of the authorizations of appropriations under paragraph (5) enacted into law and any subsequent requests by the Corporation for additional authorizations for appropriations under paragraph (10) enacted into law shall not exceed $68,000,000,000.

(d)(1) Notwithstanding the provisions of subsection (c), if at the expiration of such time as the Corporation is permitted for submission of its comprehensive strategy to the Congress, the Corporation determines that an adequate basis of knowledge has not yet been developed upon which to formulate and implement a comprehensive strategy for the achievement of the national synthetic fuel production goal established in section 125, the Corporation shall report the reasons for such determination to the Congress, and may request, in a Corporation synthetic fuel action pursuant to section 128, such additional time up to one year as the Corporation considers necessary for the formulation of its proposed comprehensive strategy.

(2) Such request shall be deemed approved unless disapproved by either House of Congress pursuant to section 128. If such request is disapproved pursuant to section 128, the Corporation shall submit its proposed comprehensive strategy to the Congress within ninety days of such disapproval.

(3) The Board of Directors may, consistent with the purposes of this title, amend the approved comprehensive strategy if, in their judgment, such amendment is necessary to achieve the national synthetic fuel production goal set forth in section 125. If such amendment would substantially alter the use of funds previously approved by the Congress pursuant to subsection (c), the Board of Directors may not implement such amendment unless such amendment has been submitted to the Congress and has been approved pursuant to section 129. Any such amendment and its justification shall be included in the subsequent quarterly report to the Congress pursuant to section 177(c).

Post, p. 678.

The Corporation shall provide notice of such solicitations in the Federal Register and by such other notice as is customarily used to inform the public of Federal assistance for major research and development undertakings. 42 USC 8723.

(2) All proposed solicitations under paragraph (1) shall be submitted to the Advisory Committee established under section 123. The Advisory Committee shall have 30 calendar days to review and comment on such solicitations prior to their initial issuance.

(3) Within six months after the date of the enactment of this part, the Corporation shall make an initial set of solicitations directed by paragraph (1). Such set of solicitations shall encompass a diversity of technologies (including differing processes, methods, and techniques)

for each potential domestic resource as well as all of the forms of financial assistance authorized in subtitle D.

(b) All solicitations of proposals for financial assistance shall be conducted in a manner so as to encourage maximum open and free competition.

(c) Any concern may request the Board of Directors to issue a solicitation pursuant to this section for proposals for a general type of synthetic fuel project and the Board of Directors, if it deems the action to be in accordance with the purposes of this title and the provisions of this part, may issue such a solicitation.

(d) Each solicitation for proposals pursuant to the authority of this section shall set forth general evaluation criteria, as determined by the Board of Directors, taking into account—

(1) the achievement of the national synthetic fuel production goal established in section 125; and

(2) the requirements of section 126(a), for a general type of synthetic fuel project concerning—

(A) the type of domestic resource to be used by the proposed synthetic fuel project;

(B) the type or types of technologies to be employed; and

(C) the type and amount of synthetic fuel to be produced.

(e) Thirty days after the date of the enactment of this part, the Secretary of Energy, on behalf of the Corporation and pursuant to the authorities in this part, may make a solicitation for commercial scale high-Btu coal gas plants which shall be reviewed and acted upon by the Corporation pursuant to this part.

(f) The Corporation shall give priority consideration to applications for financial assistance from any concern proposing a synthetic fuel project in any State which, in the judgment of the Board of Directors, indicates an intention to expedite all regulatory, licensing, and related government agency activities related to such project.

(g) The Corporation shall consult with the Governor of any State in which a proposed Corporation construction project or a proposed joint venture project under section 136 would be located with regard to (1) the manner in which the project would be developed and (2) regulatory, licensing, and related governmental activities pertaining to such project. The States shall have the opportunity to provide written response to the Corporation on all aspects of such project development, licensing, and operation.

CONGRESSIONAL DISAPPROVAL PROCEDURE

"Corporation synthetic fuel action."
42 USC 8724.

If both Houses are not in session on the day on which any Corporation synthetic fuel action is transmitted to the appropriate officers of each House, for the purposes of this section such Corporation synthetic fuel action shall be deemed to have been received on the first succeeding day on which both Houses are in session.

(c) Except as provided in subsection (e), if a Corporation synthetic fuel action is transmitted to both Houses of Congress, such Corporation synthetic fuel action shall take effect at the end of the first

period of 30 calendar days of continuous session of the Congress after the date on which such Corporation synthetic fuel action is received by such Houses, unless between the date on which such Corporation synthetic fuel action is received and the end of such 30 calendar day period, either House passes a resolution stating in substance that such House does not favor such action.

(d) For purposes of subsection (c)—

(1) continuity of session is broken only by an adjournment of the Congress sine die; and

(2) the days on which either House is not in session because of an adjournment of more than 3 days to a day certain are excluded in the computation of the 30-calendar-day period.

(f) This section is enacted by the Congress—

(1) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such, it is deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of resolutions described by subsection (g) of this section, and it supersedes other rules only to the extent that it is inconsistent with such rules; and

(2) with full recognition of the constitutional right of either House to change the rules (so far as they relate to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of the House.

Any such resolution may only contain a reference to one Corporation synthetic fuel action. "Resolution."

(2) A resolution once introduced with respect to a Corporation synthetic fuel action shall immediately be referred to the Committee on Energy and Natural Resources of the Senate and to the appropriate committee or committees of the House of Representatives (and all resolutions with respect to the same Corporation synthetic fuel action shall be referred to the same committee or committees).

(3)(A) If any committee to which a resolution with respect to a Corporation synthetic fuel action has been referred has not reported it at the end of 20 calendar days after it was received by the House involved, it shall be in order to move either to discharge such committee from further consideration of such resolution or to discharge such committee from further consideration of any other resolution with respect to such Corporation synthetic fuel action which has been referred to the committee.

(B) A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported a resolution with respect to the same Corporation synthetic fuel action), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An

amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(C) If the motion to discharge is agreed to or disagreed to, the motion may not be renewed, nor may another motion to discharge the committee be made with respect to any other resolution with respect to the same Corporation synthetic fuel action.

(4)(A) When all committees to which the resolution was referred have reported (or have been discharged from further consideration of) a resolution, it shall be at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

CONGRESSIONAL APPROVAL PROCEDURE

42 USC 8725.

SEC. 129. (a)(1) Any amendment to the comprehensive strategy submitted by the Board of Directors to the Congress pursuant to section 126(d) shall be deemed approved if a concurrent resolution of approval has been approved by the Congress during the same Congress in which such request was submitted. If the Congress, within 90 calendar days of continuous session after introduction, fails to approve such a concurrent resolution or either House of Congress rejects such a concurrent resolution, the request shall be deemed disapproved.

(2) On the first day that both Houses of Congress are in session after receipt of such amendment, a concurrent resolution of approval shall be introduced in their respective Houses by the Chairman of the Committee on Energy and Natural Resources of the Senate and the Majority Leader of the House of Representatives.

(3) The Corporation may withdraw the amendment any time prior to the adoption of such concurrent resolution by either House of the Congress.

(b) Upon introduction, the concurrent resolution shall be referred immediately to the Committee on Energy and Natural Resources of the Senate and the appropriate committee or committees of the House of Representatives.

(c) For the purpose of subsection (a)(1) of this section—

(e) The concurrent resolution approving the amendment under this part shall read as follows after the resolving clause: "That the Congress of the United States approves the amendment to the comprehensive strategy submitted to the Congress by the United States Synthetic Fuels Corporation on _____.", the blank space therein being filled with the date and the year.

(f)(1) If any committee to which such concurrent resolution with respect to the amendment to the comprehensive strategy has been referred has not reported it at the end of 60 calendar days after its referral, it shall be in order to move either to discharge any such committee from further consideration of such concurrent resolution or to discharge any such committee from further consideration of any other concurrent resolution with respect to such amendment to the comprehensive strategy which has been referred to such committee.

(2) A motion to discharge may be made only by an individual favoring such concurrent resolution, shall be highly privileged (except that it may not be made after all committees to which such joint resolution has been referred have reported a concurrent resolution with respect to the request), and debate thereon shall be limited to not more than 1 hour, to be divided equally between those favoring and those opposing the concurrent resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

SUBTITLE D—FINANCIAL ASSISTANCE

AUTHORIZATION OF FINANCIAL ASSISTANCE

42 USC 8731.

SEC. 131. (a) Financial assistance shall be awarded to a qualified concern whose proposal is most responsive to a solicitation for proposals issued under the authority of section 127 and is most likely to advance the purposes of this title, including consideration of price and other factors. Whenever, in the judgment of the Board of Directors, it is practicable and provident to do so, the Corporation shall award financial assistance on the basis of competitive bids.

(b)(1) Subject to the limitations set forth in this part, the Corporation is authorized, upon such terms and conditions as the Board of Directors shall determine—

(A) to provide financial assistance to a qualified concern whose proposal is most responsive to a solicitation for proposals issued under the authority of section 127;

(B) with the consent of the recipient, to renew, modify, or extend such financial assistance; and

(C) in connection with the awarding of financial assistance, to require such security and collateral as the Corporation deems appropriate for the repayment of any fixed or contingent obligations to the Corporation.

(2) The proposal selected for financial assistance pursuant to any solicitation shall be that proposal which, in the judgment of the Board of Directors, is most advantageous in meeting the national synthetic fuel production goal established under section 125. Preference in such selection shall be given to—

(A) the proposal which represents the least commitment of financial assistance by the Corporation and the lowest unit production cost within a given technological process, taking into account the amount and value of the anticipated synthetic fuel products; and

(B) in determining the relative commitment of the Corporation, in decreasing order of priority—

(i) price guarantees, purchase agreements, or loan guarantees;

(ii) loans; and

(iii) joint-ventures.

(3) The Corporation shall also consider, in awarding financial assistance, among other relevant factors—

(A) the diversity of technologies (including differing processes, methods, and techniques); and

(B)(i) the potential cost per barrel or unit production of synthetic fuel from the proposed synthetic fuel project;

(ii) the overall production potential of the technology, considering the potential for replication, the extent of the resource and its geographic distribution, and the potential end use; and

(iii) the potential of the technology for complying with applicable regulatory requirements.

(4) If after a formal solicitation for competitive bids no bids are received during the period for response, or those received are not acceptable to the Board of Directors, and the Board of Directors makes a finding (A) that the synthetic fuel project is essential for the achievement of the national synthetic fuel production goal established under section 125 and the requirements of section 126(a) and (B) that competitive bids are not appropriate, the Board of Directors shall report such findings to the Committee on Energy and Natural Resources of the Senate and the Speaker of the House of Representatives and may then proceed to negotiate a contract of financial assistance for such project with a qualified concern.

Report to congressional committees.

(c) All contracts and instruments of the Corporation to provide, or providing, for financial assistance shall be general obligations of the United States backed by its full faith and credit.

(d) Subject to the conditions of any contract for financial assistance, such contract shall be incontestable in the hands of the holder, except as to fraud or material misrepresentation on the part of the holder.

(e) Any contract for financial assistance shall require the development of a plan, acceptable to the Board of Directors, for the monitoring of environmental and health related emissions from the construction and operation of the synthetic fuel project. Such plan shall be developed by the recipient of financial assistance after consultation with the Administrator of the Environmental Protection Agency, the Secretary of Energy, and appropriate State agencies.

(f) Notwithstanding the provisions of the Federal Financing Bank Act of 1973 (12 U.S.C. 2281 et seq.) or any other provision of law

(except as may be specifically provided by reference to this subsection in any Act enacted after the effective date of this part), no debt obligation which is made or committed to be made, or which is guaranteed or committed to be guaranteed by the Corporation, or which is secured in whole or in part by financial assistance provided by the Corporation, shall be eligible for purchase by, or commitment to purchase by, or sale or issuance to, the Federal Financing Bank or any Federal agency or department of the United States, except as provided in section 151.

Application.

(g) No financial assistance may be awarded unless an application therefor has been submitted to the Corporation in such manner and containing such information as the Corporation may require.

(h) The Corporation in awarding financial assistance shall give due consideration to promoting competition.

(i) Every applicant for financial assistance under this part shall, as a condition precedent thereto, consent to such examinations and reports thereon as the Corporation or its designee may require for the provisions of this part. The Corporation shall require such reports and records as it deems necessary from any recipient of financial assistance in connection with activities carried out pursuant to this part. The Corporation is authorized to prescribe the manner of keeping records by any recipient of financial assistance and the Corporation or its designee shall have access to such records at all reasonable times for the purpose of insuring compliance with the terms and conditions upon which financial assistance was awarded.

(j)(1) In no case shall the aggregate amount of financial assistance awarded or committed under this part exceed at any one time 15 per centum of the total obligational authority of the Corporation authorized under section 152—

(A) to any one synthetic fuel project, either directly or indirectly; or

(B) to any one person, including such person's affiliates and subsidiaries, either directly or indirectly.

(2) For the purpose of determining compliance with paragraph (1)(B), any financial assistance to a synthetic fuel project under this part shall be allocated among the project participants in direct proportion to each person's participation in such project.

(k)(1) Any contract for financial assistance shall specify in dollars the maximum amount of the liability of the Corporation under such contract, as computed in accordance with section 152.

Notification.

(2) The Corporation shall notify the Secretary of the Treasury of its intention to enter into a contract for financial assistance prior to the execution of such contract.

(3) Any such contract shall be accompanied by a certification by the Secretary of the Treasury pursuant to section 195(a)(3) that sufficient unencumbered appropriations are available in the Energy Security Reserve to satisfy the obligation of the contract.

Post, p. 682.

(l) With regard to a synthetic fuel project proposed by a concern whose rates are regulated, or with regard to a synthetic fuel project the management of which proposes to sell synthetic fuels to a person whose rates for the use or transportation of such fuels are regulated, the Corporation is authorized to consider as a factor in any decision to award financial assistance whether the regulatory body, or bodies, are likely to issue a ratemaking decision which will protect the financial interests of the investors and the Corporation.

(m) For the purposes of determining (1) the total costs of the synthetic fuel project for sections 132 and 133, and (2) the total costs of

the synthetic fuel project module for section 136, any real or personal property or services obtained for the facility in a transaction with any person or concern (including an affiliated company as defined in section 2(a)(2) of the Investment Company Act of 1940 (15 U.S.C. 80a-2(a)(2)) and an affiliated person as defined in section 2(a)(3) of such Act (15 U.S.C. 80a-2(a)(3))) who has, or will have, an ownership or profit interest in the facility shall be valued at the lower of the cost to the project or fair market value, disregarding any portion of such fair market value which is attributable to the prospect of receiving financial assistance under this part.

(n) The Corporation, as a condition to providing financial assistance, other than loans pursuant to section 132 and loan guarantees pursuant to section 133, may require that the Corporation share in profits from the operation of a synthetic fuel project on a fair basis.

(o) Whenever the Corporation, by one or more actions, awards a combination of two or more forms of financial assistance for a single synthetic fuel project, the Corporation shall insure that the recipient of such financial assistance shall bear a reasonable degree of risk in the construction and operation of such project: *Provided, however,* That any person who is solely in the position of a lender shall not be required to bear such risk. The Corporation shall not award more than a single form of financial assistance under this part unless the Board of Directors determines that multiple forms of financial assistance are required for the viability of the project, and further, that the project is necessary to achieve the purposes of this title and the provisions of this part.

(p) The Corporation shall not award financial assistance in the form of loans pursuant to section 132 or joint ventures pursuant to section 136 unless the Board of Directors determines that neither price guarantees, purchase agreements, nor loan guarantees will adequately support the construction and operation of the synthetic fuel project or will restrict the available participants for such project.

(q) The Corporation, in consultation with the Secretary of the Treasury, shall insure to the maximum extent feasible that the timing, interest rate, and substantial terms and conditions of any financial assistance will have the minimum possible impact on the capital markets of the United States, taking into account Federal activities which directly or indirectly influence such capital markets. Additionally, the Corporation shall impose such terms and conditions on any financial assistance (after evaluating the financing of the synthetic fuel project, the tax benefits which would be available to investors in the synthetic fuel project, and any regulatory actions associated with the synthetic fuel project) as may be necessary to assure that any investors having an ownership or profit interest in the synthetic fuel project bear a substantial risk of after tax loss in the event of any default or other cancellation of the synthetic fuel project.

(r) The Corporation shall insure that financial assistance awarded under this part for (1) loans pursuant to section 132, (2) loan guarantees pursuant to section 133, (3) joint ventures pursuant to section 136, or (4) any combination of forms of financial assistance including one or more of the aforementioned forms, in the judgment of the Board of Directors, encourages and supplements, but does not compete with or supplant, any private capital investment which otherwise would be available to a proposed synthetic fuel project on reasonable terms and conditions which would permit such project to be undertaken. To that end, the Corporation shall establish internal

procedures, standards and criteria for the timely review for compliance with such requirement of each new award of financial assistance for a specific proposed synthetic fuel project and, further, the Board of Directors shall determine, in its judgment, that any financial assistance by the Corporation for the project will not compete with nor supplant such available private capital investment and that adequate financing for the project would not otherwise be available to a proposed synthetic fuel project on reasonable terms and conditions which would permit such project to be undertaken.

(s) Any price guarantee pursuant to section 134 or purchase agreement pursuant to section 135 shall include an express provision to the effect that the price guarantee or purchase agreement shall be the subject of review and possible renegotiation, pursuant to section 131(b)(1)(B), within ten years from the date of initial production by the synthetic fuel project, at which point the Corporation shall specifically determine the need for continued financial assistance pursuant to such price guarantee or purchase agreement.

(t) The Corporation shall, in its determination of the need for financial assistance awarded pursuant to this part, take into consideration (1) any specific tax credit directly associated with a synthetic fuel project, (2) any financial assistance that has been or will be provided by Federal or State agencies, and (3) the potential revenues generated by the project from the production of non-synthetic fuel products.

Cost sharing agreements.

(u)(1) The Corporation is authorized to enter into cost-sharing agreements with applicants for financial assistance to refine the design of proposed synthetic fuel projects so as to improve the accuracy of the preliminary total estimated costs upon which financial assistance in the form of loans and loan guarantees will be based. In the event of an award of a loan or loan guarantee, the Corporation's share of any such cost-sharing agreement shall be incorporated in such loan or loan guarantee.

(2) Such cost-sharing agreements shall not exceed 1 percent of the preliminary total estimated cost of the applicant's proposed synthetic fuel project.

(3) The Corporation is authorized to expend not to exceed 1 percent of the aggregate obligational authority under section 151 for cost-sharing agreements under this subsection.

LOANS MADE BY THE CORPORATION

42 USC 8732.

SEC. 132. (a)(1) Subject to the limitations set forth in paragraphs (2) and (3), the Corporation is authorized, on such terms and conditions as the Board of Directors may prescribe, to commit to, or enter into, loans to any concern for a synthetic fuel project.

(2)(A) Subject to the limitation contained in subparagraph (B), loans under this section shall not exceed 75 per centum of the initial total estimated cost of the synthetic fuel project, as estimated by the Corporation as of the date of the loan or commitment to loan.

(B) Any loan under this section shall be limited to the lesser of 49 per centum of the initial total estimated cost or not more than a minority financial position in the project, unless the Board of Directors determines that the borrower has satisfactorily demonstrated that the limits established in this subparagraph would prevent the financial viability of the proposed project and therefore additional loan assistance is necessary.

(3) In the event the total cost of the project are thereafter estimated by the Corporation to exceed the total cost estimated under paragraph (2), the Corporation may, upon application therefor, lend additional amounts as follows:

(A) up to 50 per centum of the difference between the revised total estimated cost and the initial total estimated cost under paragraph (2): *Provided,* That the revised total estimated cost does not exceed 200 per centum of the initial total estimated cost under paragraph (2); and

(B) if the revised total estimated cost exceeds 200 per centum of the initial total estimated cost, up to 40 per centum of the amount in excess of 200 per centum of the initial total estimated cost, except that if the revised total estimated cost exceeds 250 per centum of the initial total estimated cost the Corporation shall not award such additional amounts unless the Corporation has transmitted to the Congress a Corporation synthetic fuel action pursuant to section 128, and such Corporation synthetic fuel action has not been disapproved.

(4) The per centum specified in the exception contained in paragraph (3)(B) shall be computed based upon the initial total estimated cost of the project adjusted to include any increase or decrease pursuant to an appropriate construction price index for the type of construction involved.

(b) Each loan made under this section shall bear interest at such rate as the Corporation may determine, giving consideration to the needs and capacities of the recipient and the prevailing rates of interest (public and private): *Provided,* That such rate shall not be less than a rate determined by the Secretary of the Treasury, for the Corporation, taking into consideration the current average yield on outstanding marketable obligations of the United States with remaining periods of maturity comparable to the average maturities of such loans. No loan shall be made unless the Corporation shall have determined that there is a reasonable prospect of repayment or that successful completion and operation of the synthetic fuel project will have a substantial value in helping to meet the national synthetic fuel production goal established under section 125. Interest rate.

(c) Loans may be made either directly or in cooperation or participation with banks or other lenders. Loans may be made directly upon promissory notes or other evidence of indebtedness or by way of discount or rediscount of obligations tendered for the purpose.

(d) If the Board of Directors determines that the borrower is unable to meet payments under a loan agreement and is not in default, it is in the public interest to permit the borrower to continue to pursue the purposes of the synthetic fuel project, and the probable net benefit to the Corporation in forbearing from exercising its rights under a loan agreement will be greater than that which would result in the event of a default, and if the borrower agrees to make such payments to the Corporation on terms and conditions, including interest, which are satisfactory to the Corporation, then the Corporation may forbear from exercising its rights under the loan agreement.

(e) No loan under this section shall have a maturity date of more than 30 years or the useful life of the synthetic fuel project involved, whichever is less. Maturity date.

LOAN GUARANTEES MADE BY THE CORPORATION

42 USC 8733.

SEC. 133. (a)(1) Subject to the limitations set forth in paragraphs (2) and (3), the Corporation is authorized, on such terms and conditions (including the right of subrogation) as the Board of Directors may prescribe, to commit to, or enter into loan guarantees against loss of principal and interest on bonds, notes, or other obligations (including refinancing thereof) issued solely to provide funds to any concern for a synthetic fuel project.

(2) Loan guarantees under this section shall not exceed 75 per centum of the initial total estimated cost of the synthetic fuel project, as estimated by the Corporation as of the date of the guarantee or commitment to guarantee.

(3) In the event that the total cost of the project are thereafter estimated by the Corporation to exceed the total cost estimated under paragraph (2), by the Corporation, the Corporation may, upon application therefor, guarantee additional amounts as follows:

(A) up to 50 per centum of the difference between the revised total estimated cost and the initial total estimated cost under paragraph (2): *Provided,* That the revised total estimated cost does not exceed 200 per centum of the initial total estimated cost under paragraph (2); and

(B) if the revised total estimated cost exceeds 200 per centum of the initial total estimated cost, up to 40 per centum of the amount in excess of 200 per centum of the initial total estimated cost, except if the revised total estimated cost exceeds 250 per centum of the initial total estimated cost, the Corporation shall not award such additional amounts unless the Corporation has transmitted to the Congress a Corporation synthetic fuel action pursuant to section 128 and such Corporation synthetic fuel action has not been disapproved pursuant to such section.

(C) The per centum specified in the exception contained in subparagraph (B) shall be computed based upon the initial total estimated cost of the project adjusted to include any increase or decrease pursuant to an appropriate construction price index for the type of construction involved.

(4) The Corporation, in reviewing the need for financial assistance pursuant to applications for loan guarantees, shall consider whether the concern or concerns making such application otherwise would be unable, exercising prudent business judgment, as determined by the Board of Directors, to finance the synthetic fuel project, taking into account among other factors, the availability of debt financing under normal lending criteria based on the assets associated with the project.

(5) Any loan guarantee made by the Corporation under this section shall not be terminated, canceled, or otherwise revoked, except in accordance with the terms thereof, and shall be conclusive evidence that such loan guarantee complies fully with the provisions of this part and of the approval and legality of the principal amount, interest rate, and all other terms of the securities, obligations, or loans and of the guarantee.

(6) The Corporation is authorized pursuant to paragraph (1) to award loan guarantees to any concern with a partial interest in a synthetic fuel project.

(b) If the Board of Directors determines that—

(1) the borrower is unable to meet payments and is not in default; it is in the public interest to permit the borrower to

continue to pursue the purposes of such project; and the probable net benefit to the Corporation in paying the principal and interest due under a loan guarantee agreement will be greater than that which would result in the event of a default;

(2) the amount of any payment which the Corporation would be required to pay shall be no greater than the amount of principal and interest which the borrower is obligated to pay at that time; and

(3) the borrower agrees to reimburse the Corporation for such payment on terms and conditions, including interest, which are satisfactory to the Corporation,

then the Corporation is authorized to pay the lender under a loan guarantee agreement, an amount not greater than the principal and interest which the borrower is obligated to pay and which the Corporation has guaranteed under such agreement.

(c) No loan guaranteed under this section shall have a maturity date of more than 30 years or the useful life of the synthetic fuel project involved, whichever is less. Maturity date.

PRICE GUARANTEES MADE BY THE CORPORATION

SEC. 134. The Corporation is authorized, on such terms and conditions as the Board of Directors may prescribe, to commit to, or enter into, price guarantees providing that the price that a concern will receive for all or part of the production from a synthetic fuel project shall not be less than a specified sales price determined as of the date of execution of the commitment or the price guarantee: *Provided,* That no such price guarantee may be based upon a "cost plus" arrangement or variant thereof which guarantees a profit to the concern, except that the use of a "cost of service" pricing mechanism by a concern pursuant to law, or by a regulatory body establishing rates for a regulated concern, shall not be deemed to be a "cost plus" arrangement or variant thereof: *Provided further,* That if the Corporation determines in its sole discretion that such project would not otherwise be satisfactorily completed or continued and that completion or continuation of such project would be necessary to achieve the purposes of this title, the sales price set forth in the price guarantee may be renegotiated. In awarding financial assistance under this section, the Corporation shall establish such specified sales price at the level which will provide the minimum subsidy determined by the Board of Directors to be necessary to provide an adequate incentive, in light of projected prices of competing fuels and the requirements for economic and financial viability of the synthetic fuel project. 42 USC 8734.

PURCHASE AGREEMENTS MADE BY THE CORPORATION

SEC. 135. (a) The Corporation is authorized, on such terms and conditions as the Board of Directors may prescribe, to commit to, or enter into purchase agreements for all or part of the production from a synthetic fuel project. The sales price specified in a purchase agreement shall not exceed the estimated prevailing market price as of the date of delivery, as determined by the Secretary of Energy, unless the Corporation determines that such sales price must exceed such estimated prevailing market price in order to insure the production of synthetic fuel to achieve the purposes of this title. 42 USC 8735.

(b) The Corporation in entering into, or committing to enter into a purchase agreement shall require—

(1) assurance that the quality of the synthetic fuel purchased meets standards for the use for which such fuel is purchased;

(2) assurances that the ordered quantities of such fuels are delivered on a timely basis; and

(3) such other assurances as may reasonably be required.

(c) Each purchase agreement, or commitment to enter into a purchase agreement, shall provide that the Corporation retain the right to refuse delivery of the synthetic fuel involved upon such terms and conditions as shall be specified in the purchase agreement.

(d) The Corporation is authorized to take delivery of synthetic fuel pursuant to a purchase agreement and, subject to section 172(d), to sell such synthetic fuel. In any case in which the Corporation accepts delivery of and does not sell such synthetic fuel to a person, such synthetic fuel may be purchased by the Federal Government for use by an appropriate Federal agency. Such Federal agency shall pay the prevailing market price, as determined by the Secretary of Energy, for the product which such synthetic fuel is replacing from sums appropriated to such Federal agency for the purchase of fuel.

(e) The Corporation is authorized to transport and store and have processed and refined any synthetic fuel obtained pursuant to a purchase agreement under this section.

JOINT VENTURES BY THE CORPORATION

42 USC 8736.

SEC. 136. (a) Prior to the approval of a comprehensive strategy pursuant to section 126(c), the Corporation is authorized, on such terms and conditions as the Board of Directors may prescribe, to commit to, or to enter into joint ventures for synthetic fuel project modules. In the selection of a concern or concerns for a joint venture and in the negotiation of a joint venture agreement pursuant to this section, the Corporation may, to the extent that the Corporation does not have available sufficient capability for evaluation or management of the proposed joint venture, utilize personnel of the Department of Energy, pursuant to section 171(a)(9), to the extent that such personnel have technical expertise related to the technical matters associated with such selection and negotiation. In a joint venture the Corporation may undertake the construction and operation of a synthetic fuel project module only by contract: *Provided, however,* That the Corporation shall not finance more than 60 per centum of the total costs of the synthetic fuel project module, as estimated by the Corporation as of the date of execution of the joint venture agreement.

(b) Any joint venture shall be restricted to a synthetic fuel project module which, in the judgment of the Board of Directors, will—

(1) demonstrate the commercial feasibility of a technology for the production of synthetic fuel from a significant domestic resource which offers potential for achievement of the national synthetic fuel production goal set forth in section 125; and

(2) can, at the same site, be expanded into a synthetic fuel project.

(c) With regard to any joint venture, the initial contract may provide for purchase pursuant to such joint venture agreement of the equity interest of the Corporation in such joint venture by the participating concern, or concerns, after an appropriate interval, not to exceed five years after the date of operation of a synthetic fuel project module. The purchase price set forth in the joint venture agreement shall be established by the Board of Directors: *Provided,*

That if such purchase from the Corporation is not provided for in the initial joint venture agreement or is not exercised by such concern, or concerns, the Corporation, after an appropriate interval, not to exceed five years after the date of operation of a synthetic fuel project module pursuant to a joint venture agreement, shall dispose of its participation in such agreement pursuant to section 181.

(d)(1)(A) For the purposes of this section, the term "synthetic fuel project module" means any facility located in the United States which— "Synthetic fuel project module."

(i) is of a size smaller than a synthetic fuel project;

(ii) will, if successful, demonstrate the technical and economic feasibility of the commercial production of synthetic fuels; and

(iii) can eventually be expanded at the same site into a synthetic fuel project.

(B) Such term may include the necessarily related transportation or other facilities, equipment, plant, machinery, supplies, other materials, land, and mineral rights as described in section 112(18), (including all limitations and requirements in section 112(18)) associated with a synthetic fuel project module.

(2) For purposes of this section, the term "joint venture" means an agreement under which the Corporation and one or more persons participate in construction and operation of a synthetic fuel project module: *Provided,* That the interest of the Corporation in such joint venture shall be in proportion to the relative contribution of the Corporation to the joint venture. "Joint venture."

(e) The Corporation participation in any joint venture pursuant to this section shall be limited to financial participation only and shall not include any direct role in the construction or operation of the module, other than as provided in subsection (f). Additionally, the Corporation's participation in any joint venture shall, pursuant to partnership law applicable to such joint venture, be limited to limited partnership status.

(f)(1) Nothing in this section shall prohibit the Corporation from negotiating, as part of the joint venture agreement pursuant to this section, such participation of the Corporation in the management decisions of the joint venture as the Board of Directors deems appropriate and necessary pursuant to the Corporation's financial interest in the joint venture.

(2) In no event, however, shall the persons in the joint venture agreement be denied the primary responsibility for management of the joint venture. The Corporation shall be liable only to the extent of its contractual commitment to contribute capital to the venture. No additional liability shall ensue even if, and to the extent that, the Corporation were to assume a role which might be construed to constitute the role of a general partner.

CONTROL OF ASSETS

SEC. 137. (a) The Corporation may acquire or retain control of a synthetic fuel project only— 42 USC 8737.

(1) by foreclosure of a security interest or pursuant to a default under any financial assistance contract;

(2) pursuant to section 136 or subsection (b) of this section; or

(3) pursuant to subtitle E.

(b) The Corporation may acquire control of a synthetic fuel project which, prior to the approval of the comprehensive strategy pursuant

Ante, p. 644.

to section 126(c), is the subject of financial assistance under this part under the following circumstances:

(1) substantial progress has been made toward completion of the construction and operation of such project and the Board of Directors determines that such project will not commence operation, or will cease operation unless acquired by the Corporation;

(2) the operation of such project will make a significant contribution toward achieving the purposes of this title;

(3) such acquisition of control will not result in losses to the Corporation disproportionate to the benefits that operation of the project will produce in demonstrating a particular technology;

(4) failure of the Corporation to acquire such project would result in a greater financial liability of the Corporation than acquisition of the project by the Corporation; and

(5) with respect to projects subject to loans or loan guarantees, the Board of Directors determines that the concern is in default or immediately will go into default:

Provided, That the Corporation may not acquire any such control until it has submitted a plan for such acquisition to the President and the President approves such plan and transmits, with respect to such plan, a Corporation synthetic fuel action pursuant to section 128 and such Corporation synthetic fuel action has not been disapproved pursuant to such section: *Provided further,* That completion of the construction or operation of any such project, the control of which was acquired pursuant to this subsection, may only be undertaken by contract: *Provided additionally,* That authorities in this subsection shall not be available for synthetic fuel projects which are the subject of price guarantees or purchase agreements.

(c) With respect to a synthetic fuel project subject to a loan or loan guarantee where the Corporation acquires control pursuant to subsection (b), the Corporation, on such terms and conditions as the Board of Directors may prescribe, is authorized to lease back to the concern involved such synthetic fuel project where such lease will assure the production of synthetic fuels from such project consistent with the purposes of this title: *Provided,* That the Corporation may not lease back such a project until it has submitted a plan regarding such lease-back to the President and the President approves such plan and transmits, with respect to such plan, a Corporation synthetic fuel action pursuant to section 128 and such Corporation synthetic fuel action has not been disapproved pursuant to such section.

(d) For the purposes of this section, the term—

"Operating asset."

(1) "operating asset" means any real or personal property used in the synthetic fuel project; and

"Control."

(2) "control" means the power to direct the use or disposition of operating assets of the synthetic fuel project through (A) direct ownership; or (B) ownership of the majority of the voting securities of a corporation or other concern which (i) owns or (ii) leases a synthetic fuel project: *Provided,* That "control" shall not be deemed to result from the ownership of operating assets of a synthetic fuel project which are leased back in accordance with subsection (c).

(e) Any control of synthetic fuel projects obtained pursuant to subsection (b) or (c) must be disposed of within not more than five years after the date of the acquisition of such control.

UNLAWFUL CONTRACTS

SEC. 138. Sections 431 and 432 of title 18, United States Code, shall apply to all contracts, instruments, or agreements of the Corporation, other than those contracts, instruments, or agreements of the Corporation which are exempted from the application of such sections by section 433 of such title, as if the Corporation were an agency of the United States. Such contracts, instruments, or agreements include financial assistance, advances, discounts and rediscounts, acceptances, releases, and substitution of security, together with extensions or renewals thereof. 42 USC 8738.

(b) The Corporation shall prescribe and collect an annual fee in connection with each loan guarantee provided pursuant to this part of one-half of 1 per centum of the amount of such loan guarantee. Sums realized from such loan guarantee fees shall be deposited in the Energy Security Reserve and shall be used solely to meet obligations arising from default by a recipient of financial assistance under this part.

DISPOSITION OF SECURITIES

SEC. 140. The Corporation shall, as soon as practicable, sell in public or private transactions all or any part of the notes, bonds, or any other evidences of indebtedness (except for the instrument of indebtedness received by the Corporation for any loan pursuant to section 132) of any other person ownership of which is acquired by the Corporation pursuant to this part: *Provided,* That, in the case of joint ventures pursuant to section 136 and Corporation construction projects, any contract by the Corporation in connection therewith shall provide for the disposition, as soon as practicable, of any notes, bonds, or other evidences of ownership acquired by the Corporation pursuant to this part. 42 USC 8740.

(1) whether the synthetic fuel product can be sold at a price which is competitive with imported crude oil;

(2) whether such technology can be operated on a commercial scale in compliance with applicable environmental requirements, including the Federal Water Pollution Control Act (33 U.S.C. 1151-1175) and the Clean Air Act (42 U.S.C. 7400 et seq.);

(3) the effect on regional and local water supplies of the project and the commercial operation of such technology;

42 USC 8813.

SEC. 213. (a) Subject to sections 212 and 217, the Secretary of Agriculture may commit to make, and make, insured loans in amounts not to exceed $1,000,000 per project for the construction of small-scale biomass energy projects.

(b)(1) Any insured loan under this section—

(A) may not exceed 90 per centum of the total estimated cost of construction of the biomass energy project involved, and

(B) shall bear interest at rates determined by the Secretary of Agriculture, taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, plus not to exceed one per centum, as determined by the Secretary of Agriculture, and adjusted to the nearest one-eighth of one per centum.

(2) In the event the total estimated costs of construction of the project thereafter exceed the total estimated costs initially determined by the Secretary of Agriculture, the Secretary may in addition, upon application therefor, make an insured loan for so much of the additional estimated total costs as does not exceed 10 per centum of the total costs initially estimated.

(c)(1) The Secretary of Agriculture shall make insured loans under this section using, to the extent provided in advance in appropriations Acts, the Agricultural Credit Insurance Fund in section 309 of the Consolidated Farm and Rural Development Act or the Rural Development Insurance Fund in section 309A of such Act (hereinafter in this section referred to as the "Funds"). 7 USC 1921 note.

"Insured loan."

(4) For purposes of this section, the term "insured loan" means a loan which is made, sold, and insured.

(d) An insured loan may not be made under this section unless the applicant for such loan has established to the satisfaction of the Secretary that the applicant is unable without such a loan to obtain sufficient credit elsewhere at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms for loans for similar purposes and periods of time, to finance the construction of the biomass energy project for which such loan is sought.

LOAN GUARANTEES

42 USC 8814.

SEC. 214. (a) Subject to sections 212 and 217, the Secretary concerned may commit to guarantee, and guarantee, against loss of

principal and interest, loans which are made to provide funds for the construction of biomass energy projects.

(b)(1) Any guarantee of a loan under this section may not exceed 90 per centum of the cost of the construction of the biomass energy project involved, as estimated by the Secretary on the date of the guarantee or commitment to guarantee.

(2) In the event the construction costs of the project are thereafter estimated by the Secretary concerned to exceed the construction costs initially estimated by the Secretary, the Secretary may in addition, upon application therefor, guarantee, against loss of principal and interest, a loan for up to 60 per centum of the difference between the construction costs then estimated and the construction costs initially estimated.

(c) Notwithstanding the provisions of the Federal Financing Bank Act of 1973 (12 U.S.C. 2281 et seq.) or any other provision of law (except as may be specifically provided by reference to this subsection in any Act enacted after the date of the enactment of this Act), no debt obligation which is guaranteed or committed to be guaranteed by the Secretary of Agriculture or the Secretary of Energy under this section shall be eligible for purchase by, or commitment to purchase by, or sale or issuance to, the Federal Financing Bank or any Federal agency.

(d) The terms and conditions of loan guarantees under this section shall provide that, if the Secretary concerned makes a payment of principal or interest upon the default by a borrower, the Secretary shall be subrogated to the rights of the recipient of such payment (and such subrogation shall be expressly set forth in the loan guarantee or related agreements). Terms and conditions.

(e) Any loan guarantee under this section shall not be terminated, canceled, or otherwise revoked, except in accordance with the terms thereof and shall be conclusive evidence that such guarantee complies fully with the provisions of this title and of the approval and legality of the principal amount, interest rate, and all other terms of the securities, obligations, or loans and of the guarantee.

(f) If the Secretary concerned determines that— Payment to lender, conditions.

(1) the borrower is unable to meet payments and is not in default,

(2) it is in the public interest to permit the borrower to continue with such project, and

(3) the probable net benefit to the United States in paying the principal and interest due under the loan will be greater than that which would result in the event of a default,

then the Secretary may pay to the lender under a loan guarantee agreement an amount not greater than the principal and interest which the borrower is obligated to pay to such lender, if the borrower agrees to reimburse the Secretary for such payment on terms and conditions, including interest, which the Secretary determines are sufficient to protect the financial interests of the United States.

(g)(1) A loan may not be guaranteed under this section unless the applicant for such loan has established to the satisfaction of the Secretary concerned that the lender is not willing without such a guarantee to extend credit to the applicant at reasonable rates and terms, taking into consideration prevailing rates and terms for loans for similar purposes and periods of time, to finance the construction of the biomass energy project for which such loan is sought.

(2) The Secretary concerned shall ensure that the lender bears a reasonable degree of risk in the financing of such project.

PRICE GUARANTEES

42 USC 8815.

SEC. 215. (a) Subject to sections 212 and 217, the Secretary concerned may commit to guarantee, and guarantee, that the price that the owner or operator of any biomass energy project will receive for all or part of the production from that project shall not be less than a specified sales price determined as of the date of execution of the price guarantee or commitment to guarantee.

(b)(1) No price guarantee under this section may be based upon a cost-plus arrangement, or variant thereof, which guarantees a profit to the owner or operator involved.

(2) The use of a cost-of-service pricing mechanism by a person pursuant to law, or by a regulatory body establishing rates for a regulated person, shall not be deemed to be a cost-plus arrangement, or variant thereof, for purposes of paragraph (1).

(c) Each price guarantee, or commitment to guarantee, which is made under this section shall specify the maximum dollar amount of liability of the United States under that guarantee.

(d) If the Secretary determines, in the discretion of the Secretary, that—

(1) a biomass energy project would not otherwise be satisfactorily completed or continued, and

(2) completion or continuation of such project would be necessary to achieve the purposes of this title,

the sales price set forth in the price guarantee, and maximum liability under such guarantee, may be renegotiated.

PURCHASE AGREEMENTS

Conditions.
42 USC 8816.

SEC. 216. (a) Subject to sections 212 and 217, the Secretary concerned may commit to make, and make, purchase agreements for all or part of the biomass energy production of any biomass energy project, if the Secretary determines—

(1) that such biomass energy is of a type, quantity, and quality that can be used by Federal agencies; and

(2) that the quantity of such biomass energy, if delivery is accepted, would not exceed the likely needs of Federal agencies.

Each Secretary concerned shall consult with the other Secretary before making any determination under paragraph (2).

(b) The sales price specified in a purchase agreement under this section may not exceed the estimated prevailing market price as of the date of delivery, as determined by the Secretary of Energy, unless the Secretary concerned determines that such sales price must exceed the estimated prevailing market price in order to ensure the production of biomass energy to achieve the purposes of this title.

Requirements.

(c) The Secretary concerned in entering into, or committing to enter into, a purchase agreement under this section shall require—

(1) assurances that the quality of the biomass energy purchased will meet standards for the use for which such energy is purchased;

(2) assurances that the ordered quantities of such energy will be delivered on a timely basis; and

(3) such other assurances as may reasonably be required.

(d) The Secretary concerned may take delivery of biomass energy pursuant to a purchase agreement under this section if appropriate arrangements have been made for its distribution to and use by one or more Federal agencies. Any Federal agency receiving such energy

shall be charged (in accordance with otherwise applicable law), from sums appropriated to such Federal agency, for the prevailing market price as of the date of delivery, as determined by the Secretary of Energy, for the product which the biomass energy is replacing.

(e) The Secretary concerned shall consult with the Secretary of Defense and the Administrator of the General Services Administration in carrying out this section. Consultation.

(f) Each purchase agreement, and commitment to enter into a purchase agreement, under this section shall provide that the Secretary concerned retains the right to refuse delivery of the biomass energy involved upon such terms and conditions as shall be specified in the purchase agreement. Terms and conditions.

(g) Each purchase agreement, or commitment to enter into a purchase agreement, which is made under this section shall specify the maximum dollar amount of liability of the United States under that agreement.

(h) If the Secretary concerned determines, in the discretion of the Secretary, that—

(1) a biomass energy project would not otherwise be satisfactorily completed or continued, and

(2) completion or continuation of such project would be necessary to achieve the purposes of this title,

the sales price set forth in the purchase agreement, and maximum liability under such agreement, may be renegotiated.

GENERAL REQUIREMENTS REGARDING FINANCIAL ASSISTANCE

SEC. 217. (a)(1) Priority for financial assistance under this subtitle, and the most favorable financial terms available, shall be provided to a person for any biomass energy project that— 42 USC 8817.

(A) uses a primary fuel other than petroleum or natural gas in the production of biomass fuel, such as geothermal energy resources, solar energy resources, or waste heat; or

(B) applies new technologies which expand the possible feedstocks, produces new forms of biomass energy, or produces biomass fuel using improved or new technologies.

Nothing in this paragraph shall be construed to exclude financial assistance for any project which does not use such a fuel or apply such a technology.

(2)(A) Financial assistance under this subtitle shall be available for a biomass energy project only if the Secretary concerned finds that the Btu content of the motor fuels to be used in the facility involved to produce the biomass fuel will not exceed the Btu content of the biomass fuel produced in the facility.

(B) In making the determination under subparagraph (A), the Secretary concerned shall take into account any displacement of motor fuel or other petroleum products which the applicant has demonstrated to the satisfaction of the Secretary would result from the use of the biomass fuel produced in the facility involved.

(3) No financial assistance may be provided under this subtitle to any person for any biomass energy project if the Secretary concerned finds that the process to be used by the project will not extract the protein content of the feedstock for utilization as food or feed for readily available markets in any case in which to do so would be technically and economically practicable.

(4) Financial assistance may not be provided under this subtitle to any person unless the Secretary concerned—

(A) finds that necessary feedstocks are available and it is reasonable to expect they will continue to be available in the future, and, for biomass energy projects using wood or wood wastes or residues from the National Forest System, there shall be taken into account current levels of use by then existing facilities;

(B) has obtained assurance that the person receiving such financial assistance will bear a reasonable degree of risk in the construction and operation of the project; and

(C) has determined that the amount of financial assistance provided for the project is not greater than is necessary to achieve the purposes of this title.

(5) In providing financial assistance under this subtitle, the Secretary concerned shall give due consideration to promoting competition.

Byproducts.

(6) In determining the amount of financial assistance for any biomass energy project which will yield byproducts in addition to biomass energy, the Secretary shall consider the potential value of such byproducts and the costs attributable to their production.

Loan repayments.

(b) An insured loan may not be made, and a loan guarantee may not be issued, under this subtitle unless the Secretary concerned determines that the terms, conditions, maturity, security, and schedule and amounts of repayments with respect to such loan are reasonable and meet such standards as the Secretary determines are sufficient to protect the financial interests of the United States.

Application for financial assistance.

(c)(1) No financial assistance may be provided to any person under this subtitle unless an application therefor—

(A) has been submitted to the Secretary concerned by that person in such form and under such procedures as the Secretary shall prescribe, consistent with the requirements of this subtitle, and

(B) has been approved by the Secretary in accordance with such procedures.

(2) Each such application shall include information regarding the construction costs of the biomass energy project involved, and estimates of operating costs and income relating to that project (including the sale of any byproducts from that project). In addition, each applicant shall provide—

(A) access at reasonable times to such other information, and

(B) such assurances,

as the Secretary concerned may require.

(d)(1) Every recipient of financial assistance under this subtitle shall, as a condition precedent thereto, consent to such examinations and reports regarding the biomass energy project involved as the Secretary concerned may require.

Reports; recordkeeping requirements.

(2) With respect to each biomass energy project for which financial assistance is provided under this subtitle, the Secretary shall—

(A) require from the recipient of financial assistance such reports and records relating to that project as the Secretary deems necessary;

(B) prescribe the manner in which such recipient shall keep such records; and

(C) have access to such records at reasonable times for the purpose of ensuring compliance with the terms and conditions upon which financial assistance is provided.

(e) All contracts and instruments of the Secretary concerned to provide, or providing, for financial assistance shall be general obligations of the United States backed by its full faith and credit.

(f) Subject to the conditions of any contract for financial assistance, such contract shall be incontestable in the hands of the holder, except as to fraud or material misrepresentation on the part of the holder.

(g)(1) A fee or fees may be charged and collected by the Secretary concerned for any loan guarantee, price guarantee, or purchase agreement provided under this subtitle. Fees.

(2) The amount of such fee shall be based on the estimated administrative costs and risk of loss, except that such fee may not exceed 1 per centum of the amount of the financial assistance provided.

(h) All amounts received by the Secretary of Agriculture or the Secretary of Energy as fees, interest, repayment of principal, and any other moneys received by either Secretary from activities under this subtitle shall be deposited in the Treasury of the United States as miscellaneous receipts. The preceding sentence shall not apply to insured loans made under section 213.

REPORTS

SEC. 218. (a) The Secretary of Agriculture and the Secretary of Energy shall each prepare and submit to the President and the Congress quarterly reports on their activities under this subtitle. Submittal to Congress. 42 USC 8818.

(b) Within 120 days after the date of enactment of this Act, the Secretary of Energy and the Secretary of Agriculture shall submit to the Congress a comprehensive list of all the types of loans, grants, incentives, rebates, or any other such private, State, or Federal economic or financial benefits now in effect or proposed which can be or have been used for production of alcohol to be used as a motor fuel or petroleum substitute. List of loans or grants for alcohol production.

(c)(1)(A) The Office of Alcohol Fuels shall submit to the Congress and the President annual reports containing a general description of the Office's operations during the year and a description and evaluation of each biomass energy project for which financial assistance by the Office is then in effect.

(B) Each annual report shall describe progress made toward meeting the goals of this subtitle and contain specific recommendations on what actions the Congress could take in order to facilitate the work of the Office in achieving such goals.

(C) Each annual report under this subsection shall contain financial statements prepared by the Office.

(2) On or before September 30, 1990, the Office shall submit to the Congress and the President a report evaluating the overall impact made by the Office and describing the status of each biomass energy project which has received financial assistance under this subtitle from the Office. Such report shall contain a plan for the termination of the work of the Office. Termination plan.

REVIEW; REORGANIZATION

SEC. 219. (a) The President shall review periodically the progress of the Secretary of Agriculture and the Secretary of Energy in carrying out the purposes of this subtitle. 42 USC 8819.

(b) If the President determines it necessary in order to achieve such purposes the President may, in accordance with the provisions of

5 USC 901 *et seq.* chapter 9 of title 5, United States Code, provide for a reorganization, including any required realignment of the respective programs of the Secretaries under this subtitle.

ESTABLISHMENT OF OFFICE OF ALCOHOL FUELS IN DEPARTMENT OF ENERGY

42 USC 8820. SEC. 220. (a) There is hereby established within the Department of Energy an Office of Alcohol Fuels (hereinafter in this section referred to as the "Office") to be headed by a Director, who shall be appointed by the President, by and with the advice and consent of the Senate, and who shall be compensated at the rate provided for level IV of the Executive Schedule under section 5315 of title 5, United States Code.

In the preparation of such plan, the Secretary shall consult with the Administrator of the Environmental Protection Agency, the Secretary of Commerce, and

the head of such other Federal agencies as the Secretary deems appropriate.

(b) Not later than 90 days after the date of the enactment of this Act, the Secretary shall transmit the comprehensive plan to the President and the Congress. Transmittal to President and Congress.

(c) The comprehensive plan under this section shall include a statement setting forth— Statement.

(1) the anticipated research, development, demonstration, and commercialization objectives to be achieved;

(2) the management structure and approach to be adopted to carry out such plan;

(3) the program strategies, including detailed milestone goals to be achieved;

(4) the specific funding requirements for individual program elements and activities, including the total estimated construction costs of proposed projects; and

(5) the estimated relative financial contributions of the Federal Government and non-Federal participants in the program.

(d) Not later than January 1, 1982, the Secretary shall prepare and submit to the President and the Congress a report containing a complete description of any financial, institutional, environmental, and social barriers to the development and application of technologies for the recovery of energy from municipal wastes. Report to President and Congress.

CONSTRUCTION LOANS

SEC. 232. (a) Subject to sections 235 and 236, the Secretary of Energy may commit to make, and make, loans for the construction of municipal waste energy projects. 42 USC 8832.

(b)(1) Any loan under this section—

(A) may not exceed 80 per centum of the total estimated cost of the construction of the municipal waste energy project involved, and

(B) shall bear interest at a rate determined by the Secretary of Energy (taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans) plus not to exceed one per centum, as determined by the Secretary of Energy, and adjusted to the nearest one-eighth of one per centum.

(2) In the event the total estimated costs of construction of the project thereafter exceed the total estimated costs initially determined by the Secretary of Energy, the Secretary may in addition, upon application therefor, make a loan for so much of the additional estimated costs as does not exceed 10 per centum of the initial total estimated costs of construction.

(c) A loan may not be made under this section unless the person applying for such loan has established to the satisfaction of the Secretary of Energy that the applicant is unable without such a loan to obtain sufficient credit elsewhere at reasonable rates and terms, taking into consideration prevailing market rates and terms for loans for similar periods of time, to finance the construction of the project for which such loan is sought.

GUARANTEED CONSTRUCTION LOANS

42 USC 8833.

SEC. 233. (a) Subject to sections 235 and 236, the Secretary of Energy may commit to guarantee, and guarantee, against loss on up to 90 per centum of the principal and interest, any loan which is made solely to provide funds for the construction of a municipal waste energy project and which does not exceed 90 per centum of the cost of the construction of the project involved, as estimated by the Secretary on the date of the guarantee or commitment to guarantee.

(b) In the event the total estimated costs of construction of the project thereafter exceed the total estimated costs initially determined by the Secretary of Energy, the Secretary may in addition, upon application therefor, guarantee, against loss on up to 90 per centum of the principal and interest, a loan for so much of the additional estimated total costs as does not exceed 10 per centum of the total estimated costs.

Terms and conditions.

(c) The terms and conditions of loan guarantees under this section shall provide that, if the Secretary of Energy makes a payment of principal or interest upon the default by a borrower, the Secretary shall be subrogated to the rights of the recipient of such payment (and such subrogation shall be expressly set forth in the loan guarantee or related agreements).

(d) Any loan guarantee under this section shall not be terminated, canceled, or otherwise revoked, except in accordance with the terms thereof and shall be conclusive evidence that such guarantee complies fully with the provisions of this title and of the approval and legality of the principal amount, interest rate, and all other terms of the securities, obligations, or loans and of the guarantee.

Payment to lender, conditions.

(e) If the Secretary of Energy determines that—

(1) the borrower is unable to meet payments and is not in default,

(2) it is in the public interest to permit the borrower to continue to pursue the purposes of such project, and

(3) the probable net benefit to the United States in paying the principal and interest due under a loan guarantee agreement will be greater than that which would result in the event of a default,

then the Secretary may pay to the lender under a loan guarantee agreement an amount not greater than the principal and interest which the borrower is obligated to pay to such lender, if the borrower agrees to reimburse the Secretary for such payment on terms and conditions, including interest, which the Secretary determines are sufficient to protect the financial interests of the United States.

(f) A loan may not be guaranteed under this section unless the applicant for such loan has established to the satisfaction of the Secretary of Energy that the lender is not willing without such a guarantee to extend credit to the applicant at reasonable rates and terms, taking into consideration prevailing market rates and terms for loans for similar periods of time, to finance the construction of the project for which such loan is sought.

(g)(1) With respect to any loan or debt obligation which is—

(A) issued after the date of the enactment of this Act by, or on behalf of, any State or any political subdivision or governmental entity thereof,

(B) guaranteed by the Secretary of Energy under this section, and

(C) not supported by the full faith and credit of the issuer as a general obligation of the issuer,

the interest paid on such obligation and received by the purchaser thereof (or the purchaser's successors in interest) shall be included in gross income for the purposes of chapter 1 of the Internal Revenue Code of 1954. 26 USC 1 *et seq.*

(2) With respect to the amount of obligations described in paragraph (1) that the issuer would have been able to issue as tax exempt obligations (other than obligations secured by the full faith and credit of the issuer as a general obligation of the issuer), the Secretary of Energy is authorized to pay only to the issuer any portion of the interest on such obligations, as determined by the Secretary of the Treasury after taking into account the interest rate which would have been paid on the obligations had they been issued as tax exempt obligations without being so guaranteed by the Secretary of Energy and the interest rate actually paid on the obligations when issued as taxable obligations. Such payments shall be made in amounts determined by the Secretary of Energy, and in accordance with such terms and conditions as the Secretary of the Treasury shall require.

(h)(1) A fee or fees may be charged and collected by the Secretary of Energy for any loan guarantee under this section. Fee charge.

(2) The amount of such fee shall be based on the estimated administrative costs and risk of loss, except that such fee may not exceed 1 per centum of the maximum of the guarantee.

PRICE SUPPORT LOANS AND PRICE GUARANTEES

SEC. 234. (a)(1) In the case of any existing municipal waste energy project which produces and sells biomass energy, the Secretary of Energy may commit to make, and make, a price support loan in amounts determined under paragraph (3) for the operation of such project. Payments under any such loan shall be disbursed on an annual basis, as determined (in accordance with paragraph (3)) on the basis of the amount of biomass energy produced and sold by that project during the 12-month period involved and the type and cost of fuel displaced by the biomass energy sold. 42 USC 8834.

(2)(A) In the case of any support loan under this section for an existing municipal waste energy project—

(i) disbursements under such loan may not be made for more than 5 consecutive 12-month periods;

(ii) the amount of the disbursement for the second and any subsequent 12-month period for which disbursements are to be made under the support loan shall be reduced by an amount determined by multiplying the amount calculated under paragraph (3) by a factor determined by dividing the number of 12-month periods for which disbursements are made under the support loan into the number of such periods which have elapsed;

(iii) commencing at the end of the last of such 12-month periods, the support loan shall be repayable over a period equal to the then remaining useful life of the project (as determined by the Secretary) or 10 years, whichever is shorter; and

(iv) commencing at the end of such last 12-month period, such loan shall bear interest at a rate determined by the Secretary of Energy (taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans) plus not to exceed one per centum, as

determined by the Secretary of Energy, and adjusted to the nearest one-eighth of one per centum.

(3) The amount of the loan payment to be disbursed under this subsection for any year with respect to each type of biomass energy produced and sold by an existing municipal waste energy project shall be equal to—

(A)(i) the standard support price reduced by the cost of the fuel displaced by the biomass energy sold, or (ii) $2.00, whichever is lower, multiplied by

(B) the amount of such biomass energy sold (in millions of Btu's).

(b)(1) In the case of any new municipal waste energy project which produces and sells biomass energy, the Secretary of Energy may commit to make, and make, a price support loan in amounts determined in accordance with the provisions of subsection (a), except as provided in paragraph (2).

(2) In the case of any loan under this subsection for a new municipal waste energy project—

(A) disbursements under such loan may not be made for more than 7 consecutive 12-month periods (with reductions as provided in subsection (a)(2)(A)(ii));

(B) such loan shall bear interest at a rate not in excess of the rate prescribed under subsection (a); and

(C) the principal of or interest on such loan shall, in accordance with the support loan agreement, be repayable, commencing at the end of the last 12-month period covered by the support loan, over a period not in excess of the period equal to the then remaining useful life of the project (as determined by the Secretary) or 15 years, whichever is shorter.

(c)(1) In the case of any new municipal waste energy project which produces and sells biomass energy, the Secretary of Energy may commit to make, and make, a price guarantee for the operation of such project which guarantees that the price the owner or operator will receive for all or part of the production from that project shall not be less than a specified sales price determined as of the date of execution of the guarantee agreement.

(2)(A) No price guarantee under this section may be based upon a cost-plus arrangement, or variant thereof, which guarantees a profit to the owner or operator involved.

(B) The use of a cost-of-service pricing mechanism by a person pursuant to law, or by a regulatory body establishing rates for a regulated person, shall not be deemed to be a cost-plus arrangement, or variant thereof, for purposes of subparagraph (A).

(3) In the case of any price guarantee under this subsection for a new municipal waste energy project—

(A) disbursements under such guarantee may not be made for more than 7 consecutive 12-month periods; and

(B) amounts paid under this subsection may be required to be repaid to the Secretary of Energy under such terms and conditions as the Secretary may prescribe, including interest at a rate not in excess of the rate prescribed under subsection (a).

Definitions.

(d) For purposes of this section—

(1) The term "new municipal waste energy project" means any municipal waste energy project which—

(A) is initially placed in service after the date of the enactment of this Act; or

(B) if initially placed in service before such date, has an increased capacity by reason of additional construction, and as such is placed in service after such date.

(2) The term "existing municipal waste energy project" means any municipal waste energy project which is not a new municipal waste project.

(3) The term "placed in service" means operated at more than 50 percent of the estimated operational capacity.

(4)(A) Except as provided in subparagraphs (B) and (C), the term "standard support price" means the average price (per million Btu's) for No. 6 fuel oil imported into the United States on the date of the enactment of this Act, as determined, by rule, by the Secretary of Energy not later than 90 days after the date of the enactment of this Act.

(B) In any case in which the fuel displaced is No. 6 fuel oil or any higher grade of petroleum (as determined by the Secretary of Energy), the term "standard support price" means 125 per centum of the price determined by rule under subparagraph (A).

(C) In any case in which biomass energy produced and sold by a project is steam or electricity, the term "standard support price" means the price determined by rule under subparagraph (A), subject to such adjustments as the Secretary of Energy may authorize by rule.

(5) The term "cost of the fuel displaced" means the cost of the fuel (per million Btu's) which the purchaser of biomass energy would have purchased if the biomass energy had not been available for sale to that purchaser.

(6) Any biomass energy produced by a municipal waste energy project which may be retained for use by the owner or operator of such project shall be considered to be sold at such price as the Secretary of Energy determines.

(7) Not later than 90 days after the date of the enactment of this Act, the Secretary of Energy shall prescribe, by rule, the manner of determining the fuel displaced by the sale of any biomass energy, and the price of the fuel displaced.

SEC. 235. (a)(1) Priority for financial assistance under the provisions of sections 232, 233, and 234, and the most favorable financial terms available, shall be provided for any municipal waste energy project that will— 42 USC 8835.

(A) produce a liquid fuel from municipal waste; or

(B) will displace petroleum or natural gas as a fuel.

(2)(A) With respect to projects producing biomass energy other than biomass fuel, financial assistance under the provisions of sections 232, 233, and 234 shall be available only if the Secretary of Energy finds that the project does not use petroleum or natural gas except for flame stabilization or start-up. Biomass energy projects.

(B) With respect to projects producing biomass fuel, financial assistance under such provisions shall be available to such project only if the Secretary of Energy finds that the Btu content of the biomass fuel produced substantially exceeds the Btu content of any petroleum or natural gas used in the project to produce the biomass fuel. Btu content.

(C) assurances are provided that the project will not use, in any substantial quantities, waste paper which would otherwise be recycled for a use other than as a fuel and will not substantially compete with facilities in existence on the date of the financial assistance which are engaged in the separation or recovery of reuseable materials from municipal waste; and

(D) that the amount of financial assistance provided for the project is not greater than is necessary to achieve the purposes of this title.

(b) Financial assistance may not be provided under section 232, 233, or 234 unless the Secretary of Energy determines that—

(1) the terms, conditions, maturity, security and schedule and amounts of repayments with respect to such assistance are reasonable and meet such standards as the Secretary determines are sufficient to protect the financial interests of the United States; and

(2) the person receiving such financial assistance will bear a reasonable degree of risk with respect to the project.

Application.

(c)(1) No financial assistance may be provided to any person under section 232, 233, or 234 unless an application therefor—

"(b) NONREGULATED UTILITIES.—Any plan submitted by a Governor or State agency under subsection (a) may, in the discretion of the Governor if he notifies the Secretary within 30 days after promulgation of rules under section 712(a), apply to nonregulated utilities providing utility service in the State in the same manner as to regulated utilities. In any such case, reference elsewhere in this title to regulated utilities (including references to utilities with respect to which a State regulatory authority exercises ratemaking authority) shall, with respect to such State, be treated as references also to nonregulated utilities and references elsewhere in this title to nonregulated utilities shall not apply. For purposes of this subsection, the term 'nonregulated utility' shall not include any public utility which is a Federal agency. "Nonregulated utility."

"(c) PLAN FOR BUILDING HEATING SUPPLIERS.—A plan applicable to building heating suppliers may be submitted by the Governor in his discretion.

"(A) to fulfill the requirements of section 215, or *Ante*, p. 742.

"(B) to provide utility service to its customers.

"(2) provides adequate State procedures for implementing the enforcment of the plan;

"(3) provides procedures for insuring that effective coordination exists among various local, State, and Federal energy conserving programs within and affecting such State; and

"(4) is adopted after notice and public hearing. Hearing.

"(2) that all amounts expended by a utility for providing information concerning the availability of the energy audit offered pursuant to subsection (a)(1) are to be treated for such purposes as a current expense of providing utility service and charged to all ratepayers of such utility in the same manner as current operating expenses of providing such utility service; and

"(3) that all other amounts expended by a public utility to carry out the provisions of this title, are recovered in the manner specified by the State regulatory authority which has rate-making authority over such utility (or in the case of a nonregulated utility in the manner specified by such nonregulated utility); except that, in the case of a multifamily dwelling, the amount which may be recovered directly from an eligible customer for whom the activities described in subsection (a) are performed shall not exceed a total of $15 per dwelling unit or the actual cost of such activities, whichever is less; in determining the amount to be recovered directly from customers as provided under this paragraph, the State regulatory authority (in the case of a regulated utility) or the utility (in the case of a nonregulated utility) shall take into consideration, to the extent practicable, the customers' ability to pay and the likely levels of participation in the utility program which will result from such recovery.

"(c) RATEPAYER.—For purposes of subsection (b), the term 'ratepayer' means any person, State agency, or Federal agency who purchases electric energy or natural gas from a utility for purposes other than for resale.

"SEC. 732. BUILDING HEATING SUPPLIER PROGRAM. 42 USC 8283a.

"(1) promulgate a plan which meets the requirements of section 722; and

"(2) under such plan, by order, require each regulated utility in the State to offer, no later than 90 days following the date of issuance of such order, to its eligible customers a utility program

prescribed in such order which meets the requirements specified in section 731.

"(b) NONREGULATED UTILITIES.—If a nonregulated utility which is not covered by an approved State plan under section 721 does not have a plan approved under such section within 270 days after promulgation of rules under section 712(a) or within such additional period as the Secretary may allow pursuant to section 721(a), or if the Secretary determines that such nonregulated utility has not adequately implemented an approved plan, the Secretary shall, by order, require such nonregulated utility—

"(1) to promulgate a plan which meets the requirements of section 723 and which applies to the commercial buildings and multifamily dwellings which would have been covered had such a plan been so approved or implemented; and

"(2) no later than 90 days following the date of issuance of such order, to offer to its customers a utility program prescribed in such plan which meets the requirements specified in section 731.

"(c) ENFORCEMENT.—If the Secretary determines that any person has violated any provision of this title, any plan approved or promulgated under this title, or any order issued pursuant thereto, the Secretary may file a petition in the appropriate United States district court to enjoin such person from violating such provision, plan, or order. SEC. 621. The Secretary shall conduct a detailed study of the need for and feasibility of establishing a reservoir insurance and reinsurance program incorporating the terms, conditions, and provisions set forth in section 622, and shall submit to the Congress within one year after the date of the enactment of this Act a report on the results of such study including his findings and recommendations with respect thereto. Report to Congress. 30 USC 1521.

ESTABLISHMENT OF PROGRAM

SEC. 622. (a) If the report of the Secretary submitted pursuant to section 621 affirmatively recommends the establishment of the program and the Congress by law (after review of such recommendation) specifically authorizes the establishment of the program, the Secretary shall establish and implement within six months after the date of the enactment of such authorization a program, in cooperation with the insurance and reinsurance industry, to provide reservoir insurance to qualified eligible applicants in accordance with this section. 30 USC 1522.

(b) For the purpose of this section— Definitions.

(1) the term "investment" means the expenditure of, and any irrevocable legal obligation to expend, funds (together with the reasonable interest costs thereof) for the purchase or construction of machinery, equipment, and facilities manufactured, or for services contracted to be furnished, for the development and utilization of a geothermal resource in the United States to provide energy in the form of heat for direct use or for generation of electricity;

(2) the term "geothermal resource" means a resource in the United States including (A) all products of geothermal processes embracing indigenous steam, hot water, and hot brines; (B) steam and other gases, hot water and hot brines resulting from water, gas, or other fluids artificially introduced into geothermal formations; (C) heat or other associated energy found in geothermal formations; and (D) any byproducts derived from them, where "byproduct" means any mineral or minerals (exclusive of oil, hydrocarbon gas, and helium) which are found in solution or in association with other geothermal resources and which have a value of less than 75 per centum of the value of the geothermal steam or are not, because of quantity, quality, or technical difficulties in extraction and production, of sufficient value to warrant extraction and production by themselves;

(3) the term "risk" means the hazard that a reservoir of geothermal resources will cease to provide sufficient quantities of geothermal resources at minimum conditions required to

maintain an economically or technically viable operation for utilization of the geothermal resource;

(4) the term "reasonable premiums" means premium amounts determined by the Secretary to be reasonable in light of the amount of investment subject to the risk and premiums charged in similar or analogous situations by private insurers where private insurance is concerned and by insurers or guarantors, both public and private, where public insurance is concerned;

(5) the term "other insurance" means any combination of private or public insurance other than investment insurance provided by the Secretary under this section;

(6) the term "reservoir" means the physical subsurface geologic structure which forms the natural repository for the undisturbed geothermal resource; and

(7) the term "person" means any public or private agency, institution, association, partnership, corporation, political subdivision, or other legal entity which is a United States citizen as determined by application of the test for United States citizenship contained in section 2(a)-(c) of the Shipping Act, 1916 (46 U.S.C. 802), or in the first sentence of section 27A of the Merchant Marine Act, 1920 (46 U.S.C. 883-1(a)-(e)).

Investment insurance.

(c) Any person with a total direct investment of not less than $1,000,000 in the development and use, not including exploration and testing, of a geothermal resource associated with a reservoir, and unable to obtain other insurance at reasonable premiums for the amount of the investment subject to risk, as determined by the Secretary under this section, shall be eligible for investment insurance.

(d) Any eligible person seeking investment insurance under this section shall file an application with the Secretary setting forth (1) the total amount of the contemplated investment in a geothermal resource and associated reservoir; (2) the views of the applicant concerning the nature and extent of the risk, including a geologic, engineering, and financial assessment based on site specific results of exploration and testing of the geothermal resource and the reservoir, stated with as much specificity as is possible; (3) the status of all required Federal, State, and local approvals, permits, and leases for the proposed development and utilization operations at the site; (4) the extent to which the applicant has been able to obtain other insurance against the risk; and (5) such other information as the Secretary may require.

(e) Unless the Secretary determines the risk proposed by the applicant is unreasonable, the Secretary, within ninety days after receipt of a satisfactory application, shall determine in writing and submit to the applicant (1) the risk which may cause loss of investment for the applicant; (2) the total investment subject to the risk; (3) the amount of the other insurance which is available at reasonable premiums for the purpose of indemnifying the applicant against the risk; (4) the amount of investment insurance available pursuant to this section, which shall be the difference between the total investment subject to the risk and the total other insurance determined to be available at reasonable premiums, but not in excess of the lesser of 90 per centum of, or $50,000,000 of, the loss of investment subject to the risk; and (5) any reasonable terms and conditions necessary for the prudent administration of the program, including reasonable premiums for the insurance pursuant to this section (which shall be deposited in the Geothermal Resources Development Fund).

(f) The Secretary, within ninety days after making and submitting the determinations under subsection (e), and upon agreement of the applicant to such determinations, shall issue a certificate of insurance containing such terms and conditions as the Secretary shall specify, which shall not be transferrable without the express approval of the Secretary for good cause shown, and shall execute a contract with the applicant setting forth the terms and conditions of the investment insurance and such other provisions as may be necessary to protect the interests of the United States, including provisions with respect to the ownership, use, and disposition of any currency, credits, assets, or investments on account of which payment under such insurance is to be made and any right, title, claim, or course of action existing in relation thereto.

(g) Any holder of a certificate of insurance pursuant to subsection (f) who claims a loss of value of his investment by reason of the specified risk shall receive compensation, to the extent the Secretary determines that the holder is eligible to receive compensation pursuant to the certificate and the contract, in the amount of the loss incurred by the holder which is subject to insurance and for which the holder has not received and will not receive compensation from other insurance. Compensation.

(h) Any compensation received by the holder shall be withdrawn from the Geothermal Resources Development Fund. The full faith and credit of the United States is hereby pledged to the payment of any compensation under this section.

(i) A person shall not be denied insurance pursuant to this section solely because such person is the recipient of other Federal assistance under this or any other Act.

(j) There may be appropriated to the Geothermal Resources Development Fund (established pursuant to section 204 of the Geothermal Energy Research, Development and Demonstration Act of 1974 (30 U.S.C. 1144)), for purposes of this section, such amounts as are authorized for such purposes in the law referred to in subsection (a) or in other legislation hereafter enacted.

(k) The Secretary may enter into agreements to reinsure any private insurer for any risk associated with insurance for the development and utilization of a geothermal resource and associated reservoir, using the procedures set forth in subsections (c) through (i), to the extent that he deems it appropriate in order to provide an incentive for the participation of the private insurance industry in geothermal development; and he may also use any other available authority to obtain such participation. The Secretary shall submit a report to the Congress, within one year after the enactment of the law referred to in subsection (a), on the need for any additional authority to obtain such participation. Agreements. Report to Congress.

date of enactment of this Act. Such Board shall be accountable to and under the direction of the Commission. If the amount of such placement, contract, or modification is $1,000,000 or more, approval thereof shall be by majority vote of the Commission. Prior to affording any approval in accordance with the subsection, the reviewing body designated hereunder shall determine that the placement, contract, or modification contains a detailed description of work to be performed, and that alternative methods of obtaining performance including competitive procurement have been considered.

SEC. 102. During the fiscal year 1980, moneys received by the Nuclear Regulatory Commission for the cooperative nuclear research programs may be retained and used for salaries and expenses associated with those programs, notwithstanding the provisions of section 3617 of the Revised Statutes (31 U.S.C. 484). Such moneys shall remain available until expended.

Transfers of sums.

SEC. 103. During the fiscal year 1980, transfers of sums from salaries and expenses of the Nuclear Regulatory Commission may be made to other agencies of the United States Government for the performance of the work for which the appropriation is made, and in such cases the sums so transferred may be merged with the appropriation to which transferred.

SEC. 104. Notwithstanding any other provision of this Act, no authority to make payments hereunder shall be effective except to such extent or in such amounts as are provided in advance in appropriation Acts.

SEC. 105. No amount authorized to be appropriated pursuant to this Act may be used to grant any license, permit or other authorization, or permission to any person for the transportation to, or the interim, long-term, or permanent storage of, spent nuclear fuel or high-level radioactive waste on any territory or insular possession of the United States or the Trust Territory of the Pacific Islands unless—

(1) the President submits to the Congress a report on the transfer at least 30 days before such transfer and on a day during which—

(A) both Houses of the Congress are in session, or

(B) either or both Houses are not in session because of an adjournment of three days or less to a day certain; or

(2) the President determines that an emergency situation exists with respect to such transfer and that it is in the national interest to make such transfer and the President notifies the Speaker of the House of Representatives and the President of the Senate as soon as possible of such transfer.

The provisions of this section shall not apply to the cleanup and rehabilitation of Bikini and Eniwetok Atolls.

SEC. 106. Of the amounts authorized to be appropriated pursuant to this Act, the Nuclear Regulatory Commission is authorized and directed to use such sums as may be necessary to develop a plan for agency response to accidents at a utilization facility licensed under section 103 or section 104(b) of the Atomic Energy Act of 1954. The plan required to be developed by this section shall be forwarded to the Congress on or before September 30, 1980.

42 USC 2133, 2134.

SEC. 107. No funds appropriated pursuant to this Act may be used for the purpose of providing for the licensing or approval of any disposal of nuclear wastes in the oceans.

Regulations.

SEC. 108. (a) Of the amounts authorized to be appropriated pursuant to this Act, the Nuclear Regulatory Commission is authorized and directed to use such sums as may be necessary to develop and

promulgate regulations establishing demographic requirements for the siting of utilization facilities. Such regulations shall be promulgated by the Commission after notice and opportunity for hearing in accordance with section 553 of title 5 of the United States Code. For purposes of this section, the term "utilization facility" means a facility licensed under section 103 or 104(b) of the Atomic Energy Act of 1954.

Notice and hearing.

"Utilization facility."

42 USC 2133, 2134.

(b) The regulations promulgated pursuant to this section shall provide that no construction permit may be issued for a utilization facility to which this section applies after the date of such promulgation unless the facility complies with the requirements set forth in such regulations, except that regulations promulgated under this section shall not apply to any facility for which an application for a construction permit was filed on or before October 1, 1979.

(c) The regulations promulgated pursuant to this section shall specify demographic criteria for facility siting, including maximum population density and population distribution for zones surrounding the facility without regard to any design, engineering, or other differences among such facilities.

(d) The regulations promulgated pursuant to this section shall take into account the feasibility of all actions outside the facility which may be necessary to protect public health and safety in the event of any accidental release of radioactive material from the facility which may endanger public health or safety. For purposes of this subsection, the term "accidental release" includes, but is not limited to, each potential accidental release of radioactive material which is required by the Commission to be taken into account for purposes of facility design.

"Accidental release."

(e) The Commission shall provide information and recommendations to State and local land use planning authorities having jurisdiction over the zones established under the regulations promulgated pursuant to this section and over areas beyond the zones which may be affected by a radiological emergency. The information and recommendations provided under this subsection shall be designed to assist such authorities in making State and local land use decisions which may affect emergency planning in relation to utilization facilities.

Information and recommendations.

(f) Nothing in this section shall be construed to provide that the Commission shall have any authority to preempt any State requirement relating to land use or respecting the siting of any utilization facility, except that no State or local land use or facility siting requirement relating to the same aspect of facility siting as a requirement established pursuant to this section shall have any force and effect unless such State or local requirement is identical to, or more stringent than, the requirement promulgated pursuant to this section.

SEC. 109. (a) Funds authorized to be appropriated pursuant to this Act may be used by the Nuclear Regulatory Commission to conduct proceedings, and take other actions, with respect to the issuance of an operating license for a utilization facility only if the Commission determines that—

(1) there exists a State or local emergency preparedness plan which—

(A) provides for responding to accidents at the facility concerned, and

(B) as it applies to the facility concerned only, complies with the Commission's guidelines for such plans, or

(2) in the absence of a plan which satisfies the requirements of paragraph (1), there exists a State, local, or utility plan which provides reasonable assurance that public health and safety is not endangered by operation of the facility concerned.

A determination by the Commission under paragraph (1) may be made only in consultation with the Director of the Federal Emergency Management Agency. If, in any proceeding for the issuance of an operating license for a utilization facility to which this subsection applies, the Commission determines that there exists a reasonable assurance that public health and safety is endangered by operation of the facility, the Commission shall identify the risk to public health and safety and provide the applicant with a detailed statement of the reasons for such determination. For purposes of this section, the term "utilization facility" means a facility required to be licensed under section 103 or 104(b) of the Atomic Energy Act of 1954.

"Utilization facility."

42 USC 2133, 2134.

(b) Of the amounts authorized to be appropriated under section 101(a), such sums as may be necessary shall be used by the Nuclear Regulatory Commission to—

Rules.

(1) establish by rule—

(A) standards for State radiological emergency response plans, developed in consultation with the Director of the Federal Emergency Management Agency, and other appropriate agencies, which provide for the response to a radiological emergency involving any utilization facility,

(B) a requirement that—

(i) the Commission will issue operating licenses for utilization facilities only if the Commission determines that—

(I) there exists a State or local radiological emergency response plan which provides for responding to any radiological emergency at the facility concerned and which complies with the Commission's standards for such plans under subparagraph (A), or

(II) in the absence of a plan which satisfies the requirements of subclause (I), there exists a State, local, or utility plan which provides reasonable assurance that public health and safety is not endangered by operation of the facility concerned, and

(ii) any determination by the Commission under subclause (I) may be made only in consultation with the Director of the Federal Emergency Management Agency and other appropriate agencies, and

(C) a mechanism to encourage and assist States to comply as expeditiously as practicable with the standards promulgated under subparagraph (A) of this paragraph,

Review of plans.

(2) review all plans and other preparations respecting such an emergency which have been made by each State in which there is located a utilization facility or in which construction of such a facility has been commenced and by each State which may be affected (as determined by the Commission) by any such emergency,

Report to congressional committees.

(3) assess the adequacy of the plans and other preparations reviewed under paragraph (2) and the ability of the States involved to carry out emergency evacuations during an emergency referred to in paragraph (1) and submit a report of such

assessment to the appropriate committees of the Congress within 6 months of the date of the enactment of this Act,

(4) identify which, if any, of the States described in paragraph (2) do not have adequate plans and preparations for such an emergency and notify the Governor and other appropriate authorities in each such State of the respects in which such plans and preparations, if any, do not conform to the guidelines promulgated under paragraph (1), and

(5) submit a report to Congress containing (A) the results of its actions under the preceding paragraphs and (B) its recommendations respecting any additional Federal statutory authority which the Commission deems necessary to provide that adequate plans and preparations for such radiological emergencies are in effect for each State described in paragraph (2).

(c) In carrying out its review and assessment under subsection (b) (2) and (3) and in submitting its report under subsection (a)(5), the Commission shall include a review and assessment, with respect to each utilization facility and each site for which a construction permit has been issued for such a facility, of the emergency response capability of State and local authorities and of the owner or operator (or proposed owner or operator) of such facility. Such review and assessment shall include a determination by the Commission of the maximum zone in the vicinity of each such facility for which evacuation of individuals is feasible at various different times corresponding to the representative warning times for various different types of accidents.

SEC. 110. (a) Of the amounts authorized to be appropriated pursuant to section 101(a), such sums as may be necessary shall be used by the Nuclear Regulatory Commission to develop, submit to the Congress, and implement, as soon as practicable after notice and opportunity for public comment, a comprehensive plan for the systematic safety evaluation of all currently operating utilization facilities required to be licensed under section 103 or section 104(b) of the Atomic Energy Act of 1954. 42 USC 2133, 2134.

(b) The plan referred to in subsection (a) shall include—

(1) the identification of each current rule and regulation compliance with which the Commission specifically determines to be of particular significance to the protection of the public health and safety;

(2) a determination by the Commission of the extent to which each operating facility complies with each rule and regulation identified under paragraph (1) of this subsection, including an indication of where such compliance was achieved by use of Division 1 regulatory guides and staff technical positions and where compliance was achieved by equivalent means;

(3) a list of the generic safety issues set forth in NUREG 0410 (including categories A, B, C, and D) for which technical solutions have been developed;

(4) a determination by the Commission of which technical solutions for generic safety issues identified in paragraph (3) of this subsection should be incorporated into the Commission's rules and regulations; and

(5) a schedule for developing a technical solution to those generic safety issues listed in NUREG 0410 which have not yet been technically resolved.

(c) Not later than 90 days from the date of enactment of this Act, the Commission shall report to the Congress on the status of efforts to carry out subsection (a).

Public Law 96-296
96th Congress

An Act

To amend subtitle IV of title 49, United States Code, to provide for more effective regulation of motor carriers of property, and for other purposes.

July 1, 1980
[S. 2245]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Motor Carrier Act of 1980".

Motor Carrier Act of 1980.
49 USC 10101 note.

PURPOSE OF THE ACT

SEC. 2. This Act is part of the continuing effort by Congress to reduce unnecessary regulation by the Federal Government.

49 USC 10101 note.

CONGRESSIONAL FINDINGS

SEC. 3. (a) The Congress hereby finds that a safe, sound, competitive, and fuel efficient motor carrier system is vital to the maintenance of a strong national economy and a strong national defense; that the statutes governing Federal regulation of the motor carrier industry are outdated and must be revised to reflect the transportation needs and realities of the 1980's; that historically the existing regulatory structure has tended in certain circumstances to inhibit market entry, carrier growth, maximum utilization of equipment and energy resources, and opportunities for minorities and others to enter the trucking industry; that protective regulation has resulted in some operating inefficiencies and some anticompetitive pricing; that in order to reduce the uncertainty felt by the Nation's transportation industry, the Interstate Commerce Commission should be given explicit direction for regulation of the motor carrier industry and well-defined parameters within which it may act pursuant to congressional policy; that the Interstate Commerce Commission should not attempt to go beyond the powers vested in it by the Interstate Commerce Act and other legislation enacted by Congress; and that legislative and resulting changes should be implemented with the least amount of disruption to the transportation system consistent with the scope of the reforms enacted.

49 USC 10101 note.

49 USC prec. 1 note.

(b) The appropriate authorizing committees of Congress shall conduct periodic oversight hearings on the effects of this legislation, no less than annually for the first 5 years following the date of enactment of this Act, to ensure that this Act is being implemented according to congressional intent and purpose.

Periodic oversight hearings.

(2) The minimal level of financial responsibility established by the Secretary under paragraph (1) of this subsection for any vehicle shall not be less than $750,000, except that the Secretary, by regulation, may reduce such amount (but not to an amount less than $500,000) for any class of vehicles or operations for the two-year period beginning on the effective date of the regulations issued under such

paragraph or any part of such period if the Secretary finds that such reduction will not adversely affect public safety and will prevent a serious disruption in transportation service.

(3) If, at the end of the one-year period beginning on the date of enactment of this Act, the Secretary has not established regulations to require minimal levels of financial responsibility as required by paragraph (1) of this subsection for any class of transportation of property for hire by motor vehicle from a place in a State to a place in another State or from a place in a State to another place in such State through another State, the levels of financial responsibility for such class of transportation shall be the $750,000 amount set forth in paragraph (2) of this subsection, until such time as the Secretary, by regulation, changes such amount under this subsection. Notwithstanding the provisions of such paragraph, the Secretary may only make reductions in such amount under such paragraph for the two-year period beginning on the 366th day following the date of enactment of this Act or any part of such period.

Secretary finds that such reduction will not adversely affect public safety.

An Act

To provide for a research, development, and demonstration program to achieve early technology applications for ocean thermal energy conversion systems, and for other purposes.

July 17, 1980
[H.R. 7474]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Ocean Thermal Energy Conversion Research, Development, and Demonstration Act".

Ocean Thermal Energy Conversion Research, Development, and Demonstration Act.
42 USC 9001 note.
42 USC 9001.

FINDINGS AND PURPOSES

SEC. 2. (a) The Congress finds that—

(1) the supply of nonrenewable fuels in the United States is slowly being depleted;

(2) alternative sources of energy must be developed;

(3) ocean thermal energy is a renewable energy resource that can make a significant contribution to the energy needs of the United States;

(4) the technology base for ocean thermal energy conversion has improved over the past two years, and has consequently lowered the technical risk involved in constructing moderate-sized pilot plants with an electrical generating capacity of about ten to forty megawatts;

(5) while the Federal ocean thermal energy conversion program has grown in size and scope over the past several years, it is in the national interest to accelerate efforts to commercialize ocean thermal energy conversion by building pilot and demonstration facilities and to begin planning for the commercial demonstration of ocean thermal energy conversion technology;

(6) a strong and innovative domestic industry committed to the commercialization of ocean thermal energy conversion must be established, and many competent domestic industrial groups are already involved in ocean thermal energy conversion research and development activity; and

(7) consistent with the findings of the Domestic Policy Review on Solar Energy, ocean thermal energy conversion energy can potentially contribute at least one-tenth of quad of energy per year by the year 2000.

(b) Therefore, the purpose of this Act is to accelerate ocean thermal energy conversion technology development to provide a technical base for meeting the following goals:

(1) demonstration by 1986 of at least one hundred megawatts of electrical capacity or energy product equivalent from ocean thermal energy conversion systems;

(2) demonstration by 1989 of at least five hundred megawatts of electrical capacity or energy product equivalent from ocean thermal energy conversion systems;

(3) achievement in the mid-1990's, for the gulf coast region of the continental United States and for islands in the United

States, its possessions and its territories, an average cost of electricity or energy product equivalent produced by installed ocean thermal energy conversion systems that is competitive with conventional energy sources; and

(4) establish as a national goal ten thousand megawatts of electrical capacity or energy product equivalent from ocean thermal energy conversion systems by the year 1999.

COMPREHENSIVE PROGRAM MANAGEMENT PLAN

42 USC 9002.

SEC. 3. (a)(1) The Secretary is authorized and directed to prepare a comprehensive program management plan for the conduct under this Act of research, development, and demonstration activities consistent with the provisions of sections 4, 5, and 6.

Consultation.

(2) In the preparation of such plan, the Secretary shall consult with the Administrator of the National Oceanic and Atmospheric Administration, the Administrator of the Maritime Administration, the Administrator of the National Aeronautics and Space Administration, and the heads of such other Federal agencies and such public and private organizations as he deems appropriate.

Transmittal to congressional committees.

(b) The Secretary shall transmit the comprehensive program management plan to the Committee on Science and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate within nine months after the date of the enactment of this Act.

(c) The detailed description of the comprehensive plan under this section shall include, but need not be limited to—

(1) the anticipated research, development, and demonstration objectives to be achieved by the program;

(2) the program strategies and technology application and market development plans, including detailed milestone goals to be achieved during the next fiscal year for all major activities and projects;

(3) a five-year implementation schedule for program elements with associated budget and program management resources requirements;

(4) a detailed description of the functional organization of the program management including identification of permanent test facilities and of a lead center responsible for technology support and project management;

(5) the estimated relative financial contributions of the Federal Government and non-Federal participants in the pilot and demonstration projects;

(6) supporting research needed to solve problems which may inhibit or limit development of ocean thermal energy conversion systems; and

(7) an analysis of the environmental, economic, and societal impacts of ocean thermal energy conversion facilities.

Modifications, transmittal to Congress.

(d)(1) Concurrently with the submission of the President's annual budget for each subsequent year, the Secretary shall transmit to the Congress a detailed description of modifications which may be necessary to revise appropriately the comprehensive plan as then in effect, setting forth any changes in circumstances which may have occurred since the plan or the last previous modification thereof was transmitted in accordance with this section.

(2) Such description shall also include a detailed justification of any such changes, a detailed description of the progress made toward achieving the goals of this Act, a statement on the status of inter-

agency cooperation in meeting such goals, any comments on and recommendations for improvements in the comprehensive program management plan made by the Technical Panel established under section 8, and any legislative or other recommendations which the Secretary may have to help attain such goals.

RESEARCH AND DEVELOPMENT

SEC. 4. (a) The Secretary shall initiate research or accelerate existing research in areas in which the lack of knowledge limits development of ocean thermal energy conversion systems in order to achieve the purposes of this Act. 42 USC 9003.

(b) The Secretary shall conduct evaluations, arrange for tests, and disseminate to developers information, data, and materials necessary to support the design efforts undertaken pursuant to section 5. Specific technical areas to be addressed shall include, but not be limited to—

(1) interface requirements between the platform and cold water pipe;

(2) cold water pipe deployment techniques;

(3) heat exchangers;

(4) control system simulation;

(5) stationkeeping requirements; and

(6) energy delivery systems, such as electric cable or energy product transport.

(c) The Secretary shall, for the purpose of performing his reponsibilities pursuant to this Act, solicit proposals and evaluate any reasonable new or improved technology, a description of which is submitted to the Secretary in writing, which could lead or contribute to the development of ocean thermal energy conversion system technology.

PILOT AND DEMONSTRATION PLANTS

SEC. 5. (a) The Secretary is authorized to initiate a program to design, construct, and operate well instrumented ocean thermal energy conversion facilities of sufficient size to demonstrate the technical feasibility and potential economic feasibility of utilizing the various forms of ocean thermal energy conversion to displace non-renewable fuels. To achieve the goals of this section and to facilitate development of a strong industrial basis for the application of ocean thermal energy conversion system technology, at least two independent parallel demonstration projects shall be competitively selected. 42 USC 9004.

(b) The specific goals of the demonstration program shall include at a minimum—

(1) the demonstration of ocean thermal energy conversion technical feasibility through multiple pilot and demonstration plants with a combined capacity of at least one hundred megawatts of electrical capacity or energy product equivalent by the year 1986;

(2) the delivery of baseload electricity to utilities located on land or the production of commercially attractive quantities of energy product; and

(3) the continuous operation of each pilot and demonstration facility for a sufficient period of time to collect and analyze system performance and reliability data.

(c) In providing any financial assistance under this section, the Secretary shall (1) give full consideration to those projects which will

provide energy to United States offshore States, its territories, and its possessions and (2) seek satisfactory cost-sharing arrangements when he deems such arrangements to be appropriate.

TECHNOLOGY APPLICATION

Consultation.
42 USC 9005.

SEC. 6 (a) The Secretary shall, in consultation with the Administrator of the National Oceanic and Atmospheric Administration, the Administrator of the Maritime Administration, the Administrator of the National Aeronautics and Space Administration, and the Technical Panel established under section 8, prepare a comprehensive technology application and market development plan that will permit realization of the ten-thousand-megawatt national goal by the year 1999. Such plans shall include at a minimum—

(1) an assessment of those Government actions required to achieve a two-hundred- to four-hundred-megawatt electrical-commercial demonstration of ocean thermal energy conversion systems in time to have industry meet the goal contained in section 2(b)(2) including a listing of those financial, property, and patent right packages most likely to lead to early commercial demonstration at minimum cost to the Federal Government;

(2) an assessment of further Government actions required to permit expansion of the domestic ocean thermal energy conversion industry to meet the goal contained in section 2(b)(3);

(3) an analysis of further Government actions necessary to aid the industry in minimizing and removing any legal and institutional barriers such as the designation of a lead agency; and

(4) an assessment of the necessary Government actions to assist in eliminating economic uncertainties through financial incentives, such as loan guarantees, price supports, or other inducements.

Transmittal to Congress.

(b) The Secretary shall transmit such comprehensive technology application and market development plan to the Congress within three years after the date of enactment of this Act, and update the plan on an annual basis thereafter.

(c) As part of the competitive procurement initiative for design and construction of the pilot and demonstration projects authorized in section 10(c), each respondent shall include in its proposal (1) a plan leading to a full-scale, first-of-a-kind facility based on a proposed demonstration system; and (2) the financial and other contributions the respondent will make toward meeting the national goals.

PROGRAM SELECTION CRITERIA

42 USC 9006.

SEC. 7. The Secretary shall, in fulfilling his responsibilities under this Act, select program activities and set priorities which are consistent with the following criteria:

(1) realization of energy production costs for ocean thermal energy conversion systems that are competitive with costs from conventional energy production systems;

(2) encouragement of projects for which contributions to project costs are forthcoming from private, industrial, utility, or governmental entities for the purpose of sharing with the Federal Government the costs of purchasing and installing ocean thermal energy conversion systems;

(3) promotion of ocean thermal energy conversion facilities for coastal areas, islands, and isolated military institutions which are vulnerable to interruption in the fossil fuel supply;

(4) preference for and priority to persons and domestic firms whose base of operations is in the United States as will assure that the program under this Act promotes the development of a United States domestic technology for ocean thermal energy conversion; and

(5) preference for proposals for pilot and demonstration projects in which the respondents certify their intent to become an integral part of the industrial infrastructure necessary to meet the goals of this Act.

TECHNICAL PANEL

SEC. 8. (a) A Technical Panel of the Energy Research Advisory Board shall be established to advise the Board on the conduct of the ocean thermal energy conversion program. 42 USC 9007.

Public Law 96-312
96th Congress

An Act

July 23, 1980
[S. 2009]

To designate certain public lands in central Idaho as the River of No Return Wilderness, to designate a segment of the Salmon River as a component of the National Wild and Scenic Rivers System, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Central Idaho Wilderness Act of 1980".

Central Idaho Wilderness Act of 1980.

SEC. 2. (a) The Congress finds that—

(1) certain wildlands in central Idaho lying within the watershed of the Salmon River—the famous "River of No Return"—constitute the largest block of primitive and undeveloped land in the conterminous United States and are of immense national significance;

(2) these wildlands and a segment of the Salmon River should be incorporated within the National Wilderness Preservation System and the National Wild and Scenic Rivers System in order to provide statutory protection for the lands and waters and the wilderness-dependent wildlife and the resident and anadromous fish which thrive within this undisturbed ecosystem; and

(3) such protection can be provided without conflicting with established uses.

(b) The purposes of this Act are to—

(1) provide a comprehensive, statutory framework for the protection, administration, and management of the wildlands of the central Idaho region and a portion of the Salmon River through—

(A) the designation of the River of No Return Wilderness;

(B) the addition of certain lands in the "Magruder Corridor" to the existing Selway-Bitterroot Wilderness; and

(C) the incorporation of one hundred and twenty-five miles of the Salmon River as a component of the National Wild and Scenic Rivers System;

(2) end the controversy over which lands within the central Idaho region will be designated wilderness—thereby assuring that certain adjacent lands better suited for multiple uses other than wilderness will be managed by the Forest Service under existing laws and applicable land management plans; and

(3) make a comprehensive land allocation decision for the national forest roadless areas of the central Idaho region.

River of No Return Wilderness, area description and designation. 16 USC 1132 note.

SEC. 3. In furtherance of the purposes of the Wilderness Act of 1964 (78 Stat. 890; 16 U.S.C. 1131), certain lands in the Boise, Challis, Payette, Salmon, Bitterroot, and Nezperce National Forests, Idaho, situated north and south of the Salmon River which comprise approximately two million two hundred and thirty-nine thousand acres, as generally depicted on a map entitled "River of No Return Wilderness, Proposed", dated June 1980, are hereby designated as wilderness and, therefore, as a component of the National Wilderness Preservation System, and shall be known as the River of No Return

Wilderness. The previous classifications of the Idaho and Salmon River Breaks Primitive Areas are hereby abolished. Abolishments.

SEC. 4. In furtherance of the purposes of the Wilderness Act, certain lands in the Bitterroot National Forest, Idaho, which comprise approximately one hundred and five thousand six hundred acres as generally depicted on a map entitled "Magruder Corridor Proposed Additions, Selway-Bitterroot Wilderness", dated November 1979, are hereby incorporated in, and shall be deemed to be a part of, the Selway-Bitterroot Wilderness as designated by Public Law 88-577, and, therefore a component of the National Wilderness Preservation System. Selway-Bitterroot Wilderness, incorporated lands. 16 USC 1131.

SEC. 5. (a)(1) Within three years of the date of enactment of this Act, the Secretary of Agriculture (hereinafter referred to as "the Secretary") shall develop and submit to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Interior and Insular Affairs of the House of Representatives a comprehensive wilderness management plan (hereinafter referred to as "the management plan") for the River of No Return Wilderness which shall consider a broad range of land uses and recreation opportunities. Comprehensive management plan, submittal to congressional committees.

(2) The management plan shall be prepared in coordination with the relevant national forest plans required by section 6 of the National Forest Management Act of 1976 (Public Law 94-588). 16 USC 1604.

(3) The management plan shall include the cultural resources management plan required by section 8(a)(3) of this Act. 16 USC 1608.

(4) In preparing the management plan, the Secretary shall provide for full public participation as required under section 6 of the National Forest Management Act. 16 USC 1604.

(5) The management plan shall, among other things, address the need for, and alternative means of, access to the wilderness.

(b) In administering the River of No Return Wilderness, the Secretary shall, to the maximum extent practicable, consistent with the management plan required by this section, clear obstructions from all of the national forest trails within or adjacent to the wilderness on at least an annual basis.

(c) Subject to valid existing rights, the River of No Return Wilderness designated by this Act shall be administered by the Secretary in accordance with the provisions of the Wilderness Act: *Provided,* That any reference in such provisions to the effective date of the Wilderness Act shall be deemed to be a reference to the effective date of this Act. Effective date. 16 USC 1131 note.

(d)(1) Notwithstanding the provisions of the Wilderness Act of 1964 (78 Stat. 890; 16 U.S.C. 1131), including section 4(d)(3), closing wilderness areas after December 31, 1983, to the United States mining laws, and the designation of the River of No Return Wilderness by this Act, within that portion of the wilderness depicted on a map entitled "Special Mining Management Zone—Clear Creek", (hereinafter referred to in this section as the "Special Management Zone"), dated June 1980, all prospecting and exploration for, and development or mining of cobalt and associated minerals shall be considered a dominant use of such land and shall be subject to such laws and regulations as are generally applicable to National Forest System lands not designated as wilderness or other special management areas, including such laws and regulations which relate to the right of access to valid mining claims and private property: *Provided,* That: Special Management Zone, mining. 16 USC 1133.

(A) all mining locations and associated access roads shall be held and used solely for mining or mineral processing operations and uses reasonably incident thereto, except that the Secretary

may permit such access roads to be utilized by the State of Idaho to facilitate the management of the bighorn sheep in the Special Management Zone;

Mineral deposits, patents.

(B) after the date of enactment of this Act, subject to valid existing rights, all patents issued under the mining laws of the United States for claims within the Special Management Zone shall convey title to the mineral deposits within such claims, but each such patent shall reserve to the United States all title in or to the surface of the lands and products thereof, and no use of the surface of the claim or the resources therefrom not reasonably required for carrying on mining and prospecting shall be allowed: *Provided,* That the patentee shall have the right to cut and use as much of the mature timber therefrom as may be needed in the extraction, removal and beneficiation of the mineral deposits, if such needed timber is not otherwise reasonably available, and if such timber is cut under sound principles of forest management as defined by National Forest System rules and regulations: *Provided further,* That the patentee shall have the right to use as much of the surface as reasonably necessary for the mining, removal, extraction, or beneficiation of the mineral deposits located therein; and

(C) consistent with the other provisions of this subsection the Secretary may take all reasonable measures to see that the mining or processing of cobalt and associated minerals within the Special Management Zone does not significantly impair the overall habitat of the bighorn sheep located within, or adjacent to, such Zone.

Report to Congress.

(2) Within three years from the date of enactment of this Act, the Secretary of Defense, after consultation with the Secretaries of the Interior, Agriculture, Commerce, Transportation, and State and the Federal Emergency Management Agency, shall report to Congress on the strategic significance of the materials and minerals found in the Special Management Zone.

Map and legal description, filing with congressional committees.

SEC. 6. As soon as practicable after enactment of this Act, a map and legal description of the River of No Return Wilderness and a map and legal description of the Selway-Bitterroot Wilderness additions shall be filed with the Committee on Energy and Natural Resources of the United States Senate and the Committee on Interior and Insular Affairs of the United States House of Representatives, and each such map and legal description shall have the same force and effect as if included in this Act: *Provided,* That correction of clerical and typographical errors in each such legal description and map may be made. Each such map and legal description shall be on file and available for public inspection in the Office of the Chief of the Forest Service, Department of Agriculture.

Permitted land uses, continuation. Aircraft landing.

SEC. 7. (a) Within the River of No Return Wilderness and the Selway-Bitterroot Wilderness additions designated by this Act—

(1) the landing of aircraft, where this use has become established prior to the date of enactment of this Act shall be permitted to continue subject to such restrictions as the Secretary deems desirable: *Provided,* That the Secretary shall not permanently close or render unserviceable any aircraft landing strip in regular use on national forest lands on the date of enactment of this Act for reasons other than extreme danger to aircraft, and in any case not without the express written concurrence of the agency of the State of Idaho charged with evaluating the safety of backcountry airstrips;

(2) the grazing of livestock were established prior to the date of enactment of this Act, shall be permitted to continue subject to such reasonable regulations as the Secretary deems necessary, as provided in paragraph 4(d)(4) of the Wilderness Act; 16 USC 1133.

(3) commercial services may be performed to the extent necessary for activities which are proper for realizing the recreational or other wilderness purposes of the areas as provided in paragraph 4(d)(6) of the Wilderness Act; and

(4) the future construction and maintenance of small hydroelectric generators, domestic water facilities, and related facilities shall be permitted in the Threemile and Jersey Creek drainages along the Salmon River upstream from Mackay Bar.

(b) As provided in paragraph 4(d)(7) of the Wilderness Act, nothing in this Act shall constitute an express or implied claim or denial on the part of the Federal Government as to exemption from State water laws.

(c) As provided in paragraph 4(d)(8) of the Wilderness Act, nothing in this Act shall be construed as affecting the jurisdiction or responsibilities of the State of Idaho with respect to wildlife and fish in the national forests in Idaho.

SEC. 8. (a)(1) In furtherance of the purposes of the Wilderness Act, the Wild and Scenic Rivers Act, section 6 of the National Forest Management Act, the Archaeological Resources Protection Act, and the Historic Preservation Act, the Secretary shall cooperate with the Secretary of the Interior and with agencies and institutions of the State of Idaho, in conducting a cultural resource management program within the River of No Return Wilderness and within the Salmon River component of the National Wild and Scenic Rivers System as designated in section 9 of this Act. Cultural resource management program. 16 USC 1131 note. 16 USC 1271 note. 16 USC 1604. 16 USC 470aa note.

(2) Such program shall have as its purposes the protection of archaeological sites and interpretation of such sites for the public benefit and knowledge insofar as these activities are compatible with the preservation of the values for which the wilderness and wild and scenic river were designated to protect. 16 USC 470 note.

(3) To carry out the cultural resource management program required by paragraph (1) of this section, the Secretary shall, as part of the comprehensive management plan required under subsection 5 (a) of this Act, develop a cultural resources management plan for the wilderness and the river. Such plan shall—

(A) encourage scientific research into man's past use of the River of No Return Wilderness and the Salmon River corridor;

(B) provide an outline for the protection of significant cultural resources, including protection from vandalism and looting as well as destruction from natural deterioration;

(C) be based on adequate inventory data, supplemented by test excavation data where appropriate;

SEC. 2. The Secretary of the Interior (hereinafter the "Secretary") shall prepare a roll of all persons who were born on or prior to October 3, 1972, and who are living on the date of the enactment of this Act who are citizens of the United States and who are descended from a lineal ancestor whose name appears on the "Registry" filed in the Office of the Commissioner of Indian Affairs pursuant to article 9 of the treaty with the Delaware Indians of July 4, 1866 (14 Stat. 793) or who are descended from a lineal ancestor whose name appears on the "Register" prepared pursuant to the agreement dated April 8, 1867, between the Delaware Tribe of Indians and the Cherokee Nation. No person shall be eligible for enrollment under this section who was paid, or was eligible to be paid, pursuant to the Act of October 3, 1972 (82 Stat. 762).
25 USC 1291.

Separate fund.

SEC. 3. (a) Upon completion of the roll provided for in section 2 of this Act, the Secretary shall segregate and establish a separate fund from the funds described in the first section of this Act. Such separate fund shall be in an amount equal to $1,488.22 multiplied by the number of persons whose names appear on the roll prepared in accordance with section 2 of this Act: *Provided,* That said separate fund shall not in any event exceed the maximum amount of $1,488,220 regardless of the number of such enrollees.

Attorneys' fees.

(b) The Secretary shall pay 10 per centum of the fund established by subsection (a) of this section to the Kansas Delaware Tribe of Indians, Incorporated, and to the Delawares of Idaho, Incorporated, in a ratio proportionate to their respective number of members enrolled under section 2 of this Act, for the sole purpose of enabling such corporations to pay attorneys' fees for the representation of such members in connection with their efforts to achieve participation in the distribution of funds under the Act of October 3, 1972, and in addition thereto,

(c) After payments made pursuant to subsection (b) of this section, the Secretary shall distribute the balance of the separate fund established pursuant to subsection (a) of this section on a per capita basis to those who have been enrolled by the Secretary under section 2 of this Act.

SEC. 4. After the establishment of the separate fund prescribed in section 3(a) of this Act, 17 per centum of all of the then remaining funds described in the first section of this Act shall be apportioned by the Secretary to the Delaware Tribe of Western Oklahoma. The Secretary shall prepare a roll of all persons born on or before, and living on, the date of the enactment of this Act who are citizens of the United States and whose names appear on the membership roll of the Delaware Tribe of Western Oklahoma, brought current as of the date of the enactment of this Act. No more than 60 per centum of the funds apportioned to the Delaware Tribe of Western Oklahoma shall be distributed on a per capita basis, in amounts as equal as possible, to all tribal members enrolled in accordance with this section. No less than 40 per centum of said funds, including any amounts remaining from the aforementioned per capita distribution, shall be invested by the Secretary for tribal social and economic programing purposes, including periodic dividend payments: *Provided,* That the voting membership of the tribe may elect to designate more than 40 per centum of the total funds apportioned to the tribe for such programing purposes. Said programing funds, including all interest and investment income accrued, shall be utilized by the tribal governing body on an annual budgetary basis, subject to the approval of the Secretary.

SEC. 5. (a) After the establishment of the fund prescribed in section 3(a) and the apportionment of funds to the Delaware Tribe of Western Oklahoma as prescribed in section 4 of this Act, the remaining balance of the funds described in the first section of this Act shall be divided and distributed per capita, in accordance with the provisions of this section, among all persons whose names appear on a roll prepared by the Secretary, which roll shall include all persons born on or prior to and living on the date of the enactment of this Act who are citizens of the United States and whose names or whose lineal ancestors' names appear on any of the following rolls or records:

(b) The per capita amount determined pursuant to subsection (a) of this section with respect to any person (except a person enrolled pursuant to section 2 of this Act) who was born after October 3, 1972, shall not be less than the amount of per capita payment such person would otherwise receive if no separate fund had been established pursuant to section 3(a) and if the total funds described in the first section of this Act were reduced only by the amount of funds apportioned to the Delaware Tribe of Western Oklahoma pursuant to section 4 of this Act.

(c) The Secretary shall identify those persons who qualify and are enrolled under section 5(a) (1) and (3) of this Act exclusive of those persons who qualify under section 5(a)(2) of this Act. The amount of their individual shares shall be multiplied by the number of such enrollees. The Secretary shall pay 10 per centum of this total amount to the Kansas Delaware Tribe of Indians, Incorporated, and to the Delawares of Idaho, Incorporated, in a ratio proportionate to their respective number of members enrolled under subsection (a) of this section for the sole purpose of the payment of their attorneys' fees in connection with their efforts to achieve participation in the funds set forth in subsection (a) of this section. The Secretary shall distribute the balance of said total amount on a per capita basis to those persons enrolled under section 5(a) (1) and (3) of this Act subject to the requirement of section 5(b) of this Act.

(d) No person shall be entitled to more than one per capita share under subsection (a) of this section, nor shall any person who received a per capita share under section 4 of this Act be eligible to receive any share under this section.

SEC. 6. The per capita shares of living competent adults shall be paid directly to them. Per capita shares of deceased individual beneficiaries shall be determined and distributed pursuant to regulations prescribed by the Secretary. Per capita shares of legal incompetents and per capita shares of persons under age eighteen shall be paid in accordance with such procedures, including the establishment of trusts, as the Secretary determines to be necessary to protect the interests of such persons.

SEC. 7. (a) Except for funds to be held in escrow as provided hereinafter in this section, the Secretary shall pay and distribute all funds, as provided in this Act, forthwith upon completion of the enrollment process to be established by the rules and regulations to be promulgated under section 10 of this Act, which enrollment process period shall not be deemed to include the period of time for action upon enrollment appeals.

Escrow account.

(b) The Secretary, in arranging for the per capita payments under sections 3, 4, and 5 of this Act, shall hold at interest in an escrow account the apportioned shares, including any attorneys fees applicable thereto as provided in sections 3 and 5, of all applicants whose entitlements are the subjects of enrollment appeals, pending determinations of all enrollment appeals.

(c) The aggregate amount of any apportioned shares applicable to unsuccessful applicants for enrollment under section 3 of this Act, including the attorneys fees attributable to such apportioned shares as provided in such section, shall be paid and distributed by the Secretary, 17 per centum to the Delaware Tribe of Western Oklahoma for programing purposes as provided in section 4 of this Act, and the remaining 83 per centum shall be paid and distributed as provided in section 5 of this Act: *Provided,* That per capita payments which would be payable under section 5 of this Act of less than $5 shall be aggregated and paid 19 per centum to the Delaware Tribe of Western Oklahoma and 81 per centum to the Delaware Tribe of Indians, both for programing purposes.

(d) The amount of any apportioned shares applicable to unsuccessful applicants for enrollment who claimed entitlement through membership in the Delaware Tribe of Western Oklahoma shall be added to the programing portion of that tribe's share of these awards.

(e) The amount of any apportioned shares applicable to unsuccessful applicants who claimed entitlement under section 5(a)(2) of this Act shall be added to the programing portion of the Delaware Tribe of

Indians' share of awards provided for in the Act of October 3, 1972 (86 Stat. 762). 25 USC 1291.

(f) The total amount of any apportioned shares applicable to unsuccessful applicants who claimed entitlement through section 5(a)(1) or section 5(a)(3) shall be paid and distributed as provided in section 5(c): *Provided,* That per capita payments which would be payable under section 5(c) of this Act of less than $5 shall be aggregated and paid 19 per centum to the Delaware Tribe of Western Oklahoma and 81 per centum to the Delaware Tribe of Indians, both for the programing purposes of said tribes.

Tax exemption.

SEC. 8. None of the funds distributed per capita or made available for programing purposes under this Act shall be subject to Federal or State income taxes or be considered income or resources in determining eligibility for assistance under Federal, State, or local programs.

SEC. 9. Nothing contained in this Act shall be construed as recognizing the Kansas Delaware Indians, the Kansas Delaware Tribe of Indians, Incorporated, the Idaho Delaware Indians or the Delawares of Idaho, Incorporated, as federally recognized Indian tribes.

Rules and regulations.

SEC. 10. The Secretary is authorized and directed, within sixty days from the date of enactment of this Act, to promulgate rules and regulations to implement this Act, including the establishment of enrollment procedures and a deadline for the filing of enrollment applications on a date not more than one hundred and twenty days after publication of said regulations.

(11) when the license is for an ocean thermal energy conversion facility, he determines that the thermal plume of the facility is expected to impinge on so as to degrade the thermal gradient used by any other ocean thermal energy conversion facility already licensed or operating, without the consent of its owner;

(12) when the license is for an ocean thermal energy conversion facility, he determines that the thermal plume of the facility is expected to impinge on so as to adversely affect the territorial sea or area of national resource jurisdiction, as recognized by the United States, of any other nation, unless the Secretary of State approves such impingement after consultation with such nation;

(13) when the license is for an ocean thermal energy conversion plantship, he determines that the applicant has not provided adequate assurance that the plantship will be operated in such a way as to prevent its thermal plume from impinging on so as to degrade the thermal gradient used by any other ocean thermal energy conversion facility or plantship without the consent of its owner, and from impinging on so as to adversely affect the territorial sea or area of national resource jurisdiction, as recognized by the United States, of any other nation unless the Secretary of State approves such impingement after consultation with such nation; and

(14) when a regulation has been adopted which places an upper limit on the number or total capacity of ocean thermal energy conversion facilities or plantships to be licensed under this Act for simultaneous operation, either overall or within specific geographic areas, pursuant to a determination under the provisions of section 107(b)(4) of this Act, issuance of the license will cause such upper limit to be exceeded.

Issuance conditions.

(d)(1) In issuing a license for the ownership, construction, and operation of an ocean thermal energy conversion facility or plantship, the Administrator shall prescribe conditions which he deems necessary to carry out the provisions of this Act, or which are otherwise required by any Federal department or agency pursuant to the terms of this Act.

Written *agreement of* compliance.

(2) No license shall be issued, transferred, or renewed under this Act unless the licensee or transferee first agrees in writing that (A) there will be no substantial change from the plans, operational systems, and methods, procedures, and safeguards set forth in his application, as approved, without prior approval in writing from the Administrator, and (B) he will comply with conditions the Administrator may prescribe in accordance with the provisions of this Act.

Disposal *or* removal requirements.

(3) The Administrator shall establish such bonding requirements or other assurances as he deems necessary to assure that, upon the revocation, termination, relinquishment, or surrender of a license, the licensee will dispose of or remove all components of the ocean thermal energy conversion facility or plantship as directed by the Administrator. In the case of components which another applicant or licensee desires to use, the Administrator may waive the disposal or removal requirements until he has reached a decision on the applica-

tion. In the case of components lying on or below the seabed, the Administrator may waive the disposal or removal requirements if he finds that such removal is not otherwise necessary and that the remaining components do not constitute any threat to the environment, navigation, fishing, or other uses of the seabed.

(e) Upon application, a license issued under this Act may be transferred if the Administrator determines that such transfer is in the public interest and that the transferee meets the requirements of this Act and the prerequisites to issuance under subsection (c) of this section. License transfer.

(f) Any United States citizen who otherwise qualifies under the terms of this Act shall be eligible to be issued a license for the ownership, construction, and operation of an ocean thermal energy conversion facility or plantship.

(g) Licenses issued under this Act shall be for a term of not to exceed 25 years. Each licensee shall have a preferential right to renew his license subject to the requirements of subsection (c) of this section, upon such conditions and for such term, not to exceed an additional 10 years upon each renewal, as the Administrator determines to be reasonable and appropriate. License term and renewal.

SEC. 102. PROCEDURE. 42 USC. 9112.

(a) The Administrator shall, after consultation with the Secretary of Energy and the heads of other Federal agencies, issue regulations to carry out the purposes and provisions of this Act, in accordance with the provisions of section 553 of title 5, United States Code, without regard to subsection (a) thereof. Such regulations shall pertain to, but need not be limited to, application for issuance, transfer, renewal, suspension, and termination of licenses. Such regulations shall provide for full consultation and cooperation with all other interested Federal agencies and departments and with any potentially affected coastal State, and for consideration of the views of any interested members of the general public. The Administrator is further authorized, consistent with the purposes and provisions of this Act, to amend or rescind any such regulation. The Administrator shall complete issuance of final regulations to implement this Act within 1 year of the date of its enactment. Regulations.

(b) The Administrator, in consultation with the Secretary of the Interior and the Secretary of the department in which the Coast Guard is operating may, if he determines it to be necessary, prescribe regulations consistent with the purposes of this Act, relating to those activities in site evaluation and preconstruction testing at potential ocean thermal energy conversion facility or plantship locations that may (1) adversely affect the environment; (2) interfere with other reasonable uses of the high seas or with authorized uses of the Outer Continental Shelf; or (3) pose a threat to human health and safety. If the Administrator prescribes regulations relating to such activities, such activities may not be undertaken after the effective date of such regulations except in accordance therewith. Consultation.

(c) Not later than 60 days after the date of enactment of this Act, the Secretary of Energy, the Administrator of the Environmental Protection Agency, the Secretary of the department in which the Coast Guard is operating, the Secretary of the Interior, the Chief of Engineers of the United States Army Corps of Engineers, and the heads of any other Federal departments or agencies having expertise concerning, or jurisdiction over, any aspect of the construction or operation of ocean thermal energy conversion facilities or plantships, shall transmit to the Administrator written description of their Expertise or statutory responsibility descriptions.

expertise or statutory responsibilities pursuant to this Act or any other Federal law.

Application receipt and notice.

(d)(1) Within 21 days after the receipt of an application, the Administrator shall determine whether the application appears to contain all of the information required by paragraph (2) of this subsection. If the Administrator determines that such information appears to be contained in the application, the Administrator shall, no later than 5 days after making such a determination, publish notice of the application and a summary of the plans in the Federal Register. If the Administrator determines that all of the required information does not appear to be contained in the application, the Administrator shall notify the applicant and take no further action with respect to the application until such deficiencies have been remedied.

Publication in Federal Register.

(2) Each application shall include such financial, technical, and other information as the Administrator determines by regulation to be necessary or appropriate to process the license pursuant to section 101.

Area description, publication in Federal Register.

(e)(1) At the time notice of an application for an ocean thermal energy conversion facility is published pursuant to subsection (d) of this section, the Administrator shall publish a description in the Federal Register of an application area encompassing the site proposed in the application for such facility and within which the thermal plume of one ocean thermal energy conversion facility might be expected to impinge on so as to degrade the thermal gradient used by another ocean thermal energy conversion facility, unless the application is for a license for an ocean thermal energy conversion facility to be located within an application area which has already been designated.

Additional license applications.

(2) The Administrator shall accompany such publication with a call for submission of any other applications for licenses for the ownership, construction, and operation of an ocean thermal energy conversion facility within the designated application area. Any person intending to file such an application shall submit a notice of intent to file an application to the Administrator not later than 60 days after the publication of notice pursuant to subsection (d) of this section, and shall submit the completed application no later than 90 days after publication of such notice. The Administrator shall publish notice of any such application received in accordance with subsection (d) of this section. No application for a license for the ownership, construction, and operation of an ocean thermal energy conversion facility within the designated application area for which a notice of intent to file was received after such 60-day period, or which is received after such 90-day period has elapsed, shall be considered until action has been completed on all timely filed applications pending with respect to such application area.

(f) An application filed with the Administrator shall constitute an application for all Federal authorizations required for ownership, construction, and operation of an ocean thermal energy conversion facility or plantship, except for authorizations required by documentation, inspection, certification, construction, and manning laws and regulations administered by the Secretary of the department in which the Coast Guard is operating. At the time notice of any application is published pursuant to subsection (d) of this section, the Administrator shall forward a copy of such application to those Federal agencies and departments with jurisdiction over any aspect of such ownership, construction, or operation for comment, review, or recommendation as to conditions and for such other action as may be

required by law. Each agency or department involved shall review the application and, based upon legal considerations within its area of responsibility, recommend to the Administrator the approval or disapproval of the application not later than 45 days after public hearings are concluded pursuant to subsection (g) of this section. In any case in which an agency or department recommends disapproval, it shall set forth in detail the manner in which the application does not comply with any law or regulation within its area of responsibility and shall notify the Administrator of the manner in which the application may be amended or the license conditioned so as to bring it into compliance with the law or regulation involved.

Application review.

(g) A license may be issued, transferred, or renewed only after public notice, opportunity for comment, and public hearings in accordance with this subsection. At least one such public hearing shall be held in the District of Columbia and in any adjacent coastal State to which a facility is proposed to be directly connected by pipeline or electric transmission cable. Any interested person may present relevant material at any such hearing. After the hearings required by this subsection are concluded, if the Administrator determines that there exist one or more specific and material factual issues which may be resolved by a formal evidentiary hearing, at least one adjudicatory hearing shall be held in the District of Columbia in accordance with the provisions of section 554 of title 5, United States Code. The record developed in any such adjudicatory hearing shall be part of the basis for the Administrator's decision to approve or deny a license. Hearings held pursuant to this subsection shall be consolidated insofar as practicable with hearings held by other agencies. All public hearings on all applications with respect to facilities for any designated application area shall be consolidated and shall be concluded not later than 240 days after notice of the initial application has been published pursuant to subsection (d) of this section. All public hearings on applications with respect to ocean thermal energy conversion plantships shall be concluded not later than 240 days after notice of the application has been published pursuant to subsection (d) of this section.

Notice, comments, and hearings.

Record.

Consolidation of hearings.

(h) Each person applying for a license pursuant to this Act shall remit to the Administrator at the time the application is filed a nonrefundable application fee, which shall be deposited into miscellaneous receipts of the Treasury. The amount of the fee shall be established by regulation by the Administrator, and shall reflect the reasonable administrative costs incurred in reviewing and processing the application.

Application fee.

(i)(1) The Administrator shall approve or deny any timely filed application with respect to a facility for a designated application area submitted in accordance with the provision of this Act not later than 90 days after public hearings on proposed licenses for that area are concluded pursuant to subsection (g) of this section. The Administrator shall approve or deny an application for a license for ownership, construction, and operation of an ocean thermal energy conversion plantship submitted pursuant to this Act no later than 90 days after the public hearings on that application are concluded pursuant to subsection (g) of this section.

Application approval or denial.

(2) In the event more than one application for a license for ownership, construction, and operation of an ocean thermal energy conversion facility is submitted pursuant to this Act for the same designated application area, the Administrator, unless one or a specific combination of the proposed facilities clearly best serves the

national interest, shall make decisions on license applications in the order in which they were submitted to him.

Facility selection, determination factors.

(3) In determining whether any one or a specific combination of the proposed ocean thermal energy conversion facilities clearly best serves the national interest, the Administrator, in consultation with the Secretary of Energy, shall consider the following factors:

(A) the goal of making the greatest possible use of ocean thermal energy conversion by installing the largest capacity practicable in each application area;

(B) the amount of net energy impact of each of the proposed ocean thermal energy conversion facilities;

(C) the degree to which the proposed ocean thermal energy conversion facilities will affect the environment;

(D) any significant differences between anticipated dates and commencement of operation of the proposed ocean thermal energy conversion facilities; and

(E) any differences in costs of construction and operation of the proposed ocean thermal energy conversion facilities, to the extent that such differentials may significantly affect the ultimate cost of energy or products to the consumer.

SEC. 103. PROTECTION OF SUBMARINE ELECTRIC TRANSMISSION CABLES AND EQUIPMENT.

Penalties and fines.

(a) Any person who shall willfully and wrongfully break or injure, or attempt to break or injure, or who shall in any manner procure, counsel, aid, abet, or be accessory to such breaking or injury, or attempt to break or injure, any submarine electric transmission cable or equipment being constructed or operated under a license issued pursuant to this Act shall be guilty of a misdemeanor and, on conviction thereof, shall be liable to imprisonment for a term not exceeding 2 years, or to a fine not exceeding $5,000, or to both fine and imprisonment, at the discretion of the court.

(b) Any person who by culpable negligence shall break or injure any submarine electric transmission cable or equipment being constructed or operated under a license issued pursuant to this Act shall be guilty of a misdemeanor and, on conviction thereof, shall be liable to imprisonment for a term not exceeding 3 months, or to a fine not exceeding $500, or to both fine and imprisonment, at the discretion of the court.

(c) The provisions of subsections (a) and (b) of this section shall not apply to any person who, after having taken all necessary precautions to avoid such breaking or injury, breaks or injures any submarine electric transmission cable or equipment in an effort to save the life or limb of himself or of any other person, or to save his own or any other vessel.

Suit for damages.

(d) The penalties provided in subsections (a) and (b) of this section for the breaking or injury of any submarine electric transmission cable or equipment shall not be a bar to a suit for damages on account of such breaking or injury.

Indemnity.

(e) Whenever any vessel sacrifices any anchor, fishing net, or other fishing gear to avoid injuring any submarine electric transmission cable or equipment being constructed or operated under a license issued pursuant to this Act, the licensee shall indemnify the owner of such vessel for the items sacrificed: *Provided,* That the owner of the vessel had taken all reasonable precautionary measures beforehand.

Repair cost.

(f) Any licensee who causes any break in or injury to any submarine cable or pipeline of any type shall bear the cost of the repairs.

SEC. 104. ANTITRUST REVIEW. 42 USC 9114.

(a) Whenever any application for issuance, transfer, or renewal of any license is received, the Administrator shall transmit promptly to the Attorney General a complete copy of such application. Within 90 days of the receipt of the application, the Attorney General shall conduct such antitrust review of the application as he deems appropriate, and submit to the Administrator any advice or recommendations he deems advisable to avoid any action upon such application by the Administrator which would create a situation inconsistent with the antitrust laws. If the Attorney General fails to file such views within the 90-day period, the Administrator shall proceed as if such views had been received. The Administrator shall not issue, transfer, or renew the license during the 90-day period, except upon written confirmation by the Attorney General that he does not intend to submit any further advice or recommendation on the application during such period. Application copy, transmittal to Attorney General.

(b) The issuance of a license under this Act shall not be admissible in any way as a defense to any civil or criminal action for violation of the antitrust laws of the United States, nor shall it in any way modify or abridge any private right of action under such laws. Nothing in this section shall be construed to bar the Attorney General or the Federal Trade Commission from challenging any anticompetitive situation involved in the ownership, construction, or operation of an ocean thermal energy conversion facility or plantship.

SEC. 105. ADJACENT COASTAL STATES. 42 USC 9115.

(a)(1) The Administrator, in issuing notice of application pursuant to section 102(d) of this title, shall designate as an "adjacent coastal State" any coastal State which (A) would be directly connected by electric transmission cable or pipeline to an ocean thermal energy conversion facility as proposed in an application, or (B) in whose waters any part of such proposed ocean thermal energy conversion facility would be located, or (C) in whose waters an ocean thermal energy conversion plantship would be operated as proposed in an application.

(2) The Administrator shall, upon request of a State, designate such State as an "adjacent coastal State" if he determines that (A) there is a risk of damage to the coastal environment of such State equal to or greater than the risk posed to a State required to be designated as an "adjacent coastal State" by paragraph (1) of this subsection or (B) that the thermal plume of the proposed ocean thermal energy conversion facility or plantship is likely to impinge on so as to degrade the thermal gradient at possible locations for ocean thermal energy conversion facilities which could reasonably be expected to be directly connected by electric transmission cable or pipeline to such State. This paragraph shall apply only with respect to requests made by a State not later than the 14th day after the date of publication of notice of application for a proposed ocean thermal energy conversion facility in the Federal Register in accordance with section 102(d) of this title. The Administrator shall make any designation required by this paragraph not later than the 45th day after the date he receives such a request from a State.

(b)(1) Not later than 5 days after the designation of adjacent coastal State pursuant to this section, the Administrator shall transmit a complete copy of the application to the Governor of such State. The Administrator shall not issue a license without consultation with the Governor of each adjacent coastal State which has an approved coastal zone management program in good standing pursuant to the Application copy, transmittal to State Governor.

Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.). If the Governor of such a State has not transmitted his approval or disapproval to the Administrator by the 45th day after public hearings on the application is concluded pursuant to section 102(g) of this title, such approval shall be conclusively presumed. If the Governor of such a State notifies the Administrator that an application which the Governor would otherwise approve pursuant to this paragraph is inconsistent in some respect with the State's coastal zone management program, the Administrator shall condition the license granted so as to make it consistent with such State program.

(2) Any adjacent coastal State which does not have an approved coastal zone management program in good standing, and any other interested State, shall have the opportunity to make its views known to, and to have them given full consideration by, the Administrator regarding the location, construction, and operation of an ocean thermal energy conversion facility or plantship.

Agreement or compact between States.

(c) The consent of Congress is given to 2 or more States to negotiate and enter into agreements or compacts, not in conflict with any law or treaty of the United States, (1) to apply for a license for the ownership, construction, and operation of an ocean thermal energy conversion facility or plantship or for the transfer of such a license, and (2) to establish such agencies, joint or otherwise, as are deemed necessary or appropriate for implementing and carrying out the provisions of any such agreement or compact. Such agreement or compact shall be binding and obligatory upon any State or other party thereto without further approval by the Congress.

42 USC 9116.

SEC. 106. DILIGENCE REQUIREMENTS.

Regulations.

(a) The Administrator shall promulgate regulations requiring each licensee to pursue diligently the construction and operation of the ocean thermal energy conversion facility or plantship to which the license applies.

License termination.

(b) If the Administrator determines that a licensee is not pursuing diligently the construction and operation of the ocean thermal energy conversion facility or plantship to which the license applies, or that the project has apparently been abandoned, the Administrator shall cause proceedings to be instituted under section 111 of this title to terminate the license.

42 USC 9117.

SEC. 107. PROTECTION OF THE ENVIRONMENT.

Environmental assessment program.

(a) The Administrator shall initiate a program to assess the effects on the environment of ocean thermal energy conversion facilities and plantships. The program shall include baseline studies of locations where ocean thermal energy conversion facilities or plantships are likely to be sited or operated; and research; and monitoring of the effects of ocean thermal energy conversion facilities and plantships in actual operation. The purpose of the program shall be to assess the environmental effects of individual ocean thermal energy facilities and plantships, and to assess the magnitude of any cumulative environmental effects of large numbers of ocean thermal energy facilities and plantships.

(b) The program shall be designed to determine, among other things—

(1) any short-term and long-term effects on the environment which may occur as a result of the operation of ocean thermal energy conversion facilities and plantships;

(2) the nature and magnitude of any oceanographic, atmospheric, weather, climatic, or biological changes in the environ-

ment which may occur as a result of deployment and operation of large numbers of ocean thermal energy conversion facilities and plantships;

(3) the nature and magnitude of any oceanographic, biological or other changes in the environment which may occur as a result of the operation of electric transmission cables and equipment located in the water column or on or in the seabed, including the hazards of accidentally severed transmission cables; and

(4) whether the magnitude of one or more of the cumulative environmental effects of deployment and operation of large numbers of ocean thermal energy conversion facilities and plantships requires that an upper limit be placed on the number or total capacity of such facilities or plantships to be licensed under this Act for simultaneous operation, either overall or within specific geographic areas.

Plan submittal to Congress.

(c) Within 180 days after enactment of this Act, the Administrator shall prepare a plan to carry out the program described in subsections (a) and (b) of this section, including necessary funding levels for the next 5 fiscal years, and submit the plan to the Congress.

(d) The program established by subsections (a) and (b) of this section shall be reduced to the minimum necessary to perform baseline studies and to analyze monitoring data, when the Administrator determines that the program has resulted in sufficient knowledge to make the determinations enumerated in subsection (b) of this section with an acceptable level of confidence.

Environmental impact statement.

(e) The issuance of any license for ownership, construction, and operation of an ocean thermal energy conversion facility or plantship shall be deemed to be a major Federal action significantly affecting the quality of the human environment for purposes of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)). For all timely applications covering proposed facilities in a single application area, and for each application relating to a proposed plantship, the Administrator shall, pursuant to such section 102(2)(C) and in cooperation with other involved Federal agencies and departments, prepare a single environmental impact statement, which shall fulfill the requirement of all Federal agencies in carrying out their responsibilities pursuant to this Act to prepare an environmental impact statement. Each such draft environmental impact statement relating to proposed facilities shall be prepared and published within 180 days after notice of the initial application has been published pursuant to section 102(d) of this title. Each such draft environmental impact statement relating to a proposed plantship shall be prepared and published within 180 days after notice of the application has been published pursuant to section 102(d) of this title. Each final environmental impact statement shall be published not later than 90 days following the date on which public hearings are concluded pursuant to section 102(g) of this title. The Administrator may extend the deadline for publication of a specific draft or final environmental impact statement to a later specified time for good cause shown in writing.

Ante, p. 979.

Hearings.

Vessel or floating craft.

(f) An ocean thermal energy conversion facility or plantship licensed under this title shall be deemed not to be a "vessel or other floating craft" for the purposes of section 502(12)(B) of the Federal Water Pollution Control Act of 1972 (33 U.S.C. 1362(12)(B)).

42 USC 9118.

SEC. 108. MARINE ENVIRONMENTAL PROTECTION AND SAFETY OF LIFE AND PROPERTY AT SEA.

(a) The Secretary of the department in which the Coast Guard is operating shall, subject to recognized principles of international law, prescribe by regulation and enforce procedures with respect to any ocean thermal energy conversion facility or plantship licensed under this Act, including, but not limited to, rules governing vessel movement, procedures for transfer of materials between such a facility or plantship and transport vessels, designation and marking of anchorage areas, maintenance, law enforcement, and the equipment, training, and maintenance required (1) to promote the safety of life and property at sea, (2) to prevent pollution of the marine environment, (3) to clean up any pollutants which may be discharged, and (4) to otherwise prevent or minimize any adverse impact from the construction and operation of such ocean thermal energy conversion facility or plantship.

Regulations.

(b) The Secretary of the department in which the Coast Guard is operating shall issue and enforce regulations, subject to recognized principles of international law, with respect to lights and other warning devices, safety equipment, and other matters relating to the promotion of safety of life and property on any ocean thermal energy conversion facility or plantship licensed under this Act.

(c) Whenever a licensee fails to mark any component of such an ocean thermal energy conversion facility or plantship in accordance with applicable regulations, the Secretary of the department in which the Coast Guard is operating shall mark such components for the protection of navigation, and the licensee shall pay the cost of such marking.

Safety zone.

(d)(1) Subject to recognized principles of international law and after consultation with the Secretary of Commerce, the Secretary of the Interior, the Secretary of State, and the Secretary of Defense, the Secretary of the department in which the Coast Guard is operating shall designate a zone of appropriate size around and including any ocean thermal energy conversion facility licensed under this Act and may designate such a zone around and including any ocean thermal energy conversion plantship licensed under this Act for the purposes of reorganizational safety and protection of the facility or plantship. The Secretary of the department in which the Coast Guard is operating shall by regulation define permitted activities within such zone consistent with the purpose for which it was designated. The Secretary of the department in which the Coast Guard is operating shall, not later than 30 days after publication of notice pursuant to section 102(d) of this title, designate such safety zone with respect to any proposed ocean thermal energy conversion facility or plantship.

Rules and regulations.

(2) In addition to any other regulations, the Secretary of the department in which the Coast Guard is operating is authorized, in accordance with this subsection, to establish a safety zone to be effective during the period of construction of an ocean thermal energy conversion facility or plantship licensed under this Act, and to issue rules and regulations relating thereto.

Regulations, enforcement and compliance.

(e)(1) The Secretary of the department in which the Coast Guard is operating shall promulgate and enforce regulations specified in paragraph (2) of this subsection and such other regulations as he deems necessary concerning the documentation, design, construction, alteration, equipment, maintenance, repair, inspection, certification, and manning of ocean thermal energy conversion facilities and plantships. In addition to other requirements prescribed under those regulations, the Secretary of the department in which the Coast

Guard is operating may require compliance with those vessel documentation, inspection, and manning laws which he determines to be appropriate.

(2) Within 1 year after the date of enactment of this Act, the Secretary of the department in which the Coast Guard is operating shall promulgate regulations under paragraph (1) of this subsection which require that any ocean thermal energy conversion facility or plantship— Facility or plantship requirements. Regulations.

(A) be documented;

(B) comply with minimum standards of design, construction, alteration, and repair; and

(C) be manned or crewed by United States citizens or aliens lawfully admitted to the United States for permanent residence, unless—

(i) there is not a sufficient number of United States citizens, or aliens lawfully admitted to the United States for permanent residence, qualified and available for such work, or

(ii) the President makes a specific finding, with respect to the particular vessel, platform, or moored or standing structure, that application of this requirement would not be consistent with the national interest.

(3) For the purposes of the documentation laws, for which compliance is required under paragraph (1) of this subsection, ocean thermal energy conversion facilities and plantships shall be deemed to be vessels and, if documented, vessels of the United States for the purposes of the Ship Mortgage Act, 1920 (46 U.S.C. 911-984).

(f) Subject to recognized principles of international law, the Secretary of the department in which the Coast Guard is operating shall promulgate and enforce such regulations as he deems necessary to protect navigation in the vicinity of a vessel engaged in the installation, repair, or maintenance of any submarine electric transmission cable or equipment, and to govern the markings and signals used by such a vessel.

SEC. 109. PREVENTION OF INTERFERENCE WITH OTHER USES OF THE HIGH SEAS. 42 USC 9119.

(a) Each license shall include such conditions as may be necessary and appropriate to ensure that construction and operation of the ocean thermal energy conversion facility or plantship are conducted with reasonable regard for navigation, fishing, energy production, scientific research, or other uses of the high seas, either by citizens of the United States or by other nations in their exercise of the freedoms of the high seas as recognized under the Convention of the High Seas and the general principles of international law.

(b) The Administrator shall promulgate regulations specifying under what conditions and in what circumstances the thermal plume of an ocean thermal energy conversion facility or plantship licensed under this Act will be deemed— Regulations.

(1) to impinge on so as to degrade the thermal gradient used by another ocean thermal energy conversion facility or plantship, or

(2) to impinge on so as to adversely affect the territorial sea or area of natural resource jurisdiction, as recognized by the United States, of any other nation.

Such regulations shall also provide for the Administrator to mediate or arbitrate any disputes among licensees regarding the extent to which the thermal plume of one licensee's facility or plantship impinges on the operation of another licensee's facility or plantship.

(3) Except in a situation involving force majeure, a licensee of an ocean thermal energy conversion facility or plantship shall not permit a vessel, registered in or flying the flag of a foreign state, to call at, load or unload cargo at, or otherwise utilize such a facility or plantship licensed under this Act unless (A) the foreign state involved has agreed, by specific agreement with the United States, to recognize the jurisdiction of the United States over the vessel and its personnel, in accordance with the provisions of this Act, while the vessel is located within the safety zone, and (B) the vessel owner or operator has designated an agent in the United States for receipt of service of process in the event of any claim or legal proceeding resulting from activities of the vessel or its personnel while located within such a safety zone.

Regulations, enforcement.

(c) The Secretary of the department in which the Coast Guard is operating shall promulgate, after consultation with the Administrator, and shall enforce, regulations governing the movement and navigation of ocean thermal energy conversion plantships licensed under this Act to ensure that the thermal plume of such an ocean thermal energy conversion plantship does not unreasonably impinge on so as to degrade the thermal gradient used by the operation of any other ocean thermal energy conversion plantship or facility except in case of force majeure or with the consent of owner of the other such plantship or facility, and to ensure that the thermal plume such of an ocean thermal energy conversion plantship does not impinge on so as to adversely affect the territorial sea or area of national resource jurisdiction, as recognized by the United States, of any other nation unless the Secretary of State has approved such impingment after consultation with such nation.

42 USC 9120.

SEC. 110. MONITORING OF LICENSEES' ACTIVITIES.

Each license shall require the licensee—

(1) to allow the Administrator to place appropriate Federal officers or employees aboard the ocean thermal energy conversion facility or plantship to which the license applies, at such times and to such extent as the Administrator deems reasonable and necessary to assess compliance with any condition or regulation applicable to the license, and to report to the Administrator whenever such officers or employees have reason to believe there is a failure to comply;

(2) to cooperate with such officers and employees in the performance of monitoring functions; and

(3) to monitor the environmental effects, if any, of the operation of the ocean thermal energy conversion facility or plantship in accordance with regulations issued by the Administrator, and to submit such information as the Administrator finds to be necessary and appropriate to assess environmental impacts and to develop and evaluate mitigation methods and possibilities.

42 USC 9121.

SEC. 111. SUSPENSION, REVOCATION, OR TERMINATION OF LICENSE.

(a) Whenever a licensee fails to comply with any applicable provision of this Act or any applicable rule, regulation, restriction, or condition issued or imposed by the Administrator under the authority of this Act, the Attorney General, at the request of the Administrator, shall file an action in the appropriate United States district court to—

(1) suspend the license; or

(2) if such failure is knowing and continues for a period of 30 days after the Administrator mails notification of such failure by registered letter to the licensee at his record post office address, revoke such license.

No proceeding under this section is necessary if the license, by its terms, provides for automatic suspension or termination upon the occurrence of a fixed or agreed upon condition, event, or time.

(b) If the Administrator determines that immediate suspension of the construction or operation of an ocean thermal energy conversion facility or plantship or any component thereof is necessary to protect public health and safety or to eliminate imminent and substantial danger to the environment established by any treaty or convention, the Administrator may order the licensee to cease or alter such construction or operation pending the completion of a judicial proceeding pursuant to subsection (a) of this section.

SEC. 112. RECORDKEEPING AND PUBLIC ACCESS TO INFORMATION. 42 USC 9122.

The results of each such review shall be included in the next annual report required by section 405. The Administrator and such Secretary are authorized and directed to promulgate any revisions to the then effective regulations as are deemed necessary and appropriate based on such review, to ensure that any regulations promulgated pursuant to the provisions of this title do not impede such development, evolution, and commercialization of such technology. Additionally, the Secretary of Energy is authorized to propose, based on such review, such revisions for the same purpose. The Administrator or such Secretary, as appropriate, shall have exclusive jurisdiction with respect to any such proposal by the Secretary of Energy and, pursuant to applicable procedures, shall consider and take final action on any such proposal in an expeditious manner. "GENERAL

"§701. Organization 14 USC 701.

"The Coast Guard Reserve is a component of the Coast Guard. It shall be organized, administered, trained, and supplied under the direction of the Commandant.

"§702. Authorized strength 14 USC 702.

"(a) The President shall prescribe the authorized strength of the Coast Guard Reserve if not otherwise prescribed by law.

"(b) Subject to the authorized strength of the Coast Guard Reserve, the Secretary shall determine, at least annually, the authorized strength in numbers in each grade necessary to provide for mobilization requirements. Without the consent of the member concerned, a member of the Reserve may not be reduced in grade because of the Secretary's determination.

"§703. Coast Guard Reserve Boards 14 USC 703.

"(a) The Secretary shall convene a Coast Guard Reserve Policy Board at least annually to consider, recommend, and report to the Secretary on Reserve policy matters. At least one-half of the members of the Board shall be Reserve officers. Report. Membership.

"(b) The Secretary may convene any other Reserve Board the Secretary considers necessary.

"§704. Grades and ratings; military authority 14 USC 704.

"The grades and ratings in the Reserve, including cadets but not grades above rear admiral, are those prescribed by law or regulation for the Coast Guard. A member of the Reserve on active duty or inactive-duty training has the same authority, rights, and privileges in the performance of that duty as a member of the Regular Coast Guard of corresponding grade or rating.

"§705. Benefits 14 USC 705.

"(a) A member of the Reserve on active duty, on inactive-duty training, or engaged in authorized travel to or from that duty, is entitled to the same benefits as a member of the Naval Reserve of corresponding grade, rating, and length of service. In determining length of service for the purpose of this section, there shall be included all service for which credit is given by law to members of the Regular Coast Guard.

"(b) Chapter 13 of this title applies to a member of the Reserve under the same conditions and limitations as it applies to a member of the Regular Coast Guard. 14 USC 461.

"(c) A member of the Reserve who suffers sickness, disease, disability, or death is entitled to the same benefits as prescribed by law for a member of the Naval Reserve who suffers sickness, disease, disability, or death under similar conditions.

"(d) A member of the Reserve on active duty or when retired for disability is entitled to the benefits of section 253(a) of title 42. A member of the Reserve when on active duty (other than for training)

or when retired for disability is entitled to the benefits of chapter 55 of title 10.

10 USC 1071 *et seq.*

"(e) A member of the Reserve, except an enlisted member retiring on the basis of years of active service, is entitled to the same retirement rights, benefits, and privileges as prescribed by law for a member of the Naval Reserve, and wherever a law confers authority upon the Secretary of the Navy, similar authority is given to the Secretary to be exercised with respect to the Coast Guard when the Coast Guard is not operating as a service in the Navy. An enlisted member of the Reserve who retires on the basis of years of active service is entitled to the same retirement rights, benefits, and privileges as prescribed by law for an enlisted member of the Regular Coast Guard.

14 USC 706.

"§706. Temporary members of the Reserve; eligibility and compensation

"A citizen of the United States, its territories, or possessions who is a member of the Auxiliary, an officer or member of the crew of a motorboat or yacht placed at the disposal of the Coast Guard, or a person (including a Government employee without pay other than the compensation of that person's civilian position) who by reason of special training and experience is considered by the Commandant to be qualified for duty, may be enrolled by the Commandant as a temporary member of the Reserve, for duty under conditions the Commandant may prescribe, including part-time and intermittent active duty with or without pay, without regard to age. The Commandant is authorized to define the powers and duties of temporary members of the Reserve, and to confer upon them, appropriate to their qualifications and experience, the same grades and ratings as provided for members of the Reserve. When performing active duty with pay as authorized by this section, temporary members of the Reserve are entitled to receive the pay and allowances of their rank, grade, or rating.

14 USC 707.

"§707. Temporary members of the Reserve; disability or death benefits

"(a) If a temporary member of the Reserve is physically injured, or dies as a result of physical injury, and the injury is incurred incident to service while performing active duty, or engaged in authorized travel to or from that duty, the law authorizing compensation for employees of the United States suffering injuries while in the performance of their duties, applies, subject to this section. That law shall be administered by the Secretary of Labor to the same extent as if the member was a civil employee of the United States and was injured in the performance of that duty. For benefit computation, regardless of pay or pay status, the member is considered to have had monthly pay of $600.

"(b) This section does not apply if the workmen's compensation law of a State, a territory, or another jurisdiction provides coverage because of a concurrent employment status of the temporary member. When the temporary member or a dependent is entitled to a benefit under this section and also to a concurrent benefit from the United States on account of the same disability or death, the temporary member or dependent, as appropriate, shall elect which benefit to receive.

Investigation.

"(c) If a claim is filed under this section with the Secretary of Labor for benefits because of an alleged injury or death, the Secretary of Labor shall notify the Commandant who shall direct an investigation

into the facts surrounding the alleged injury or death. The Commandant shall then certify to the Secretary of Labor whether or not the injured or deceased person was a temporary member of the Reserve, the person's military status, and whether or not the injury or death was incurred incident to military service.

"(d) A temporary member of the Reserve, who incurs a physical disability or contracts sickness or disease while performing a duty to which the member has been assigned by competent authority, is entitled to the same hospital treatment afforded a member of the Regular Coast Guard.

"(e) In administering section 8133 of title 5, for a person covered by this section—

"(1) the percentages applicable to payments under that section are—

"(A) 45 per centum under subsection (a)(2) of that section, where the member died fully or currently insured under title II of the Social Security Act, with no additional payments for a child or children so long as the widow or widower remains eligible for payments under that subsection; 42 USC 401.

"(B) 20 per centum under subsection (a)(3) of that section, for one child, and 10 per centum additional for each additional child, not to exceed a total of 75 per centum, where the member died fully or currently insured under title II of the Social Security Act; and

"(C) 25 per centum under subsection (a)(4) of that section, if one parent was wholly dependent for support upon the deceased member at the time of the member's death and the other was not dependent to any extent; 16 per centum to each if both were wholly dependent; and if one was, or both were, partly dependent, a proportionate amount in the discretion of the Secretary of Labor;

"(2) payments may not be made under subsection (a)(5) of that section; and

"(3) the Secretary of Labor shall inform the Secretary of Health and Human Services whenever a claim is filed and eligibility for compensation is established under subsection (a)(2) or (a)(3) of section 8133 of title 5. The Secretary of Health and Human Services shall then certify to the Secretary of Labor whether or not the member concerned was fully or currently insured under title II of the Social Security Act at the time of the member's death.

"§708. Temporary members of the Reserve; certificate of honorable service 14 USC 708.

"In recognition of the service of temporary members of the Reserve, the Secretary may upon request issue an appropriate certificate of honorable service in lieu of a certificate of disenrollment issued to any person following disenrollment under honorable conditions from service as a temporary member. Issuance of a certificate of honorable service to any person under this section does not entitle that person to any rights, privileges, or benefits under any law of the United States.

"§709. Reserve student aviation pilots; Reserve aviation pilots; appointments in commissioned grade 14 USC 709.

"(a) Under regulations prescribed by the Secretary an enlisted member of the Reserve may be designated as a student aviation pilot.

"(b) A member who is not a qualified aviator may not be designated as a student aviation pilot unless the member agrees in writing to serve on active duty for a period of two years after successful completion of flight training, unless sooner released. A student aviation pilot may be released from active duty or discharged at any time as provided for in the regulations prescribed by the Secretary.

"(c) A student aviation pilot who is a qualified civilian aviator may be given a brief refresher course in flight training.

"(d) A student aviation pilot undergoing flight training is entitled to have uniforms and equipment provided at Government expense.

"(e) Under regulations prescribed by the Secretary, a student aviation pilot may be designated an aviation pilot upon the successful completion of flight training.

"(f) In time of peace, an aviation pilot obligated under subsection (b) to serve on active duty for two years may serve for an additional period of not more than two years.

"(g) An aviation pilot may be released from active duty or discharged at any time as provided for in the regulations prescribed by the Secretary.

"(h) If qualified under regulations prescribed by the Secretary, an aviation pilot may be appointed as an ensign in the Reserve.

14 USC 710.

"§710. Appointment or wartime promotion; retention of grade upon release from active duty

"(a) A member of the Reserve on active duty, who is appointed or promoted under section 214 or 275 of this title, is entitled upon release from that duty to the highest grade satisfactorily held by reason of that appointment or promotion. The Secretary shall determine the highest grade satisfactorily held.

14 USC 214, 275.

"(b) Unless otherwise entitled to a higher grade, a member recalled to active duty shall be recalled in the grade in which released under subsection (a).

14 USC 711.

"§711. Exemption from military training and draft; exclusiveness of service

"A member of the Reserve, other than a temporary member, is exempt from registration and liability for military training and service under any other law. No member of the Reserve, other than a temporary member, may be a member of another military organization. A temporary member of the Reserve who is a member of another military component shall, if ordered to active duty therein, be disenrolled as a temporary member of the Reserve.

14 USC 712.

"§712. Active duty for emergency augmentation of regular forces

"(a) Notwithstanding any other law, and for the emergency augmentation of the Regular Coast Guard forces during a time of serious natural or manmade disaster, accident, or catastrophe the Secretary may, subject to approval by the President and without the consent of the member affected, order to active duty of not more than fourteen days in any four-month period and not more than thirty days in any one-year period from the Coast Guard Ready Reserve an organized training unit, a member thereof, or a member not assigned to a unit organized to serve as a unit.

"(b) Under the circumstances of the domestic emergency involved, a reasonable time shall be allowed between the date when a Reserve member ordered to active duty under this section is alerted for that duty and the date when the member is required to enter upon that

duty. Unless the Secretary determines that the nature of the domestic emergency does not allow it, this period shall be at least two days.

"(c) Active duty served under this section—

"(1) satisfies on a day-for-day basis all or a part of the annual active duty for training requirement of section 270 of title 10;

"(2) does not satisfy any part of the active duty obligation of a member whose statutory Reserve obligation is not already terminated; and

"(3) entitles a member while engaged therein, or while engaged in authorized travel to or from that duty, to all rights and benefits, including pay and allowances and time creditable for pay and retirement purposes, to which the member would be entitled while performing other active duty.

"§713. Enlistment of members engaged in schooling 14 USC 713.

"The initial period of active duty for training required by section 511(d) of title 10, may be divided into two successive annual periods of not less than six weeks each, to permit the enlistment of a Reserve member without interrupting any full-time schooling in which the member is engaged.

"SUBCHAPTER B

"COMMISSIONED OFFICERS

"§720. Definitions 14 USC 720.

"As used in this subchapter—

"(1) 'Reserve officer' means a commissioned officer in the Reserve, except an officer excluded by section 721 of this title or a commissioned warrant officer; and *Infra.*

"(2) 'discharged' means released from an appointment as a Reserve officer.

"§721. Applicability of this subchapter 14 USC 721.

"This subchapter applies only to the Reserve; except that it does not apply to a temporary member of the Reserve.

"§722. Suspension of this subchapter in time of war or national emergency 14 USC 722.

"In time of war or national emergency declared by Congress, the President may suspend the operation of this subchapter or any part hereof. If this subchapter or any part hereof is suspended by the President, prior to placing the suspended provision in operation, the President shall by regulation, in so far as practicable, adjust the grades of Reserve officers in the same manner as adjustments in grade are made for Regular officers.

"§723. Effect of this subchapter on retirement and retired pay 14 USC 723.

"Except as provided in subsection 746(b) of this title, nothing in this subchapter authorizes the retirement of a Reserve officer or the payment of retired, retainer, or severance pay to a Reserve officer; or affects in any manner the law relating to the retirement of, or the granting of retired or retainer pay or other benefits to a Reserve officer. *Post,* p. 1015.

"§724. Authorized number of officers 14 USC 724.

"(a) The authorized number of officers in the Reserve in an active status is 5,000. The actual number of Reserve officers in an active status at any time shall not exceed the authorized number unless the

Secretary determines that a greater number is necessary for planned mobilization requirements, or unless the excess results directly from the operation of law.

"(b) The authorized number of Reserve officers in an active status below the grade of rear admiral shall be distributed in grade in the following percentages, respectively: captain, 1.5; commander, 7.0; lieutenant commander, 22.0; lieutenant, 37.0; and in the combined grades of lieutenant (junior grade) and ensign, 32.5. When the actual number of Reserve officers in an active status in a grade is less than the number authorized, the difference may be applied to increase the authorized number in a lower grade. A Reserve officer may not be reduced in rank or grade solely because of a reduction in an authorized number as provided for in this subsection, or because an excess results directly from the operation of law. The authorized number of Reserve officers in an active status not on active duty in the grade of rear admiral is two.

14 USC 725.

"§725. Precedence

"(a) Reserve officers rank and take precedence in their respective grades among themselves and with officers of the same grade on the active duty promotion list and the permanent commissioned teaching staff in accordance with their dates of rank. When Reserve officers and officers on the active duty promotion list or the permanent commissioned teaching staff have the same date of rank in a grade, they take precedence as determined by the Secretary.

"(b) Notwithstanding any other law, a Reserve officer shall not lose precedence when transferred to or from the active duty promotion list, nor shall that officer's date of rank be changed due to the transfer.

"(c) A Reserve officer shall, when on the active duty promotion list, be promoted in the same manner as any other officer on the active duty promotion list regardless of the length of active duty service of the Reserve officer.

14 USC 726.

"§726. Running mates

"(a) The Secretary shall assign a running mate to each Reserve officer in an active status not on the active duty promotion list. The officer initially assigned as a running mate under this section shall be that officer on the active duty promotion list of the same grade who is next senior in precedence to the Reserve officer concerned. An officer who has twice failed of selection or who has been considered but has not been recommended for continuation under section 289 of this title shall not be assigned as a running mate under this section.

14 USC 289.

"(b) A Reserve officer in an active status not on the active duty promotion list shall be assigned a new running mate as follows:

"(1) If a previously assigned running mate is promoted from below the promotion zone, is removed from the active duty promotion list, suffers a loss of numbers, fails of selection, fails to qualify for promotion, or declines an appointment after being selected for promotion, the new running mate shall be that officer on the active duty promotion list, of the same grade, who is next senior to the previous running mate and who is, or may become, eligible for consideration for promotion. If the previous running mate was on a list of selectees for promotion, the new running mate shall be that officer on the active duty promotion list, of the same grade, who is on a list of selectees for promotion and who is next senior to the previous running mate.

"(2) If a Reserve officer suffers a loss of numbers, the new running mate shall be that officer on the active duty promotion list who, after the loss of numbers has been effected, is the running mate of the Reserve officer next senior to the Reserve officer concerned.

"(3) If a Reserve officer is considered for promotion and fails of selection, fails to qualify for promotion, declines an appointment after being selected for promotion, or has his or her name removed from a list of selectees for promotion, and that officer's running mate is promoted, the new running mate shall be that officer on the active duty promotion list, of the same grade, who, at the time the previous running mate was considered for promotion, was next senior to the previous running mate, was eligible for consideration for promotion, and whose name was not included on a list of selectees for promotion.

"(4) In a situation not expressly covered by this subsection, the Secretary may assign a new running mate as necessary to effect the intent of this section that inequitable changes of precedence do not occur.

"(c) A Reserve officer on the active duty promotion list shall, to the extent practicable and consistent with the limitations imposed by this section, be assigned as the running mate of all Reserve officers junior to the officer, who are in an active status not on the active duty promotion list, and who had a running mate in common with the officer just prior to the time the officer was placed on the active duty promotion list.

"(d) The Secretary may adjust, as necessary, the date of rank of a Reserve officer not on active duty so that the date will correspond with that of the running mate assigned to the officer in accordance with this section. If an overpayment of pay or allowances results from adjusting the date of rank, the overpayment is not subject to recoupment.

"§727. Constructive credit upon initial appointment 14 USC 727.

"Under regulations prescribed by the Secretary, a person, appointed as a Reserve officer, may be assigned a date of rank and precedence which reflects that person's experience, education, or other qualifications. For the purpose of this subchapter only, a person appointed for the purpose of assignment or designation as a law specialist in the Reserve shall be credited with a minimum of three years service in an active status. A person holding a doctor of philosophy, or a comparable degree, in medicine or in a science allied to medicine as determined by the Secretary, may be credited with a minimum of three years service in an active status if appointed for an assignment comparable to that of an officer in the Navy Medical Department.

"§728. Promotion of Reserve officers on active duty 14 USC 728.

"(a) A Reserve officer on active duty, other than for training, duty on a board, or duty of a limited or temporary nature if assigned to active duty from an inactive duty status, shall not be eligible for consideration for promotion under this subchapter; but shall be considered for promotion under chapter 11 of this title. If promoted while serving on active duty the officer shall be considered as having been promoted under this subchapter and shall be an extra number in the grade to which promoted for the purpose of grade distribution as prescribed in this subchapter. Upon release from active duty the 14 USC 211 *et seq.*

officer shall be included in the grade distribution authorized by this subchapter.

"(b) Notwithstanding subsection (a) of this section, a Reserve officer who has been selected for promotion to the next higher grade under this subchapter at the time the officer reports for active duty, shall be promoted to that grade under chapter 11 of this title.

14 USC 211 *et seq.*

"(c) A Reserve officer who, at the time the officer is released from active duty, has been selected for promotion to the next higher grade under chapter 11 of this title, shall be promoted to that grade as though selected under this subchapter.

"(d) A failure of selection for promotion to the next higher grade occurring under this subchapter or under chapter 11 of this title shall count for all purposes.

14 USC 729.

"§729. Promotion; recommendations of selection boards

"(a) Except as otherwise provided by law, a Reserve officer shall only be promoted pursuant to the recommendation of a selection board.

"(b) The Secretary shall convene selection boards from time to time to recommend Reserve officers for promotion to the next higher grade. A board may be convened to consider officers in one or more grades.

"(c) A selection board shall, from among the names of those eligible Reserve officers submitted to it, recommend for promotion to the next higher grade:

"(1) those officers serving in the grade of lieutenant (junior grade) or above whom it considers to be best qualified; and

"(2) those officers serving in the grade of ensign whom it considers to be fully qualified.

"(d) Before convening a selection board to recommend Reserve officers for promotion to a grade above lieutenant (junior grade), the Secretary shall determine the total number of Reserve officers to be selected for promotion to that grade. The number to be selected shall normally be equal to the number of vacancies existing in that grade, plus the number of vacancies anticipated over the next twelve months, minus the number of officers on the list of selectees for that grade. The Secretary may, however, prescribe regulations that provide for the establishment of promotion opportunity percentages for each grade to ensure that equitable promotion opportunities exist among successive groups of Reserve officers being considered for promotion. The number so determined may not cause the number of Reserve officers in an active status in a grade to exceed that authorized for the grade concerned.

"(e) The law and regulations relating to the selection for promotion of a commissioned officer of the Regular Coast Guard to the grade of rear admiral apply to a Reserve officer, except that to be eligible for consideration an officer shall have completed at least ten years commissioned service, of which the last five years shall have been served in the Coast Guard Reserve.

14 USC 260.

"(f) The provisions of section 260 of this title apply to boards convened under this section. The Secretary shall determine the procedure to be used by a selection board.

Report to President. Review.

"(g) The report of a selection board shall be submitted to the Secretary for review and transmission to the President for approval. When an officer recommended by a board for promotion is not acceptable to the President, the President may remove the name of that officer from the report of the board.

"(h) The recommendations of a selection board, as approved by the President, constitute a list of selectees from which the promotions of Reserve officers shall be made. An officer on a list of selectees remains thereon until promoted unless removed by the President under section 738 of this title. If an existing list of selectees has not been exhausted by the time a later list has been approved, all officers remaining on the older list shall be tendered appointments prior to those on the later list. List of selectees.

Post, p. 1013.

"(i) A Reserve officer whose name is on a list of selectees for promotion shall, unless that officer's promotion is lawfully withheld, be tendered an appointment in the next higher grade at the same time, or as soon thereafter as practicable, as that officer's running mate is tendered a similar appointment.

"§730. Selection boards; appointment

14 USC 730.

"(a) A selection board shall (1) be appointed and convened by the Secretary; (2) consist of at least 50 per centum Reserve officer membership, except in the case of a flag officer selection board where, to the extent practicable, it shall consist of at least 50 per centum Reserve officer membership; (3) consist only of members, Reserve or Regular, senior in grade to any officer being considered by that board; and (4) be composed of not less than five members, which number constitutes a quorum. Membership.

"(b) A selection board serves for the length of time prescribed by the Secretary, but no board may serve longer than one year. No officer may serve on two consecutive selection boards for the same grade when the second of those boards considers an officer who was considered, but not recommended for promotion, by the first selection board.

"(c) Each member of a selection board shall swear that he will, without prejudice or partiality, and having in view both the special fitness required of officers and the efficiency of the Coast Guard, perform the duties imposed upon him. Not less than a majority of the total membership of a selection board shall concur in each recommendation made by the board.

"(d) An officer eligible for consideration for promotion by a selection board may forward, through official channels, a written communication inviting the attention of the board to any matter in the officer's record in the armed forces that, in the opinion of the officer concerned, is important to the board's consideration. A communication forwarded under this subsection shall arrive in time to allow delivery to the board prior to its convening, and may not criticize or reflect upon the character, conduct, or motive of any officer. Written communication to board.

"§731. Placement in promotion zone; consideration for promotion

14 USC 731.

"Subject to the eligibility requirements of this subchapter, a Reserve officer shall be placed in a promotion zone when that officer's running mate is placed in a promotion zone and shall, in accordance with the provisions of this subchapter, be considered for promotion at approximately the same time as that officer's running mate or as soon thereafter as practicable.

"§732. Eligibility for promotion

14 USC 732.

"A Reserve officer is eligible for consideration for promotion and for promotion under this subchapter, if that officer is in an active status. A Reserve officer who has been considered but not recommended for retention in an active status by a board convened under

Post, p. 1014.

subsection 741(a) of this title, is not eligible for consideration for promotion.

14 USC 733.

"§733. Recommendation for promotion of an officer previously removed from an active status

Recommended list of selectees.

"A Reserve officer recommended for promotion by a selection board but not promoted because of removal from an active status shall be reconsidered by a selection board after returning to an active status and if selected shall be placed on a recommended list of selectees for promotion. A Reserve officer to whom this section applies is not considered to have failed of selection when eliminated from a list of selectees for promotion solely as a result of being removed from an active status.

14 USC 734.

"§734. Qualifications for promotion

"(a) A Reserve officer shall not be promoted to a higher grade unless the officer has been found to be physically qualified and the character of the officer's service subsequent to the convening of the selection board which recommended the officer for promotion has been verified as satisfactory.

"(b) Subsection (a) of this section does not exclude from promotion a Reserve officer physically disqualified by a medical board for duty at sea or in the field, if the disqualification results from wounds received in the line of duty, and those wounds do not incapacitate the officer for other duties in the grade to which the officer is to be promoted.

14 USC 735.

"§735. Promotion; acceptance; oath of office

"(a) A Reserve officer who has been appointed under this subchapter is considered to have accepted the appointment unless delivery thereof cannot be effected.

"(b) A Reserve officer who has served continuously since taking the oath of office prescribed in section 3331 of title 5, is not required to take a new oath of office upon appointment in a higher grade.

14 USC 736.

"§736. Date of rank upon promotion; entitlement to pay

"(a) When a Reserve officer is promoted to the next higher grade under this subchapter, the same date of rank shall be assigned as that assigned to the officer's running mate. A Reserve officer so promoted shall be allowed the pay and allowances of the higher grade for duty performed from the date of the officer's appointment thereto.

"(b) Notwithstanding any other law and when a Reserve officer's running mate is so entitled, a Reserve officer in the grade of rear admiral is entitled to the pay and allowances of the upper half for duty performed.

Appointment date.

"(c) For the purposes of subsection (a) of this section, the date of appointment shall be that date when promotion authority is exercised by the Secretary.

14 USC 737.

"§737. Type of promotion; temporary

"Notwithstanding any other law, if a Reserve officer is promoted when the officer's running mate is promoted and the promotion of the running mate is on a temporary basis, the promotion of the Reserve officer is also on a temporary basis. If subsequently the running mate is reverted to a lower grade, other than for reasons of discipline, incompetence, or at the running mate's request, the Reserve officer shall likewise revert to the same lower grade with corresponding precedence.

"§738. Effect of removal by the President or failure of consent of the Senate 14 USC 738.

"(a) The President may, for cause, remove the name of any officer from a list of selectees established under section 729 of this title. *Ante*, p. 1010.

"(b) If the Senate, where required, does not consent to the appointment of an officer whose name is on a list of selectees established under section 729 of this title, that officer's name shall be removed from the list.

"(c) An officer whose name is removed from a list of selectees under subsection (a) or (b) continues to be eligible for consideration for promotion. If selected for promotion by the next selection board and promoted, that officer shall be assigned the date of rank and precedence that would have been assigned if the officer's name had not been previously removed. However, if the officer is not selected by the next selection board, or if the officer's name is again removed from the list of selectees, the officer shall be considered for all purposes as having twice failed of selection for promotion.

"§739. Failure of selection for promotion 14 USC 739.

"(a) A Reserve officer, other than one serving in the grade of captain, who is, or is senior to, the junior officer in the promotion zone established for the officer's grade, fails of selection if not selected for promotion by the selection board that considered the officer, or if having been selected for promotion by the board, the officer's name is thereafter removed from the report of the board by the President.

"(b) A Reserve officer is not considered to have failed of selection if the officer was not considered by a selection board because of administrative error. If that officer is selected by the next appropriate selection board after the error is discovered, and is promoted, the same date of rank and precedence shall be assigned that would have been assigned if the officer had been recommended for promotion by the selection board that originally would have considered the officer but for the error.

"§740. Failure of selection and removal from an active status 14 USC 740.

"(a) The Secretary—

"(1) may remove from an active status a Reserve officer who has twice failed of selection to the next higher grade; and

"(2) shall remove from an active status a Reserve officer serving in the grade of captain who has completed thirty years of total commissioned service and whose name is not carried on an approved list of selectees for promotion to the grade of rear admiral.

"(b) A Reserve officer who has twice failed of selection to the next higher grade and who is not removed from an active status under subsection (a)(1) of this section shall be retained for the period prescribed by the Secretary.

"(c) Subject to section 1006 of title 10, a Reserve officer who is removed from an active status under subsection (a) of this section shall be given an opportunity to transfer to the Retired Reserve, if qualified, but unless so transferred shall, in the discretion of the Secretary, be transferred to the inactive status list or discharged as follows:

"(1) if removed from an active status under subsection (a)(1) of this section, on June 30 next following the approval date of the board report by virtue of which the officer's second failure of selection occurs; or

"(2) if removed from an active status under subsection (a)(2) of this section, on June 30 next following the date on which the officer completes thirty years of total commissioned service as computed under this section.

"(d) For the purpose of this section, the total commissioned service of an officer who has served continuously in the Reserve following appointment in the grade of ensign shall be computed from the date on which that appointment was accepted. A Reserve officer initially appointed in a grade above ensign is considered to have the actual total commissioned service performed in a grade above commissioned warrant officer or the same total commissioned service as an officer of the Regular Coast Guard who has served continuously from an original appointment as ensign, who has not lost numbers or precedence, and who is, or was, junior to the Reserve officer, whichever is greater.

14 USC 741.

"§741. Retention boards; removal from an active status to provide a flow of promotion

"(a) Notwithstanding any other provision of this title, whenever the Secretary determines that it is necessary to reduce the number of Reserve officers in an active status in any grade to provide a steady flow of promotion, or that there is an excessive number of Reserve officers in an active status in any grade, the Secretary may appoint and convene a retention board to consider all of the Reserve officers in that grade in an active status not on active duty and not on an approved list of selectees for promotion to the next higher grade. The retention board shall select and recommend a specified number of the officers under consideration for retention in an active status. This board shall—

"(1) to the extent practicable, consist of at least 50 per centum Reserve officers;

"(2) consist only of officers who are senior in rank to any officers being considered by that board; and

"(3) to the extent practicable, consist of officers who have not served on the last previous retention board which considered officers of the same grade.

"(b) Subject to section 1006 of title 10, a Reserve officer who is not recommended for retention in an active status under this section shall be given an opportunity to transfer to the Retired Reserve, if qualified, but unless so transferred shall, in the discretion of the Secretary, be transferred to the inactive status list or discharged on June 30 next following the date on which the report of the retention board is approved.

14 USC 260.

"(c) The provisions of section 260 of this title shall, to the extent that they are not inconsistent with this subchapter, apply to boards convened under this section.

14 USC 742.

"§742. Maximum ages for retention in an active status

Reserve officer.

"(a) A Reserve officer, if qualified, shall be transferred to the Retired Reserve on the day the officer becomes sixty-two years of age.

Reserve rear admiral.

"(b) Notwithstanding subsection (a) of this section, the Secretary may authorize the retention of a Reserve rear admiral in an active status not longer than the day on which the officer concerned becomes sixty-four years of age.

"(c) Except as provided for in subsections (a) and (b) of this section, a Reserve officer shall be discharged effective upon the day the officer becomes sixty-two years of age.

"§743. Rear admiral; maximum service in grade 14 USC 743.

"Unless retained in or removed from an active status under any other law, a Reserve rear admiral shall be removed from an active status on the day that officer completes four years of service in that grade.

"(b) An officer in the Retired Reserve or an officer on a Reserve retired list recalled to active duty shall upon release therefrom be advanced in the Retired Reserve or on the Reserve retired list to the highest grade held on active duty, if: (1) appointed to a higher grade while on that duty, and (2) the officer's performance has been satisfactory in the higher grade.".

MX MISSILE AND BASING MODE

Congressional findings.
10 USC 139 note.

SEC. 202. (a) The Congress finds that a survivable land-based intercontinental ballistic missile (ICBM) system is vital to the security of the United States and to a stable strategic balance between the United States and the Soviet Union and that timely deployment of a new basing mode is essential to the survivability of this Nation's land-based intercontinental ballistic missiles. It is, therefore, the purpose of this section to commit the Congress to the development and deployment of the MX missile system, consisting of 200 missiles and 4,600 hardened shelters, and to insure that deployment of the entire MX system is carried out as soon as practicable.

(b) The Secretary of Defense shall proceed immediately with the full-scale engineering development of the MX missile and a Multiple Protective Structure (MPS) basing mode and shall continue such development in a manner that will achieve an Initial Operational Capability of such missile and basing mode not later than December 31, 1986.

(c) Notwithstanding any other provision of law, the initial phase of construction shall be limited to 2,300 protective shelters for the MX missile in the initial deployment area.

Study.

(d) In accordance with the finding of the Congress expressed in subsection (a), a full system of at least 4,600 protective shelters may be deployed in the initial deployment area if, after completion of a study to be conducted by the Secretary of Defense of an alternate site for a portion of the system, it is determined by the Congress that adverse cost, military considerations, or other reasons preclude split basing.

C-X AIRCRAFT PROGRAM

SEC. 203. (a) None of the funds authorized to be appropriated by this title may be obligated or expended for the full-scale engineering development or procurement of the C-X or any other new transport aircraft until the Secretary of Defense has certified in writing to the Congress—

(1) that the national security requirements of the United States for additional military airlift capability merit initiation of the C-X aircraft program;

(2) that the magnitude and nature of the military cargo and material to be airlifted to the Indian Ocean area and other areas of potential conflict are sufficiently well defined to permit identification of a deficiency in military airlift capability;

(3) that the magnitude and characteristics of military cargo and material to be transported by air to such areas are sufficiently well defined to provide clear justification and design parameters for such aircraft; and

(4) that plans for such aircraft are sufficiently well developed to make such full-scale engineering development both economical and technically feasible.

Study.

(b) The Secretary of Defense shall conduct a study to determine overall United States military mobility requirements. Such study shall include an analysis of the total mix of airlift, sealift, and prepositioning of war materials required for the United States to respond to military contingencies in the Indian Ocean area and other areas of potential conflict during the decade of the 1980's. The Secretary shall submit a report to the Committees on Armed Services of the Senate and House of Representatives not later than February 1, 1981, on the results of such study, together with such comments and recommendations as the Secretary considers appropriate, including recommendations for specific programs to provide an adequate overall military transportation capacity for the United States.

Report to congressional committees.

(c) Not more than $35,000,000 of the funds authorized to be appropriated by this title may be obligated or expended for the C-X aircraft program. Of such amount, not more than $15,000,000 may be obligated or expended before February 1, 1981, and the remainder of such amount may be obligated or expended only after the expiration of 60 days following the submission to the Congress of the report required by subsection (b).

Expiration date.

MULTI-ROLE STRATEGIC BOMBER

SEC. 204. (a) The Secretary of Defense shall vigorously pursue full-scale engineering development of a strategic multi-role bomber which maximizes range, payload, and ability to perform the missions of conventional bomber, cruise missile launch platform, and nuclear weapons delivery system in both the tactical and strategic role.

(b) Of the funds authorized to be appropriated for the Air Force under this title, $300,000,000 may be obligated or expended for full-scale development, following compliance with subsection (c), of a multi-role bomber aircraft to achieve an Initial Operational Capability as soon as practicable, consistent with the aircraft selected, but not later than 1987. Such aircraft shall have the capability of performing the missions of conventional bomber, cruise missile launch platform, and nuclear weapons delivery system.

Status report to congressional committees.

(c) The Secretary of Defense shall submit a status report to the Committees on Armed Services of the Senate and House of Repre-

sentatives by March 15, 1981, on the results of the development effort to date. The Secretary shall include in such report comparisons of the various candidate aircraft in terms of cost and military effectiveness. Candidate aircraft shall include, but not be limited to, advanced technology aircraft, the B-1 bomber aircraft and derivatives of the B-1 aircraft, and the FB-111B/C aircraft.

Notwithstanding any provision of law restricting the availability of such funds, the Secretary of the Navy shall use any unobligated funds previously appropriated for such system for fiscal year 1979 for the purpose of resuming such work.

(b) Not later than April 1, 1981, the President shall submit to the Congress a plan for the deployment of an operational Extremely Low Frequency (ELF) Communications System. Plan, submittal to Congress.

However, none of such funds may be obligated or expended for development of such gun until (1) the Secretary of the Army prepares a plan on how the life-cycle costs for incorporating the 120-millimeter gun into the tank force of the Army can be reduced by $600,000,000 through efficient training practices, (2) the Secretary of Defense approves such plan, and (3) such plan is submitted to the Congress. Plan, submittal to Congress.

10 USC 1401a note.

SEC. 812. (a)(1) The increase in the retired and retainer pay of members and former members of the uniformed services which but for this section would be made effective September 1, 1980, under the provisions of paragraph (2)(B) of section 1401a(b) of title 10, United States Code, shall not be made.

(2)(A) In making the determination required by the provisions of paragraph (1)(A) of section 1401a(b) of title 10, United States Code, to be made on January 1, 1981, or within a reasonable time thereafter, the Secretary of Defense shall determine the percent change in the index (as such term is defined in section 1401a(a) of title 10, United States Code) published for December 1980 over the index published for December 1979 (rather than over the index published for June 1980).

(B) The increase in the retired and retainer pay of members and former members of the uniformed services to be made effective March 1, 1981, under the provisions of paragraph (2)(A) of such section shall, in lieu of the increase prescribed by such paragraph, be the percent change computed under subparagraph (A), adjusted to the nearest $\frac{1}{10}$ of one percent.

Executive order.

(3) The President shall by Executive order provide for only one cost-of-living adjustment in the annuities paid under the Central Intelligence Agency Act of 1964 for Certain Employees (50 U.S.C. 403 note) during the period beginning on September 1, 1980, and ending on August 31, 1981. Such adjustment shall be effective March 1, 1981, and shall be made in the same manner and percentage as the adjustment provided for in paragraphs (1) and (2) for the retired and retainer pay of members and former members of the uniformed services.

Restriction.

(4) Paragraphs (1), (2), and (3) shall not take effect unless similar legislation is enacted which provides for only one cost-of-living increase in annuities paid under subchapter III of chapter 83 of title 5, United States Code, during the period beginning on September 1, 1980, and ending on August 31, 1981.

5 USC 8331.

Effective date.

(b)(1) Effective August 31, 1981, but subject to paragraph (3), section 1401a(b) of title 10, United States Code, relating to adjustment of

retired pay and retainer pay to reflect changes in the Consumer Price Index, is amended to read as follows:

"(b) Each time that an increase is made under section 8340(b) of title 5 in annuities paid under subchapter III of chapter 83 of such title, the Secretary of Defense shall at the same time increase the retired and retainer pay of members and former members of the armed forces by the same percent as the percentage by which annuities are increased under such section.". 5 USC 8331.

(2) The amendment made by paragraph (1) shall not take effect unless legislation is enacted which provides for the adjustment of annuities paid under subchapter III of chapter 83 of title 5, United States Code, on a once-a-year basis. In the event such legislation is enacted, such amendment shall become effective with respect to adjustments in the retired pay and retainer pay of members and former members of the uniformed services at the same time that the legislation providing for such a once-a-year adjustment of annuities paid under subchapter III of chapter 83 of title 5, United States Code, becomes effective. Restriction. 10 USC 1401a note.

(3) If legislation described in paragraph (2) is enacted to provide for the adjustment of annuities paid under subchapter III of chapter 83 of title 5, United States Code, on a once-a-year basis, the President shall exercise the authority vested in him under section 292 of the Central Intelligence Agency Act of 1964 for Certain Employees (50 U.S.C. 403 note) to provide for cost-of-living adjustments in the annuities paid under such Act on an identical basis.

(4) If at the time the first adjustment in retired and retainer pay is made under section 1401a(b) of title 10, United States Code, as amended by paragraph (1) of this subsection, the period upon which the most recent adjustment in such retired and retainer pay was computed is not identical to the period upon which the most recent adjustment in annuities under subchapter III of chapter 83 of title 5, United States Code, was computed, then the percentage increase to be made under such section 1401a(b) at the time of the first such adjustment shall be computed in the same manner as the percentage increase made at the same time in annuities under subchapter III of chapter 83 of title 5, United States Code, is computed, but shall be based on the period beginning on the last day of the period upon which the most recent adjustment in such retired and retainer pay was computed and ending on the last day of the period upon which the adjustment being made at the same time in annuities under such subchapter III is computed. The President shall by Executive order provide for a similar computation of the adjustment in annuities paid under the Central Intelligence Agency Act of 1964 for Certain Employees (50 U.S.C. 403 note) which is made at the same time as the increase in retired and retainer pay to which the preceeding sentence is applicable. An Act

To provide for an accelerated program of wind energy research, development, and demonstration, to be carried out by the Department of Energy with the support of the National Aeronautics and Space Administration and other Federal agencies, and for other purposes.

Sept. 8, 1980
[H.R. 5892]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Wind Energy Systems Act of 1980".

Wind Energy Systems Act of 1980.
42 USC 9201 note.

FINDINGS AND PURPOSE

SEC. 2. (a) The Congress finds that— 42 USC 9201.

(1) the United States is faced with a finite and diminishing resource base of native fossil fuels and, as a consequence, must develop as quickly as possible a diversified, pluralistic national energy capability and posture;

(2) the current imbalance between supply and demand for fuels and energy in the United States is likely to grow for many years;

(3) it is in the Nation's interest to provide opportunities for the increased production of electricity from renewable energy sources;

(4) the early wide-spread utilization of wind energy for the generation of electricity and for mechanical power could lead to relief on the demand for existing non-renewable fuel and energy supplies;

(5) the use of large wind energy systems for certain limited applications is already economically feasible;

(6) the use of small wind energy systems for certain applications is already economically feasible, and therefore, the Federal Government should not undertake any financial incentive or financial initiative which may detrimentally affect commercial markets for small wind energy systems;

(7) an aggressive research, development and demonstration program to accelerate widespread utilization of wind energy should solve existing technical problems of converting wind energy into electricity and mechanical energy and, supported by an assured and growing market for wind energy systems during the next decade, should maximize the future contribution of wind energy to the Nation's future energy production;

(8) it is the proper and appropriate role of the Federal Government to undertake research and development, to participate in demonstration programs for wind energy systems, and to assist private industry, other entities, and the general public in hastening the widespread utilization of such systems;

(9) the widespread use of wind energy systems to supplement and replace conventional methods for the generation of electricity and mechanical power would have a beneficial effect upon the environment;

(10) the evaluation of the performance and reliability of wind energy technologies can be expedited by the testing of prototypes under carefully controlled conditions;

(11) innovation and creativity in the development of components and systems for converting wind energy into electricity and mechanical energy can be fostered through encouraging direct contact between the manufacturers of such components and systems and utilities and other persons interested in utilizing such components and systems; and

(12) consistent with the findings of the Domestic Policy Review on Solar Energy, wind energy can potentially contribute 1.7 quads of energy per year by the year 2000.

(b) It is declared to be the policy of the United States and the purpose of this Act to establish during the next eight years an aggressive research, development, demonstration, and technology applications program for converting wind energy into electricity and mechanical energy. It is declared to be the further policy of the United States and the purpose of this Act that the objectives of such program are—

(1) to reduce the average cost of electricity produced by installed wind energy systems, by the end of fiscal year 1988, to a level competitive with conventional energy sources;

(2) to reach a total megawatt capacity in the United States from wind energy systems, by the end of fiscal year 1988, of at least eight hundred megawatts, of which at least one hundred megawatts are provided by small wind energy systems; and

(3) to accelerate the growth of a commercially viable and competitive industry to make wind energy systems available to the general public as an option in order to reduce national consumption of fossil fuel.

DEFINITIONS

42 USC 9202.

SEC. 3. For purposes of this Act—

(1) the term "wind energy system" means a system of components which converts the kinetic energy of the wind into electricity or mechanical power, and which comprises all necessary components, including energy storage, power conditioning, control systems, and transmission systems, where appropriate, to provide electricity or mechanical power for individual, residential, agricultural, commercial, industrial, utility, or governmental use;

(2) the term "small wind energy system" means a wind energy system having a maximum rated capacity of one hundred kilowatts or less;

(3) the term "large wind energy system" means a wind energy system which is not a small wind energy system;

(4) the term "public and private entity" means any individual, corporation, partnership, firm, association, agricultural cooperative, public- or investor-owned utility, public or private institution or group, any State or local government agency, or any other domestic entity;

(5) the term "known wind resource" means a site with an estimated average annual wind velocity of at least twelve miles per hour;

(6) the term "conventional energy source" means energy produced from oil, gas, coal, and nuclear fuels; and

(7) the term "Secretary" means the Secretary of Energy.

COMPREHENSIVE PROGRAM MANAGEMENT PLAN

SEC. 4. (a) The Secretary shall prepare a comprehensive program management plan for the research, development, demonstration, and technology application activities to carry out the purposes of this Act. The program activities shall be conducted in accordance with such comprehensive plan which shall include— 42 USC 9203.

(1) a five-year program for small wind energy systems,

(2) an eight-year program for large wind energy systems, and

(3) a three-year program for wind resource assessment

which shall be consistent with the provisions of sections 5, 6, and 7. In the preparation of such plan, the Secretary shall consult with the Administrator of the National Aeronautics and Space Administration, the Secretary of the Interior, and the heads of such other Federal agencies and such public and private organizations as he deems appropriate. Consultation.

(b) The Secretary shall transmit the comprehensive program management plan to the Committee on Science and Technology of the House of Representatives and the Committee on Energy and Natural Resources of the Senate within nine months after the date of the enactment of this Act. Joint Resolution

To authorize and request the President to issue a proclamation designating September 18, 1980, as "Constantino Brumidi Day".

Sept. 19, 1980
[H.J. Res. 594]

Whereas Constantino Brumidi, born in Rome, Italy, on July 26, 1805, landed at New York Harbor on September 18, 1852, as a political exile, making his flight from Italy to the United States because of his love for liberty; and

Whereas Brumidi's love for his adopted country led him to seek citizenship two years after his arrival; and

Whereas the artist's love for liberty joined his love for art and his love of country as he spent the last twenty-five years of his life embellishing the United States Capitol, including the corridors of the Senate wing, the formal offices of the President and the Vice President, the Senate reception room, the present House and Senate Appropriations Committee rooms, and the rotunda; and

Whereas in 1877, at the age of seventy-two, Brumidi began his last work, the fresco frieze encircling the top of the rotunda, and fell from a slipped scaffolding three years later while attempting to complete part of the work, and though not injured, suffered a shock so great that he was never able to return to work; and

Whereas Brumidi died as a result of this experience three months later in February 1880; and

Whereas the Congress recognizes the artist's devotion and talent which earned him the nickname of the "Michelangelo of the Capitol of the United States"; and

Whereas the year 1980 marks the one hundred and seventy-fifth anniversary of the birth, and the one hundredth anniversary of the death of Constantino Brumidi: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the President is authorized and requested to issue a proclamation designating September 18, 1980, as "Constantino Brumidi Day" and calling upon the people of the United States, State and local government agencies, and interested organizations to observe that week with appropriate ceremonies, activities, and programs.

Public Law 96-354
96th Congress

An Act

Sept. 19, 1980
[S. 299]

To amend title 5, United States Code, to improve Federal rulemaking by creating procedures to analyze the availability of more flexible regulatory approaches for small entities, and for other purposes.

Regulatory Flexibility Act.
5 USC 601 note.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Regulatory Flexibility Act".

FINDINGS AND PURPOSES

5 USC 601 note.

SEC. 2. (a) The Congress finds and declares that—

(1) when adopting regulations to protect the health, safety and economic welfare of the Nation, Federal agencies should seek to achieve statutory goals as effectively and efficiently as possible without imposing unnecessary burdens on the public;

(2) laws and regulations designed for application to large scale entities have been applied uniformly to small businesses, small organizations, and small governmental jurisdictions even though the problems that gave rise to government action may not have been caused by those smaller entities;

(3) uniform Federal regulatory and reporting requirements have in numerous instances imposed unnecessary and disproportionately burdensome demands including legal, accounting and consulting costs upon small businesses, small organizations, and small governmental jurisdictions with limited resources;

(4) the failure to recognize differences in the scale and resources of regulated entities has in numerous instances adversely affected competition in the marketplace, discouraged innovation and restricted improvements in productivity;

(5) unnecessary regulations create entry barriers in many industries and discourage potential entrepreneurs from introducing beneficial products and processes;

(6) the practice of treating all regulated businesses, organizations, and governmental jurisdictions as equivalent may lead to inefficient use of regulatory agency resources, enforcement problems, and, in some cases, to actions inconsistent with the legislative intent of health, safety, environmental and economic welfare legislation;

(7) alternative regulatory approaches which do not conflict with the stated objectives of applicable statutes may be available which minimize the significant economic impact of rules on small businesses, small organizations, and small governmental jurisdictions;

(8) the process by which Federal regulations are developed and adopted should be reformed to require agencies to solicit the ideas and comments of small businesses, small organizations, and small governmental jurisdictions to examine the impact of proposed and existing rules on such entities, and to review the continued need for existing rules.

(b) It is the purpose of this Act to establish as a principle of regulatory issuance that agencies shall endeavor, consistent with the objectives of the rule and of applicable statutes, to fit regulatory and informational requirements to the scale of the businesses, organizations, and governmental jurisdictions subject to regulation. To achieve this principle, agencies are required to solicit and consider flexible regulatory proposals and to explain the rationale for their actions to assure that such proposals are given serious consideration.

"§ 603. Initial regulatory flexibility analysis

Public comment. 5 USC 553.

"(a) Whenever an agency is required by section 553 of this title, or any other law, to publish general notice of proposed rulemaking for any proposed rule, the agency shall prepare and make available for public comment an initial regulatory flexibility analysis. "(b) Sections 603 and 604 of this title shall not apply to any proposed or final rule if the head of the agency certifies that the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities. If the head of the agency makes a certification under the preceding sentence, the agency shall publish such certification in the Federal Register, at the time of publication of general notice of proposed rulemaking for the rule or at the time of publication of the final rule, along with a succinct statement explaining the reasons for such certification, and provide such certification and statement to the Chief Counsel for Advocacy of the Small Business Administration.

96th Congress

An Act

Sept. 25, 1980
[S. 261]

To provide for the development of State plans for the construction and improvement of subterminal storage and transportation facilities for certain types of agricultural commodities within the State or within a group of States acting together on a regional basis, and to amend the Consolidated Farm and Rural Development Act to authorize loans for the construction and improvement of such facilities, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Agricultural Subterminal Facilities Act of 1980".

Agricultural Subterminal Facilities Act of 1980.
7 USC 3701 note.

FINDINGS

7 USC 3701.

SEC. 2. Congress finds and declares that—

(1) an adequate system for the efficient transient storage and movement of bulk agricultural commodities is essential to the overall success of the agricultural industry of the Nation, the development of rural areas of the Nation, and the economic stability of the Nation;

(2) the movement and storage of bulk agricultural commodities has been seriously and repeatedly impeded by shortages of transient storage facilities, adequate rail rolling stock, and the deterioration of many railroad track beds and rural highways throughout the United States;

(3) the efficient movement and storage of bulk agricultural commodities may be achieved and facilitated by the joint location at strategic points throughout the United States of transient storage facilities and multimodal terminal facilities constructed especially for the efficient shipment and receipt of agricultural commodities; and

(4) the location of such facilities must be carefully planned to assure maximum benefits to producers of agricultural commodities and unprocessed agricultural products and utilization of the most efficient means of transporting bulk agricultural commodities for domestic and export markets.

DEFINITIONS

7 USC 3702.

SEC. 3. As used in this Act, the term—

(1) "bulk agricultural commodity" means any agricultural commodity that can be transported in bulk and can be temporarily stored in bulk quantities without undergoing processing or packaging. Such term also includes any commodity or product that is used by producers in the production of agricultural commodities and that can be stored or shipped in bulk, such as fertilizer and fuel;

(2) "unprocessed agricultural products" means food, fiber, and other agricultural products that have not been packaged or otherwise prepared for retail sale, including animal products and

unfinished cotton, wool, leather, or any other unfinished natural material;

(3) "Secretary" means Secretary of Agriculture;

(4) "subterminal facility" means any facility that is located in the area of production or consumption of agricultural commodities or any major storage or major export point for such commodities and is located at a place that conveniently serves the needs of producers, purchasers, and consumers of bulk agricultural commodities, and is—

(A) used for the transient storage of bulk agricultural commodities and may include equipment or structures necessary for the transportation, upgrading, receiving, drying, or loading out of such commodities; or

(B) any rail siding, loading, or unloading facility that can accommodate unit railroad trains or multiple car trains and other appropriate transportation modes designed for the transport of bulk agricultural commodities and production materials; and

(5) "region" means two or more States acting together to develop a coordinated regional subterminal facilities plan.

STATE AND REGIONAL PLANS; PLANNING GRANTS

SEC. 4. (a)(1) The Secretary shall, beginning not more than one hundred and eighty days after the effective date of this Act, make financial assistance available to any State that makes application therefor, and that otherwise meets the requirements of this section, for the purpose of assisting such State in the development of a subterminal facilities plan (hereinafter in this Act referred to as the "State plan") for such State. Assistance under this section shall be made available in the form of a grant. No grant may be made to any State unless the Governor of such State or the appropriate agency of such State makes an application therefor as provided in this section. To the maximum extent practicable, the personnel and resources of the colleges or universities in the State which are eligible to receive funds under the Act of July 2, 1862 (7 U.S.C. 301-305, 307, and 308), or the Act of August 30, 1890 (7 U.S.C. 321-326 and 328), including Tuskegee Institute, shall be utilized in developing the subterminal facilities plan for that State pursuant to this section. 7 USC 3703.

(2) The Secretary may also make grants under this section available to two or more States acting together to develop a coordinated regional subterminal facilities plan (hereinafter in this Act referred to as the "regional plan") for such region.

(3) Grants made under this section to any State or region may not exceed 80 per centum of the cost of preparing the State or regional plan.

(4) The State or regional plan shall prescribe in detail the actions such State or region proposes to take in order to (A) facilitate the efficient and competitive movement of bulk agricultural commodities from the points of production within such State or region to major market or export points, (B) provide adequate storage facilities for such commodities between points of production and market, (C) provide adequate receiving, storage, and loading facilities for any bulk agricultural commodity, and (D) assure that such facilities will be located at sites that will result in maximum benefits to local producers.

(5) Each State or regional plan shall include the following:

(A) an analysis of the marketing, shipping, storage, and production of bulk agricultural commodities produced in that State or region and the short- and long-range projections with respect to the marketing, shipping, storage, and production of such commodities in that State or region;

(B) a determination, on the basis of the analysis and projections required under clause (A) of this paragraph, of the needs of the State or region for subterminal facilities;

(C) an assessment of the use of existing on-farm storage facilities located within the State or region and an assessment of the ways in which subterminal facilities can benefit the continued use of on-farm storage facilities;

(D) an evaluation of the effect of the development of new subterminal facilities on small capacity rural shipping and storage facilities within the State or region;

(E) an evaluation of ways to ensure adequate rail service for subterminal facilities described in clause (D) of this paragraph, including an evaluation of the use and feasibility of contract rates;

(F) an assessment of the ways that subterminal facilities can enhance the operation of small capacity shipping and storage facilities within the State or region;

(G) an assessment of other actions being taken or considered in such State or region for the improvement of agricultural transportation, including an evaluation of the use being made of shuttle or collector trains and combinations of rail and barge service;

(H) an evaluation of the potential benefits of subterminal ownership and leasing arrangements for rail rolling stock (including locomotive power), motor trucks, barge equipment, and other bulk agricultural commodity transport equipment that may help achieve maximum benefits from the operation of subterminal facilities within the State or region;

(I) an assessment of the overall transportation system in the State or region and future plans for that overall system, including the adequacy of highways and bridges; and

(J) consideration of the feasibility and advisability of the ownership and operation of rail branch lines by farmer-owned cooperatives, and the role that such cooperatives might play in any overall planning for the restructuring and rehabilitation of rail service and marketing facilities within the State or region.

Plan review commission.

(b) Funds made available to a State or region under this Act for the purposes of assisting such State or region to develop a plan shall be subject to the condition that the State or region establish a plan review commission composed of local producers, local elevator operators, representatives of affected motor and rail carriers, other interested individuals, and, when appropriate in the judgment of the Secretary, consumers of bulk agricultural commodities used in the production of unprocessed agricultural products. A majority of the members of any plan review commission must be local producers or, when appropriate in the judgment of the Secretary, consumers of bulk agricultural commodities used in the production of unprocessed agricultural products. The plan review commission shall consider the information and analyses developed by the State or region in the development of a State or regional plan and make appropriate recommendations regarding the State or regional plan. The plan review commission shall also make recommendations, based on

information developed in the plan, for the most beneficial location of subterminal facilities.

(c) No application for planning assistance authorized pursuant to this section may be submitted by a State or region until the appropriate plan review commission established in accordance with this Act has had the opportunity to make recommendations to the Governor or Governors that a need exists for the development of a State or regional plan, and a majority of the members of such plan review commission concur that such application should be submitted. (3) the Governor of such State or the Governors of the States in such region certify to the Secretary that producers of agricultural commodities have experienced serious storage and transportation problems within such State or region during the three years preceding the year in which application for such grant is made; and

(4) such State or each State within such region has established an adequate plan, as described in section 5(j) of the Department of Transportation Act (49 U.S.C. 1654(j)), for rail service in such State or States, or such State or each State in such region is actively developing such a plan.

(e) Whenever any State or region has submitted a State or regional plan under this section, the Secretary shall approve such plan only if it has been approved by a majority of the members of the appropriate plan review commission established pursuant to this Act, and it meets the other conditions specified in this Act and those prescribed in regulations issued by the Secretary to carry out this Act. When a plan is approved by the Secretary, such plan shall be known as an "approved State plan" or an "approved regional plan", as appropriate.

(f) To carry out the purposes of this section, there are authorized to be appropriated not to exceed $3,300,000 for each of the fiscal years ending September 30, 1981, September 30, 1982, and September 30, 1983. Appropriation authorization.

Public Law 96-362
96th Congress

An Act

Sept. 26, 1980
[S. 1650]

To provide for the development of aquaculture in the United States, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "National Aquaculture Act of 1980".

National Aquaculture Act of 1980.
16 USC 2801 note.

FINDINGS, PURPOSE, AND POLICY

16 USC 2801.

SEC. 2. (a) FINDINGS.—Congress finds the following:

(1) The harvest of certain species of fish and shellfish exceeds levels of optimum sustainable yield, thereby making it more difficult to meet the increasing demand for aquatic food.

(2) To satisfy the domestic market for aquatic food, the United States imports more than 50 per centum of its fish and shellfish, but this dependence on imports adversely affects the national balance of payments and contributes to the uncertainty of supplies.

(3) Although aquaculture currently contributes approximately 10 per centum of world seafood production, less than 3 per centum of current United States seafood production results from aquaculture. Domestic aquacultural production, therefore, has the potential for significant growth.

(4) Aquacultural production of aquatic plants can provide sources of food, industrial materials, pharmaceuticals, and energy, and can assist in the control and abatement of pollution.

(5) The rehabilitation and enhancement of fish and shellfish resources are desirable applications of aquacultural technology.

(6) The principal responsibility for the development of aquaculture in the United States must rest with the private sector.

(7) Despite its potential, the development of aquaculture in the United States has been inhibited by many economic, legal, and production factors, such as inadequate credit, diffused legal jurisdiction, the lack of management information, and the lack of reliable supplies of seed stock.

(8) Many areas of the United States are suitable for aquaculture, but are subject to land-use or water-use management policies that do not adequately consider the potential for aquaculture and may inhibit the development of aquaculture.

(b) PURPOSE.—It is the purpose of this Act to promote aquaculture in the United States by—

(1) declaring a national aquaculture policy;

(2) establishing and implementing a national aquaculture development plan; and

(3) encouraging aquaculture activities and programs in both the public and private sectors of the economy;

that will result in increased aquacultural production, the coordination of domestic aquaculture efforts, the conservation and enhance-

ment of aquatic resources, the creation of new industries and job opportunities, and other national benefits.

(c) POLICY.—Congress declares that aquaculture has the potential for augmenting existing commercial and recreational fisheries and for producing other renewable resources, thereby assisting the United States in meeting its future food needs and contributing to the solution of world resource problems. It is, therefore, in the national interest, and it is the national policy, to encourage the development of aquaculture in the United States.

SEC. 3. FINDINGS AND DECLARATION OF POLICY. 29 USC 1001a.

(a) The Congress finds that—

(1) multiemployer pension plans have a substantial impact on interstate commerce and are affected with a national public interest;

(2) multiemployer pension plans have accounted for a substantial portion of the increase in private pension plan coverage over the past three decades;

(3) the continued well-being and security of millions of employees, retirees, and their dependents are directly affected by multiemployer pension plans; and

(4)(A) withdrawals of contributing employers from a multiemployer pension plan frequently result in substantially increased funding obligations for employers who continue to contribute to the plan, adversely affecting the plan, its participants and beneficiaries, and labor-management relations, and

(B) in a declining industry, the incidence of employer withdrawals is higher and the adverse effects described in subparagraph (A) are exacerbated.

(b) The Congress further finds that—

(1) it is desirable to modify the current multiemployer plan termination insurance provisions in order to increase the likelihood of protecting plan participants against benefit losses; and

(2) it is desirable to replace the termination insurance program for multiemployer pension plans with an insolvency-based benefit protection program that will enhance the financial soundness of such plans, place primary emphasis on plan continuation, and contain program costs within reasonable limits.

(c) It is hereby declared to be the policy of this Act—

(1) to foster and facilitate interstate commerce,

(2) to alleviate certain problems which tend to discourage the maintenance and growth of multiemployer pension plans,

(3) to provide reasonable protection for the interests of participants and beneficiaries of financially distressed multiemployer pension plans, and

(4) to provide a financially self-sufficient program for the guarantee of employee benefits under multiemployer plans.

"COMPLETE WITHDRAWAL

29 USC 1383. "SEC. 4203. (a) For purposes of this part, a complete withdrawal from a multiemployer plan occurs when an employer—

"(1) permanently ceases to have an obligation to contribute under the plan, or

"(2) permanently ceases all covered operations under the plan.

"(b)(1) Notwithstanding subsection (a), in the case of an employer that has an obligation to contribute under a plan for work performed in the building and construction industry, a complete withdrawal occurs only as described in paragraph (2), if—

"(A) substantially all the employees with respect to whom the employer has an obligation to contribute under the plan perform work in the building and construction industry, and

"(B) the plan—

"(i) primarily covers employees in the building and construction industry, or

"(ii) is amended to provide that this subsection applies to employers described in this paragraph.

"(2) A withdrawal occurs under this paragraph if—

"(A) an employer ceases to have an obligation to contribute under the plan, and

"(B) the employer—

"(i) continues to perform work in the jurisdiction of the collective bargaining agreement of the type for which contributions were previously required, or

"(B) to prevent a significant risk of loss to the corporation with respect to the plan.

"(4) A plan may be amended to provide that this subsection shall not apply to a group or class of employers under the plan.

"(d)(1) Notwithstanding subsection (a), in the case of an employer who—

The corporation shall not make a determination under this paragraph more than 60 months after the date on which such obligation to contribute or covered operations ceased. Bond or escrow.

"(5) If the corporation determines that the employer has no further liability under the plan either—

"(B) because it may not make a determination under paragraph (4) because of the last sentence thereof,

then the bond shall be cancelled or the escrow refunded.

"(6) Nothing in this subsection shall be construed as a limitation on the amount of the withdrawal liability of any employer.

"(e) For purposes of this part, the date of a complete withdrawal is the date of the cessation of the obligation to contribute or the cessation of covered operations.

"(f)(1) The corporation may prescribe regulations under which plans in industries other than the construction or entertainment industries may be amended to provide for special withdrawal liability rules similar to the rules described in subsections (b) and (c).

"(2) Regulations under paragraph (1) shall permit use of special withdrawal liability rules—

"(A) only in industries (or portions thereof) in which, as determined by the corporation, the characteristics that would make use of such rules appropriate are clearly shown, and

"(B) only if the corporation determines, in each instance in which special withdrawal liability rules are permitted, that use of such rules will not pose a significant risk to the corporation under this title.

"SALE OF ASSETS

29 USC 1384.

"SEC. 4204. (a)(1) A complete or partial withdrawal of an employer (hereinafter in this section referred to as the 'seller') under this section does not occur solely because, as a result of a bona fide, arm's-length sale of assets to an unrelated party (hereinafter in this section referred to as the 'purchaser'), the seller ceases covered operations or ceases to have an obligation to contribute for such operations, if—

"(A) the purchaser has an obligation to contribute to the plan with respect to the operations for substantially the same number of contribution base units for which the seller had an obligation to contribute to the plan;

Bond or escrow.

"(B) the purchaser provides to the plan for a period of 5 plan years commencing with the first plan year beginning after the sale of assets, a bond issued by a corporate surety company that is

29 USC 1112.

an acceptable surety for purposes of section 412 of this Act, or an amount held in escrow by a bank or similar financial institution satisfactory to the plan, in an amount equal to the greater of—

"(i) the average annual contribution required to be made by the seller with respect to the operations under the plan for the 3 plan years preceding the plan year in which the sale of the employer's assets occurs, or

"(ii) the annual contribution that the seller was required to make with respect to the operations under the plan for the last plan year before the plan year in which the sale of the assets occurs,

which bond or escrow shall be paid to the plan if the purchaser withdraws from the plan, or fails to make a contribution to the plan when due, at any time during the first 5 plan years beginning after the sale; and

Withdrawal liability.

"(C) the contract for sale provides that, if the purchaser withdraws in a complete withdrawal, or a partial withdrawal with respect to operations, during such first 5 plan years, the seller is secondarily liable for any withdrawal liability it would have had to the plan with respect to the operations (but for this section) if the liability of the purchaser with respect to the plan is not paid.

"(2) If the purchaser—

"(A) withdraws before the last day of the fifth plan year beginning after the sale, and

"(B) fails to make any withdrawal liability payment when due, then the seller shall pay to the plan an amount equal to the payment that would have been due from the seller but for this section.

Distribution or liquidation.

"(3)(A) If all, or substantially all, of the seller's assets are distributed, or if the seller is liquidated before the end of the 5 plan year period described in paragraph (1)(C), then the seller shall provide a bond or amount in escrow equal to the present value of the withdrawal liability the seller would have had but for this subsection.

"(B) If only a portion of the seller's assets are distributed during such period, then a bond or escrow shall be required, in accordance with regulations prescribed by the corporation, in a manner consistent with subparagraph (A).

"(4) The liability of the party furnishing a bond or escrow under this subsection shall be reduced, upon payment of the bond or escrow to the plan, by the amount thereof.

Purchaser liability.

"(b)(1) For the purposes of this part, the liability of the purchaser shall be determined as if the purchaser had been required to contribute to the plan in the year of the sale and the 4 plan years preceding the sale the amount the seller was required to contribute for such operations for such 5 plan years.

"(2) If the plan is in reorganization in the plan year in which the sale of assets occurs, the purchaser shall furnish a bond or escrow in an amount equal to 200 percent of the amount described in subsection (a)(1)(B).

Individual or class variances.

"(c) The corporation may by regulation vary the standards in subparagraphs (B) and (C) of subsection (a)(1) if the variance would more effectively or equitably carry out the purposes of this title. Before it promulgates such regulations, the corporation may grant individual or class variances or exemptions from the requirements of such subparagraphs if the particular case warrants it. Before granting such an individual or class variance or exemption, the corporation—

Publication in Federal Register.

"(1) shall publish notice in the Federal Register of the pendency of the variance or exemption,

"(2) shall require that adequate notice be given to interested persons, and

"(3) shall afford interested persons an opportunity to present their views.

"Unrelated party."

"(d) For purposes of this section, the term 'unrelated party' means a purchaser or seller who does not bear a relationship to the seller or purchaser, as the case may be, that is described in section 267(b) of the Internal Revenue Code of 1954, or that is described in regulations prescribed by the corporation applying principles similar to the principles of such section.

26 USC 267.

"PARTIAL WITHDRAWALS

29 USC 1385.

"SEC. 4205. (a) Except as otherwise provided in this section, there is a partial withdrawal by an employer from a plan on the last day of a plan year if for such plan year—

"(1) there is a 70-percent contribution decline, or

"(2) there is a partial cessation of the employer's contribution obligation.

"(b) For purposes of subsection (a)—

"(1)(A) There is a 70-percent contribution decline for any plan year if during each plan year in the 3-year testing period the employer's contribution base units do not exceed 30 percent of the employer's contribution base units for the high base year.

"3-year testing period."

"(B) For purposes of subparagraph (A)—

"(i) The term '3-year testing period' means the period consisting of the plan year and the immediately preceding 2 plan years.

"(ii) The number of contribution base units for the high base year is the average number of such units for the 2 plan years for which the employer's contribution base units were the highest within the 5 plan years immediately preceding the beginning of the 3-year testing period.

Employer's contribution obligation, partial cessation.

"(2)(A) There is a partial cessation of the employer's contribution obligation for the plan year if, during such year—

"(i) the employer permanently ceases to have an obligation to contribute under one or more but fewer than all collective bargaining agreements under which the employer has been obligated to contribute under the plan but continues to perform work in the jurisdiction of the collective bargaining agreement of the type for which contributions were previously required or transfers such work to another location, or

"(ii) an employer permanently ceases to have an obligation to contribute under the plan with respect to work performed at one or more but fewer than all of its facilities, but continues to perform work at the facility of the type for which the obligation to contribute ceased.

"(B) For purposes of subparagraph (A), a cessation of obligations under a collective bargaining agreement shall not be considered to have occurred solely because, with respect to the same plan, one agreement that requires contributions to the plan has been substituted for another agreement.

Retail food industry employees.

"(c)(1) In the case of a plan in which a majority of the covered employees are employed in the retail food industry, the plan may be amended to provide that this section shall be applied with respect to such plan—

"(A) by substituting '35 percent' for '70 percent' in subsections (a) and (b), and

"(B) by substituting '65 percent' for '30 percent' in subsection (b).

"(2) Any amendment adopted under paragraph (1) shall provide rules for the equitable reduction of withdrawal liability in any case in which the number of the plan's contribution base units, in the 2 plan years following the plan year of withdrawal of the employer, is higher than such number immediately after the withdrawal.

"(3) Section 4208 shall not apply to a plan which has been amended under paragraph (1).

"(d) In the case of a plan described in section 404(c) of the Internal Revenue Code of 1954, or a continuation thereof, the plan may be amended to provide rules setting forth other conditions consistent with the purposes of this Act under which an employer has liability for partial withdrawal.

26 USC 404.

"ADJUSTMENT FOR PARTIAL WITHDRAWAL

29 USC 1386.

"SEC. 4206. (a) The amount of an employer's liability for a partial withdrawal, before the application of sections 4219(c)(1) and 4225, is equal to the product of—

"(1) the amount determined under section 4211, and adjusted under section 4209 if appropriate, determined as if the employer had withdrawn from the plan in a complete withdrawal—

"(A) on the date of the partial withdrawal, or

"(B) in the case of a partial withdrawal described in section 4205(a)(1) (relating to 70-percent contribution decline), on the last day of the first plan year in the 3-year testing period,

multiplied by

"(2) a fraction which is 1 minus a fraction—

"(A) the numerator of which is the employer's contribution base units for the plan year following the plan year in which the partial withdrawal occurs, and

"(B) the denominator of which is the average of the employer's contribution base units for—

"(i) except as provided in clause (ii), the 5 plan years immediately preceding the plan year in which the partial withdrawal occurs, or

"(ii) in the case of a partial withdrawal described in section 4205(a)(1) (relating to 70-percent contribution decline), the 5 plan years immediately preceding the beginning of the 3-year testing period.

"(b)(1) In the case of an employer that has withdrawal liability for a partial withdrawal from a plan, any withdrawal liability of that employer for a partial or complete withdrawal from that plan in a subsequent plan year shall be reduced by the amount of any partial withdrawal liability (reduced by any abatement or reduction of such liability) of the employer with respect to the plan for a previous plan year.

"(2) The corporation shall prescribe such regulations as may be necessary to provide for proper adjustments in the reduction provided by paragraph (1) for— Regulations.

"(A) changes in unfunded vested benefits arising after the close of the prior year for which partial withdrawal liability was determined,

"(B) changes in contribution base units occurring after the close of the prior year for which partial withdrawal liability was determined, and

"(C) any other factors for which it determines adjustment to be appropriate,

so that the liability for any complete or partial withdrawal in any subsequent year (after the application of the reduction) properly reflects the employer's share of liability with respect to the plan.

"REDUCTION OR WAIVER OF COMPLETE WITHDRAWAL LIABILITY

"SEC. 4207. (a) The corporation shall provide by regulation for the reduction or waiver of liability for a complete withdrawal in the event that an employer who has withdrawn from a plan subsequently resumes covered operations under the plan or renews an obligation to contribute under the plan, to the extent that the corporation determines that reduction or waiver of withdrawal liability is consistent with the purposes of this Act. Regulations. 29 USC 1387.

"(b) The corporation shall prescribe by regulation a procedure and standards for the amendment of plans to provide alternative rules for the reduction or waiver of liability for a complete withdrawal in the event that an employer who has withdrawn from the plan subsequently resumes covered operations or renews an obligation to

contribute under the plan. The rules may apply only to the extent that the rules are consistent with the purposes of this Act.

"REDUCTION OF PARTIAL WITHDRAWAL LIABILITY

29 USC 1388.

"SEC. 4208. (a)(1) If, for any 2 consecutive plan years following the plan year in which an employer has partially withdrawn from a plan under section 4205(a)(1) (referred to elsewhere in this section as the 'partial withdrawal year'), the number of contribution base units with respect to which the employer has an obligation to contribute under the plan for each such year is not less than 90 percent of the total number of contribution base units with respect to which the employer had an obligation to contribute under the plan for the high base year (within the meaning of section 4205(b)(1)(B)(ii)), then the employer shall have no obligation to make payments with respect to such partial withdrawal (other than delinquent payments) for plan years beginning after the second consecutive plan year following the partial withdrawal year.

Bonds.

"(2)(A) For any plan year for which the number of contribution base units with respect to which an employer who has partially withdrawn under section 4205(a)(1) has an obligation to contribute under the plan equals or exceeds the number of units for the highest year determined under paragraph (1) without regard to '90 percent of', the employer may furnish (in lieu of payment of the partial withdrawal liability determined under section 4206) a bond to the plan in the amount determined by the plan sponsor (not exceeding 50 percent of the annual payment otherwise required).

"(B) If the plan sponsor determines under paragraph (1) that the employer has no further liability to the plan for the partial withdrawal, then the bond shall be cancelled.

"(C) If the plan sponsor determines under paragraph (1) that the employer continues to have liability to the plan for the partial withdrawal, then—

"(i) the bond shall be paid to the plan,

"(ii) the employer shall immediately be liable for the outstanding amount of liability due with respect to the plan year for which the bond was posted, and

"(iii) the employer shall continue to make the partial withdrawal liability payments as they are due.

"(b) If—

"(1) for any 2 consecutive plan years following a partial withdrawal under section 4205(a)(1), the number of contribution base units with respect to which the employer has an obligation to contribute for each such year exceeds 30 percent of the total number of contribution base units with respect to which the employer had an obligation to contribute for the high base year (within the meaning of section 4205(b)(1)(B)(ii), and

"(2) the total number of contribution base units with respect to which all employers under the plan have obligations to contribute in each of such 2 consecutive years is not less than 90 percent of the total number of contribution base units for which all employers had obligations to contribute in the partial withdrawal plan year;

then, the employer shall have no obligation to make payments with respect to such partial withdrawal (other than delinquent payments) for plan years beginning after the second such consecutive plan year.

"(c) In any case in which, in any plan year following a partial withdrawal under section 4205(a)(1), the number of contribution base

units with respect to which the employer has an obligation to contribute for such year equals or exceeds 110 percent (or such other percentage as the plan may provide by amendment and which is not prohibited under regulations prescribed by the corporation) of the number of contribution base units with respect to which the employer had an obligation to contribute in the partial withdrawal year, then the amount of the employer's partial withdrawal liability payment for such year shall be reduced pro rata, in accordance with regulations prescribed by the corporation.

"(d)(1) An employer to whom section 4202(b) (relating to the building and construction industry) applies is liable for a partial withdrawal only if the employer's obligation to contribute under the plan is continued for no more than an insubstantial portion of its work in the craft and area jurisdiction of the collective bargaining agreement of the type for which contributions are required.

"(2) An employer to whom section 4202(c) (relating to the entertainment industry) applies shall have no liability for a partial withdrawal except under the conditions and to the extent prescribed by the corporation by regulation.

"(e)(1) The corporation may prescribe regulations providing for the reduction or elimination of partial withdrawal liability under any conditions with respect to which the corporation determines that reduction or elimination of partial withdrawal liability is consistent with the purposes of this Act.

"(2) Under such regulations, reduction of withdrawal liability shall be provided only with respect to subsequent changes in the employer's contributions for the same operations, or under the same collective bargaining agreement, that gave rise to the partial withdrawal, and changes in the employer's contribution base units with respect to other facilities or other collective bargaining agreements shall not be taken into account.

"(3) The corporation shall prescribe by regulation a procedure by which a plan may by amendment adopt rules for the reduction or elimination of partial withdrawal liability under any other conditions, subject to the approval of the corporation based on its determination that adoption of such rules by the plan is consistent with the purposes of this Act. Regulations.

"DE MINIMIS RULE

"SEC. 4209. (a) Except in the case of a plan amended under subsection (b), the amount of the unfunded vested benefits allocable under section 4211 to an employer who withdraws from a plan shall be reduced by the smaller of— Unfunded vested benefits. 29 USC 1389.

"(1) ¾ of 1 percent of the plan's unfunded vested obligations (determined as of the end of the plan year ending before the date of withdrawal), or

"(2) $50,000,

reduced by the amount, if any, by which the unfunded vested benefits allowable to the employer, determined without regard to this subsection, exceeds $100,000.

"(b) A plan may be amended to provide for the reduction of the amount determined under section 4211 by not more than the greater of—

"(1) the amount determined under subsection (a), or

"(2) the lesser of—

"(A) the amount determined under subsection (a)(1), or

"(B) $100,000,

reduced by the amount, if any, by which the amount determined under section 4211 for the employer, determined without regard to this subsection, exceeds $150,000.

"(c) This section does not apply—

"(1) to an employer who withdraws in a plan year in which substantially all employers withdraw from the plan, or

"(2) in any case in which substantially all employers withdraw from the plan during a period of one or more plan years pursuant to an agreement or arrangement to withdraw, to an employer who withdraws pursuant to such agreement or arrangement.

"(d) In any action or proceeding to determine or collect withdrawal liability, if substantially all employers have withdrawn from a plan within a period of 3 plan years, an employer who has withdrawn from such plan during such period shall be presumed to have withdrawn from the plan pursuant to an agreement or arrangement, unless the employer proves otherwise by a preponderance of the evidence.

"NO WITHDRAWAL LIABILITY FOR CERTAIN TEMPORARY CONTRIBUTION OBLIGATION PERIODS

29 USC 1390.

"SEC. 4210. (a) An employer who withdraws from a plan in complete or partial withdrawal is not liable to the plan if the employer—

"(1) first had an obligation to contribute to the plan after the date of the enactment of the Multiemployer Pension Plan Amendments Act of 1980,

Ante, p. 1208.

"(2) had an obligation to contribute to the plan for no more than the lesser of—

"(A) 6 consecutive plan years preceding the date on which the employer withdraws, or

"(B) the number of years required for vesting under the plan,

"(3) was required to make contributions to the plan for each such plan year in an amount equal to less than 2 percent of the sum of all employer contributions made to the plan for each such year, and

"(4) has never avoided withdrawal liability because of the application of this section with respect to the plan.

"(b) Subsection (a) shall apply to an employer with respect to a plan only if—

"(1) the plan is not a plan which primarily covers employees in the building and construction industry;

"(2) the plan is amended to provide that subsection (a) applies;

"(3) the plan provides, or is amended to provide, that the reduction under section 411(a)(3)(E) of the Internal Revenue Code of 1954 applies with respect to the employees of the employer; and

Post, p. 1287.

"(4) the ratio of the assets of the plan for the plan year preceding the first plan year for which the employer was required to contribute to the plan to the benefit payments made during that plan year was at least 8 to 1.

"METHODS FOR COMPUTING WITHDRAWAL LIABILITY

Unfunded vested benefits.
29 USC 1391.

"SEC. 4211. (a) The amount of the unfunded vested benefits allocable to an employer that withdraws from a plan shall be determined in accordance with subsection (b), (c), or (d) of this section.

Allocation determination.

"(b)(1) Except as provided in subsections (c) and (d), the amount of unfunded vested benefits allocable to an employer that withdraws is the sum of—

"(A) the employer's proportional share of the unamortized amount of the change in the plan's unfunded vested benefits for plan years ending after April 28, 1980, as determined under paragraph (2),

"(B) the employer's proportional share, if any, of the unamortized amount of the plan's unfunded vested benefits at the end of the plan year ending before April 29, 1980, as determined under paragraph (3); and

"(C) the employer's proportional share of the unamortized amounts of the reallocated unfunded vested benefits (if any) as determined under paragraph (4).

If the sum of the amounts determined with respect to an employer under paragraphs (2), (3), and (4) is negative, the unfunded vested benefits allocable to the employer shall be zero.

"(2)(A) An employer's proportional share of the unamortized amount of the change in the plan's unfunded vested benefits for plan years ending after April 28, 1980, is the sum of the employer's proportional shares of the unamortized amount of the change in unfunded vested benefits for each plan year in which the employer has an obligation to contribute under the plan ending—

"(i) after such date, and

"(ii) before the plan year in which the withdrawal of the employer occurs.

"(B) The change in a plan's unfunded vested benefits for a plan year is the amount by which—

"(i) the unfunded vested benefits at the end of the plan year; exceeds

"(ii) the sum of—

"(I) the unamortized amount of the unfunded vested benefits for the last plan year ending before April 29, 1980, and

"(II) the sum of the unamortized amounts of the change in unfunded vested benefits for each plan year ending after April 28, 1980, and preceding the plan year for which the change is determined.

"(C) The unamortized amount of the change in a plan's unfunded vested benefits with respect to a plan year is the change in unfunded vested benefits for the plan year, reduced by 5 percent of such change for each succeeding plan year.

"(D) The unamortized amount of the unfunded vested benefits for the last plan year ending before April 29, 1980, is the amount of the unfunded vested benefits as of the end of that plan year reduced by 5 percent of such amount for each succeeding plan year.

"(E) An employer's proportional share of the unamortized amount of a change in unfunded vested benefits is the product of—

"(i) the unamortized amount of such change (as of the end of the plan year preceding the plan year in which the employer withdraws); multiplied by

"(ii) a fraction—

"(I) the numerator of which is the sum of the contributions required to be made under the plan by the employer for the year in which such change arose and for the 4 preceding plan years, and

"(II) the denominator of which is the sum for the plan year in which such change arose and the 4 preceding plan years of all contributions made by employers who had an obligation

to contribute under the plan for the plan year in which such change arose reduced by the contributions made in such years by employers who had withdrawn from the plan in the year in which the change arose.

"(3) An employer's proportional share of the unamortized amount of the plan's unfunded vested benefits for the last plan year ending before April 29, 1980, is the product of—

"(A) such unamortized amount; multiplied by—

"(B) a fraction—

"(i) the numerator of which is the sum of all contributions required to be made by the employer under the plan for the most recent 5 plan years ending before April 29, 1980, and

"(ii) the denominator of which is the sum of all contributions made for the most recent 5 plan years ending before April 29, 1980, by all employers—

"(I) who had an obligation to contribute under the plan for the first plan year ending on or after such date, and

"(II) who had not withdrawn from the plan before such date.

"(4)(A) An employer's proportional share of the unamortized amount of the reallocated unfunded vested benefits is the sum of the employer's proportional shares of the unamortized amount of the reallocated unfunded vested benefits for each plan year ending before the plan year in which the employer withdrew from the plan.

"(B) Except as otherwise provided in regulations prescribed by the corporation, the reallocated unfunded vested benefits for a plan year is the sum of—

"(i) any amount which the plan sponsor determines in that plan year to be uncollectible for reasons arising out of cases or proceedings under title 11, United States Code, or similar proceedings.

11 USC 101.

"(ii) any amount which the plan sponsor determines in that plan year will not be assessed as a result of the operation of section 4209, 4219(c)(1)(B), or section 4225 against an employer to whom a notice described in section 4219 has been sent, and

"(iii) any amount which the plan sponsor determines to be uncollectible or unassessable in that plan year for other reasons under standards not inconsistent with regulations prescribed by the corporation.

"(C) The unamortized amount of the reallocated unfunded vested benefits with respect to a plan year is the reallocated unfunded vested benefits for the plan year, reduced by 5 percent of such reallocated unfunded vested benefits for each succeeding plan year.

"(D) An employer's proportional share of the unamortized amount of the reallocated unfunded vested benefits with respect to a plan year is the product of—

"(i) the unamortized amount of the reallocated unfunded vested benefits (as of the end of the plan year preceding the plan year in which the employer withdraws); multiplied by

"(ii) the fraction defined in paragraph (2)(E)(ii).

Multiemployer plan, amendment procedures.

"(c)(1) A multiemployer plan, other than a plan which primarily covers employees in the building and construction industry, may be amended to provide that the amount of unfunded vested benefits allocable to an employer that withdraws from the plan is an amount determined under paragraph (2), (3), (4), or (5) of this subsection, rather than under subsection (b) or (d). A plan described in section 4203(b)(1)(B)(i) (relating to the building and construction industry)

may be amended, to the extent provided in regulations prescribed by the corporation, to provide that the amount of the unfunded vested benefits allocable to an employer not described in section 4203(b)(1)(A) shall be determined in a manner different from that provided in subsection (b).

"(2)(A) The amount of the unfunded vested benefits allocable to any employer under this paragraph is the sum of the amounts determined under subparagraphs (B) and (C).

"(B) The amount determined under this subparagraph is the product of—

"(i) the plan's unfunded vested benefits as of the end of the last plan year ending before April 29, 1980, reduced as if those obligations were being fully amortized in level annual installments over 15 years beginning with the first plan year ending on or after such date; multiplied by

"(ii) a fraction—

"(I) the numerator of which is the sum of all contributions required to be made by the employer under the plan for the last 5 plan years ending before April 29, 1980, and

"(II) the denominator of which is the sum of all contributions made for the last 5 plan years ending before April 29, 1980, by all employers who had an obligation to contribute under the plan for the first plan year ending after April 28, 1980, and who had not withdrawn from the plan before such date.

"(C) The amount determined under this subparagraph is the product of—

"(i) an amount equal to—

"(I) the plan's unfunded vested benefits as of the end of the plan year preceding the plan year in which the employer withdraws, less

"(II) the sum of the value as of such date of all outstanding claims for withdrawal liability which can reasonably be expected to be collected, with respect to employers withdrawing before such plan year, and that portion of the amount determined under subparagraph (B)(i) which is allocable to employers who have an obligation to contribute under the plan in the plan year preceding the plan year in which the employer withdraws and who also had an obligation to contribute under the plan for the first plan year ending after April 28, 1980; multiplied by

"(ii) a fraction—

"(I) the numerator of which is the total amount required to be contributed under the plan by the employer for the last 5 plan years ending before the date on which the employer withdraws, and

"(II) the denominator of which is the total amount contributed under the plan by all employers for the last 5 plan years ending before the date on which the employer withdraws, increased by the amount of any employer contributions owed with respect to earlier periods which were collected in those plan years, and decreased by any amount contributed by an employer who withdrew from the plan under this part during those plan years.

"(D) The corporation may by regulation permit adjustments in any denominator under this section, consistent with the purposes of this title, where such adjustment would be appropriate to ease administrative burdens of plan sponsors in calculating such denominators.

"(3) The amount of the unfunded vested benefits allocable to an employer under this paragraph is the product of—

"(A) the plan's unfunded vested benefits as of the end of the plan year preceding the plan year in which the employer withdraws, less the value as of the end of such year of all outstanding claims for withdrawal liability which can reasonably be expected to be collected from employers withdrawing before such year; multiplied by

"(B) a fraction—

"(i) the numerator of which is the total amount required to be contributed by the employer under the plan for the last 5 plan years ending before the withdrawal, and

"(ii) the denominator of which is the total amount contributed under the plan by all employers for the last 5 plan years ending before the withdrawal, increased by any employer contributions owed with respect to earlier periods which were collected in those plan years, and decreased by any amount contributed to the plan during those plan years by employers who withdrew from the plan under this section during those plan years.

"(4)(A) The amount of the unfunded vested benefits allocable to an employer under this paragraph is equal to the sum of—

"(i) the plan's unfunded vested benefits which are attributable to participants' service with the employer (determined as of the end of the plan year preceding the plan year in which the employer withdraws), and

"(ii) the employer's proportional share of any unfunded vested benefits which are not attributable to service with the employer or other employers who are obligated to contribute under the plan in the plan year preceding the plan year in which the employer withdraws (determined as of the end of the plan year preceding the plan year in which the employer withdraws).

"(B) The plan's unfunded vested benefits which are attributable to participants' service with the employer is the amount equal to the value of nonforfeitable benefits under the plan which are attributable to participants' service with such employer (determined under plan rules not inconsistent with regulations of the corporation) decreased by the share of plan assets determined under subparagraph (C) which is allocated to the employer as provided under subparagraph (D).

Plan assets, value.

"(C) The value of plan assets determined under this subparagraph is the value of plan assets allocated to nonforfeitable benefits which are attributable to service with the employers who have an obligation to contribute under the plan in the plan year preceding the plan year in which the employer withdraws, which is determined by multiplying—

"(i) the value of the plan assets as of the end of the plan year preceding the plan year in which the employer withdraws, by

"(ii) a fraction—

"(I) the numerator of which is the value of nonforfeitable benefits which are attributable to service with such employers, and

"(II) the denominator of which is the value of all nonforfeitable benefits under the plan

as of the end of the plan year.

"(D) The share of plan assets, determined under subparagraph (C), which is allocated to the employer shall be determined in accordance

with one of the following methods which shall be adopted by the plan by amendment:

"(i) by multiplying the value of plan assets determined under subparagraph (C) by a fraction—

"(I) the numerator of which is the value of the nonforfeitable benefits which are attributable to service with the employer, and

"(II) the denominator of which is the value of the nonforfeitable benefits which are attributable to service with all employers who have an obligation to contribute under the plan in the plan year preceding the plan year in which the employer withdraws;

"(ii) by multiplying the value of plan assets determined under subparagraph (C) by a fraction—

"(I) the numerator of which is the sum of all contributions (accumulated with interest) which have been made to the plan by the employer for the plan year preceding the plan year in which the employer withdraws and all preceding plan years; and

"(II) the denominator of which is the sum of all contributions (accumulated with interest) which have been made to the plan (for the plan year preceding the plan year in which the employer withdraws and all preceding plan years) by all employers who have an obligation to contribute to the plan for the plan year preceding the plan year in which the employer withdraws; or

"(iii) by multiplying the value of plan assets under subparagraph (C) by a fraction—

"(I) the numerator of which is the amount determined under clause (ii)(I) of this subparagraph, less the sum of benefit payments (accumulated with interest) made to participants (and their beneficiaries) for the plan years described in such clause (ii)(I) which are attributable to service with the employer; and

"(II) the denominator of which is the amount determined under clause (ii)(II) of this subparagraph, reduced by the sum of benefit payments (accumulated with interest) made to participants (and their beneficiaries) for the plan years described in such clause (ii)(II) which are attributable to service with respect to the employers described in such clause (ii)(II).

"(E) The amount of the plan's unfunded vested benefits for a plan year preceding the plan year in which an employer withdraws, which is not attributable to service with employers who have an obligation to contribute under the plan in the plan year preceding the plan year in which such employer withdraws, is equal to—

"(i) an amount equal to—

"(I) the value of all nonforfeitable benefits under the plan at the end of such plan year, reduced by

"(II) the value of nonforfeitable benefits under the plan at the end of such plan year which are attributable to participants' service with employers who have an obligation to contribute under the plan for such plan year; reduced by

"(ii) an amount equal to—

"(I) the value of the plan assets as of the end of such plan year, reduced by

"(II) the value of plan assets as of the end of such plan year as determined under subparagraph (C); reduced by

"(iii) the value of all outstanding claims for withdrawal liability which can reasonably be expected to be collected with respect to employers withdrawing before the year preceding the plan year in which the employer withdraws.

"(F) The employer's proportional share described in subparagraph (A)(ii) for a plan year is the amount determined under subparagraph (E) for the employer, but not in excess of an amount which bears the same ratio to the sum of the amounts determined under subparagraph (E) for all employers under the plan as the amount determined under subparagraph (C) for the employer bears to the sum of the amounts determined under subparagraph (C) for all employers under the plan.

"(G) The corporation may prescribe by regulation other methods which a plan may adopt for allocating assets to determine the amount of the unfunded vested benefits attributable to service with the employer and to determine the employer's share of unfunded vested benefits not attributable to service with employers who have an obligation to contribute under the plan in the plan year in which the employer withdraws.

Regulations.

"(5)(A) The corporation shall prescribe by regulation a procedure by which a plan may, by amendment, adopt any other alternative method for determining an employer's allocable share of unfunded vested benefits under this section, subject to the approval of the corporation based on its determination that adoption of the method by the plan would not significantly increase the risk of loss to plan participants and beneficiaries or to the corporation.

"(B) The corporation may prescribe by regulation standard approaches for alternative methods, other than those set forth in the preceding paragraphs of this subsection, which a plan may adopt under subparagraph (A), for which the corporation may waive or modify the approval requirements of subparagraph (A). Any alternative method shall provide for the allocation of substantially all of a plan's unfunded vested benefits among employers who have an obligation to contribute under the plan.

"(C) Unless the corporation by regulation provides otherwise, a plan may be amended to provide that a period of more than 5 but not more than 10 plan years may be used for determining the numerator and denominator of any fraction which is used under any method authorized under this section for determining an employer's allocable share of unfunded vested benefits under this section.

"(D) The corporation may by regulation permit adjustments in any denominator under this section, consistent with the purposes of this title, where such adjustment would be appropriate to ease administrative burdens of plan sponsors in calculating such denominators.

"(d)(1) The method of calculating an employer's allocable share of unfunded vested benefits set forth in subsection (c)(3) shall be the method for calculating an employer's allocable share of unfunded vested benefits under a plan to which section 404(c) of the Internal Revenue Code of 1954, or a continuation of such a plan, applies, unless the plan is amended to adopt another method authorized under subsection (b) or (c).

26 USC 404.

"(2) Sections 4204, 4209, 4219(c)(1)(B), and 4225 shall not apply with respect to the withdrawal of an employer from a plan described in paragraph (1) unless the plan is amended to provide that any of such sections apply.

Liabilities, transfer.

"(e) In the case of a transfer of liabilities to another plan incident to an employer's withdrawal or partial withdrawal, the withdrawn employer's liability under this part shall be reduced in an amount

equal to the value, as of the end of the last plan year ending on or before the date of the withdrawal, of the transferred unfunded vested benefits.

"(f) In the case of a withdrawal following a merger of multiemployer plans, subsection (b), (c), or (d) shall be applied in accordance with regulations prescribed by the corporation; except that, if a withdrawal occurs in the first plan year beginning after a merger of multiemployer plans, the determination under this section shall be made as if each of the multiemployer plans had remained separate plans.

"OBLIGATION TO CONTRIBUTE; SPECIAL RULES

"SEC. 4212. (a) For purposes of this part, the term 'obligation to contribute' means an obligation to contribute arising— 29 USC 1392.

"(1) under one or more collective bargaining (or related) agreements, or

"(2) as a result of a duty under applicable labor-management relations law, but

does not include an obligation to pay withdrawal liability under this section or to pay delinquent contributions.

"(b) Payments of withdrawal liability under this part shall not be considered contributions for purposes of this part.

"(c) If a principal purpose of any transaction is to evade or avoid liability under this part, this part shall be applied (and liability shall be determined and collected) without regard to such transaction.

"ACTUARIAL ASSUMPTIONS, ETC.

"SEC. 4213. (a) The corporation may prescribe by regulation actuarial assumptions which may be used by a plan actuary in determining the unfunded vested benefits of a plan for purposes of determining an employer's withdrawal liability under this part. Withdrawal liability under this part shall be determined by each plan on the basis of— 29 USC 1393.

"(1) actuarial assumptions and methods which, in the aggregate, are reasonable (taking into account the experience of the plan and reasonable expectations) and which, in combination, offer the actuary's best estimate of anticipated experience under the plan, or

"(2) actuarial assumptions and methods set forth in the corporation's regulations for purposes of determining an employer's withdrawal liability.

"(b) In determining the unfunded vested benefits of a plan for purposes of determining an employer's withdrawal liability under this part, the plan actuary may—

"(1) rely on the most recent complete actuarial valuation used for purposes of section 412 of the Internal Revenue Code of 1954 and reasonable estimates for the interim years of the unfunded vested benefits, and 26 USC 412.

"(2) in the absence of complete data, rely on the data available or on data secured by a sampling which can reasonably be expected to be representative of the status of the entire plan.

"(c) For purposes of this part, the term 'unfunded vested benefits' means with respect to a plan, an amount equal to— "Unfunded vested benefits."

"(A) the value of nonforfeitable benefits under the plan, less

"(B) the value of the assets of the plan.

"APPLICATION OF PLAN AMENDMENTS

29 USC 1394. "SEC. 4214. (a) No plan rule or amendment adopted after January 31, 1981, under section 4209 or 4211(c) may be applied without the employer's consent with respect to liability for a withdrawal or partial withdrawal which occurred before the date on which the rule or amendment was adopted.

"(b) All plan rules and amendments authorized under this part shall operate and be applied uniformly with respect to each employer, except that special provisions may be made to take into account the creditworthiness of an employer. The plan sponsor shall give notice to all employers who have an obligation to contribute under the plan and to all employee organizations representing employees covered under the plan of any plan rules or amendments adopted pursuant to this section.

"PLAN NOTIFICATION TO CORPORATION OF POTENTIALLY SIGNIFICANT WITHDRAWALS

29 USC 1395. "SEC. 4215. The corporation may, by regulation, require the plan sponsor of a multiemployer plan to provide notice to the corporation when the withdrawal from the plan by any employer has resulted, or will result, in a significant reduction in the amount of aggregate contributions under the plan made by employers.

"SPECIAL RULES FOR SECTION 404(C) PLANS

29 USC 1396. "SEC. 4216. (a) In the case of a plan described in subsection (b)—

"(1) if an employer withdraws prior to a termination described *Ante*, p. 1216. in section 4041A(a)(2), the amount of withdrawal liability to be paid in any year by such employer shall be an amount equal to the greater of—

"(A) the amount determined under section 4219(c)(1)(C)(i), or

"(B) the product of—

"(i) the number of contribution base units for which the employer would have been required to make contributions for the prior plan year if the employer had not withdrawn, multiplied by

"(ii) the contribution rate for the plan year which would be required to meet the amortization schedules *Post*, p. 1252. contained in section 4243(d)(3)(B)(ii) (determined without regard to any limitation on such rate otherwise provided by this title)

except that an employer shall not be required to pay an amount in excess of the withdrawal liability computed with interest; and

"(2) the withdrawal liability of an employer who withdraws after December 31, 1983, as a result of a termination described in section 4041A(a)(2) which is agreed to by the labor organization that appoints the employee representative on the joint board of trustees which sponsors the plan, shall be determined under subsection (c) if—

"(A) as a result of prior employer withdrawals in any plan year commencing after January 1, 1980, the number of contribution base units is reduced to less than 67 percent of the average number of such units for the calendar years 1974 through 1979; and

"(B) at least 50 percent of the withdrawal liability attributable to the first 33 percent decline described in subparagraph (A) has been determined by the plan sponsor to be uncollectible within the meaning of regulations of the corporation of general applicability; and

"(C) the rate of employer contributions under the plan for each plan year following the first plan year beginning after the date of enactment of the Multiemployer Pension Plan Amendments Act of 1980 and preceding the termination date equals or exceeds the rate described in section 4243(d)(3).

"(ii) the denominator of which is an amount equal to the total unfunded vested benefits of the plan.

"(2) For purposes of paragraph (1), the term 'a year of signatory service' means a year during any portion of which a participant was employed for an employer who was obligated to contribute in that year, or who was subsequently obligated to contribute.

"A year of signatory service."

"APPLICATION OF PART IN CASE OF CERTAIN PRE-1980 WITHDRAWALS

"SEC. 4217. (a) For the purpose of determining the amount of unfunded vested benefits allocable to an employer for a partial or complete withdrawal from a plan which occurs after April 28, 1980, and for the purpose of determining whether there has been a partial withdrawal after such date, the amount of contributions, and the number of contribution base units, of such employer properly allocable—

"(1) to work performed under a collective bargaining agreement for which there was a permanent cessation of the obligation to contribute before April 29, 1980, or

"(2) to work performed at a facility at which all covered operations permanently ceased before April 29, 1980, or for which there was a permanent cessation of the obligation to contribute before that date,

shall not be taken into account.

"(b) A plan may, in a manner not inconsistent with regulations, which shall be prescribed by the corporation, adjust the amount of unfunded vested benefits allocable to other employers under a plan maintained by an employer described in subsection (a).

"WITHDRAWAL NOT TO OCCUR MERELY BECAUSE OF CHANGE IN BUSINESS FORM OR SUSPENSION OF CONTRIBUTIONS DURING LABOR DISPUTE

29 USC 1398. "SEC. 4218. Notwithstanding any other provision of this part, an employer shall not be considered to have withdrawn from a plan solely because—

"(1) an employer ceases to exist by reason of—

"(A) a change in corporate structure described in section 4062(d), or

29 USC 1362. "(B) a change to an unincorporated form of business enterprise,

if the change causes no interruption in employer contributions or obligations to contribute under the plan, or

"(2) an employer suspends contributions under the plan during a labor dispute involving its employees.

For purposes of this part, a successor or parent corporation or other entity resulting from any such change shall be considered the original employer.

"NOTICE, COLLECTION, ETC., OF WITHDRAWAL LIABILITY

29 USC 1399. "SEC. 4219. (a) An employer shall, within 30 days after a written request from the plan sponsor, furnish such information as the plan sponsor reasonably determines to be necessary to enable the plan sponsor to comply with the requirements of this part.

Plan sponsor, responsibilities. "(b)(1) As soon as practicable after an employer's complete or partial withdrawal, the plan sponsor shall—

"(A) notify the employer of—

"(i) the amount of the liability, and

"(ii) the schedule for liability payments, and

"(B) demand payment in accordance with the schedule.

"(2)(A) No later than 90 days after the employer receives the notice described in paragraph (1), the employer—

"(i) may ask the plan sponsor to review any specific matter relating to the determination of the employer's liability and the schedule of payments,

"(ii) may identify any inaccuracy in the determination of the amount of the unfunded vested benefits allocable to the employer, and

"(iii) may furnish any additional relevant information to the plan sponsor.

"(B) After a reasonable review of any matter raised, the plan sponsor shall notify the employer of—

"(i) the plan sponsor's decision,

"(ii) the basis for the decision, and

"(iii) the reason for any change in the determination of the employer's liability or schedule of liability payments.

"(c)(1)(A)(i) Except as provided in subparagraphs (B) and (D) of this paragraph and in paragraphs (4) and (5), an employer shall pay the amount determined under section 4211, adjusted if appropriate first under section 4209 and then under section 4206 over the period of years necessary to amortize the amount in level annual payments determined under subparagraph (C), calculated as if the first payment were made on the first day of the plan year following the plan year in which the withdrawal occurs and as if each subsequent payment were made on the first day of each subsequent plan year. Actual payment shall commence in accordance with paragraph (2).

"(ii) The determination of the amortization period described in clause (i) shall be based on the assumptions used for the most recent actuarial valuation for the plan.

"(B) In any case in which the amortization period described in subparagraph (A) exceeds 20 years, the employer's liability shall be limited to the first 20 annual payments determined under subparagraph (C).

"(C)(i) Except as provided in subparagraph (E), the amount of each annual payment shall be the product of— Annual payment.

"(I) the average annual number of contribution base units for the period of 3 consecutive plan years, during the period of 10 consecutive plan years ending before the plan year in which the withdrawal occurs, in which the number of contribution base units for which the employer had an obligation to contribute under the plan is the highest, and

"(II) the highest contribution rate at which the employer had an obligation to contribute under the plan during the 10 plan years ending with the plan year in which the withdrawal occurs.

For purposes of the preceding sentence, a partial withdrawal described in section 4205(a)(1) shall be deemed to occur on the last day of the first year of the 3-year testing period described in section 4205(b)(1)(B)(i).

"(ii)(I) A plan may be amended to provide that for any plan year ending before 1986 the amount of each annual payment shall be (in lieu of the amount determined under clause (i)) the average of the required employer contributions under the plan for the period of 3 consecutive plan years (during the period of 10 consecutive plan years ending with the plan year preceding the plan year in which the withdrawal occurs) for which such required contributions were the highest.

"(II) Subparagraph (B) shall not apply to any plan year to which this clause applies.

"(III) This clause shall not apply in the case of any withdrawal described in subparagraph (D).

"(IV) If under a plan this clause applies to any plan year but does not apply to the next plan year, this clause shall not apply to any plan year after such next plan year.

"(V) For purposes of this clause, the term 'required contributions' means, for any period, the amounts which the employer was obligated to contribute for such period (not taking into account any delinquent contribution for any other period). "Required contributions."

"(iii) A plan may be amended to provide that for the first plan year ending on or after April 29, 1980, the number '5' shall be substituted for the number '10' each place it appears in clause (i) or clause (ii) (whichever is appropriate). If the plan is so amended, the number '5' shall be increased by one for each succeeding plan year until the number '10' is reached.

"(D) In any case in which a multiemployer plan terminates by the withdrawal of every employer from the plan, or in which substantially all the employers withdraw from a plan pursuant to an agreement or arrangement to withdraw from the plan—

"(i) the liability of each such employer who has withdrawn shall be determined (or redetermined) under this paragraph without regard to subparagraph (B), and

"(ii) notwithstanding any other provision of this part, the total unfunded vested benefits of the plan shall be fully allocated among all such employers in a manner not inconsistent with regulations which shall be prescribed by the corporation.

Withdrawal by an employer from a plan, during a period of 3 consecutive plan years within which substantially all the employers who have an obligation to contribute under the plan withdraw, shall be presumed to be a withdrawal pursuant to an agreement or arrangement, unless the employer proves otherwise by a preponderance of the evidence.

"(E) In the case of a partial withdrawal described in section 4205(a), the amount of each annual payment shall be the product of—

"(i) the amount determined under subparagraph (C) (determined without regard to this subparagraph), multiplied by

"(ii) the fraction determined under section 4206 (a)(2).

"(2) Withdrawal liability shall be payable in accordance with the schedule set forth by the plan sponsor under subsection (b)(1) beginning no later than 60 days after the date of the demand notwithstanding any request for review or appeal of determinations of the amount of such liability or of the schedule.

Annual payment.

"(3) Each annual payment determined under paragraph (1)(C) shall be payable in 4 equal installments due quarterly, or at other intervals specified by plan rules. If a payment is not made when due, interest on the payment shall accrue from the due date until the date on which the payment is made.

"(4) The employer shall be entitled to prepay the outstanding amount of the unpaid annual withdrawal liability payments determined under paragraph (1)(C), plus accrued interest, if any, in whole or in part, without penalty. If the prepayment is made pursuant to a withdrawal which is later determined to be part of a withdrawal described in paragraph (1)(D), the withdrawal liability of the employer shall not be limited to the amount of the prepayment.

Default.

"(5) In the event of a default, a plan sponsor may require immediate payment of the outstanding amount of an employer's withdrawal liability, plus accrued interest on the total outstanding liability from the due date of the first payment which was not timely made. For purposes of this section, the term 'default' means—

"(A) the failure of an employer to make, when due, any payment under this section, if the failure is not cured within 60 days after the employer receives written notification from the plan sponsor of such failure, and

"(B) any other event defined in rules adopted by the plan which indicates a substantial likelihood that an employer will be unable to pay its withdrawal liability.

"(6) Except as provided in paragraph (1)(A)(ii), interest under this subsection shall be charged at rates based on prevailing market rates for comparable obligations, in accordance with regulations prescribed by the corporation.

"(7) A multiemployer plan may adopt rules for other terms and conditions for the satisfaction of an employer's withdrawal liability if such rules—

"(A) are consistent with this Act, and

"(B) are not inconsistent with regulations of the corporation.

"(8) In the case of a terminated multiemployer plan, an employer's obligation to make payments under this section ceases at the end of the plan year in which the assets of the plan (exclusive of withdrawal liability claims) are sufficient to meet all obligations of the plan, as determined by the corporation.

29 USC 1106.

"(d) The prohibitions provided in section 406(a) do not apply to any action required or permitted under this part.

"APPROVAL OF AMENDMENTS

"SEC. 4220. (a) Except as provided in subsection (b), if an amendment to a multiemployer plan authorized by any preceding section of this part is adopted more than 36 months after the effective date of this section, the amendment shall be effective only if the corporation approves the amendment, or, within 90 days after the corporation receives notice and a copy of the amendment from the plan sponsor, fails to disapprove the amendment. 29 USC 1400.

"(b) An amendment permitted by section 4211(c)(5) may be adopted only in accordance with that section.

"(c) The corporation shall disapprove an amendment referred to in subsection (a) or (b) only if the corporation determines that the amendment creates an unreasonable risk of loss to plan participants and beneficiaries or to the corporation.

"RESOLUTION OF DISPUTES

"SEC. 4221. (a)(1) Any dispute between an employer and the plan sponsor of a multiemployer plan concerning a determination made under sections 4201 through 4219 shall be resolved through arbitration. Either party may initiate the arbitration proceeding within a 60-day period after the earlier of— 29 USC 1401.

Ante, p. 1217.

"(A) the date of notification to the employer under section 4219(b)(2)(B), or

"(B) 120 days after the date of the employer's request under section 4219(b)(2)(A).

"(2) An arbitration proceeding under this section shall be conducted in accordance with fair and equitable procedures to be promulgated by the corporation. The plan sponsor may purchase insurance to cover potential liability of the arbitrator. If the parties have not provided for the costs of the arbitration, including arbitrator's fees, by agreement, the arbitrator shall assess such fees. The arbitrator may also award reasonable attorney's fees. Arbitration, proceedings.

"(3)(A) For purposes of any proceeding under this section, any determination made by a plan sponsor under sections 4201 through 4219 and section 4225 is presumed correct unless the party contesting the determination shows by a preponderance of the evidence that the determination was unreasonable or clearly erroneous.

"(B) In the case of the determination of a plan's unfunded vested benefits for a plan year, the determination is presumed correct unless a party contesting the determination shows by a preponderance of evidence that—

"(i) the actuarial assumptions and methods used in the determination were, in the aggregate, unreasonable (taking into account the experience of the plan and reasonable expectations), or

"(ii) the plan's actuary made a significant error in applying the actuarial assumptions or methods.

"(b)(1) If no arbitration proceeding has been initiated pursuant to subsection (a), the amounts demanded by the plan sponsor under section 4219(b)(1) shall be due and owing on the schedule set forth by the plan sponsor. The plan sponsor may bring an action in a State or Federal court of competent jurisdiction for collection.

"(2) Upon completion of the arbitration proceedings in favor of one of the parties, any party thereto may bring an action, no later than 30

days after the issuance of an arbitrator's award, in an appropriate United States district court in accordance with section 4301 to enforce, vacate, or modify the arbitrator's award.

Post, p. 1263.

"(3) Any arbitration proceedings under this section shall, to the extent consistent with this title, be conducted in the same manner, subject to the same limitations, carried out with the same powers (including subpena power), and enforced in United States courts as an arbitration proceeding carried out under title 9, United States Code.

9 USC 1.

"(c) In any proceeding under subsection (b), there shall be a presumption, rebuttable only by a clear preponderance of the evidence, that the findings of fact made by the arbitrator were correct.

Employer payments.

"(d) Payments shall be made by an employer in accordance with the determinations made under this part until the arbitrator issues a final decision with respect to the determination submitted for arbitration, with any necessary adjustments in subsequent payments for overpayments or underpayments arising out of the decision of the arbitrator with respect to the determination. If the employer fails to make timely payment in accordance with such final decision, the employer shall be treated as being delinquent in the making of a contribution required under the plan (within the meaning of section 515).

Post, p. 1295.

Information request.

"(e) If any employer requests in writing that the plan sponsor make available to the employer general information necessary for the employer to compute its withdrawal liability with respect to the plan (other than information which is unique to that employer), the plan sponsor shall furnish the information to the employer without charge. If any employer requests in writing that the plan sponsor make an estimate of such employer's potential withdrawal liability with respect to the plan or to provide information unique to that employer, the plan sponsor may require the employer to pay the reasonable cost of making such estimate or providing such information.

"REIMBURSEMENTS FOR UNCOLLECTIBLE WITHDRAWAL LIABILITY

Supplemental reimbursement program.

29 USC 1402.

"SEC. 4222. (a) By May 1, 1982, the corporation shall establish by regulation a supplemental program to reimburse multiemployer plans for withdrawal liability payments which are due from employers and which are determined to be uncollectible for reasons arising out of cases or proceedings involving the employers under title 11, United States Code, or similar cases or proceedings. Participation in the supplemental program shall be on a voluntary basis, and a plan which elects coverage under the program shall pay premiums to the corporation in accordance with a premium schedule which shall be prescribed from time to time by the corporation. The premium schedule shall contain such rates and bases for the application of such rates as the corporation considers to be appropriate.

11 USC 101.

"(b) The corporation may provide under the program for reimbursement of amounts of withdrawal liability determined to be uncollectible for any other reasons the corporation considers appropriate.

Cost.

"(c) The cost of the program (including such administrative and legal costs as the corporation considers appropriate) may be paid only out of premiums collected under such program.

"(d) The supplemental program may be offered to eligible plans on such terms and conditions, and with such limitations with respect to the payment of reimbursements (including the exclusion of de minimis amounts of uncollectible employer liability, and the reduction or

elimination of reimbursements which cannot be paid from collected premiums) and such restrictions on withdrawal from the program, as the corporation considers necessary and appropriate.

"(e) The corporation may enter into arrangements with private insurers to carry out in whole or in part the program authorized by this section and may require plans which elect coverage under the program to elect coverage by those private insurers.

"(B) is subrogated to all rights of the plan against the employer.

"(3) For purposes of this section, the term—

If, after the receipt of such application, the corporation requests from the plan sponsor additional information necessary for the determination, the running of the 180-day period shall be suspended from the date of such request until the receipt by the corporation of the additional information requested. "(4) The corporation may make equitable arrangements with multiemployer plans which are liable under this subsection for satisfaction of their liability.

"(d) Benefits under a single-employer plan to which liabilities are transferred in accordance with this section are guaranteed under Guaranteed benefits.

"(B) notify the plan sponsor of the new plan of the benefits, assets, and liabilities which will be transferred to the new plan.

"(3) Within 60 days after receipt of the notice described in paragraph (2)(B), the new plan may file an appeal with the corporation to prevent the transfer. "(e)(1) Notwithstanding subsection (b), the plan sponsor shall not transfer any assets to the new plan if—

"(A) the old plan is in reorganization (within the meaning of section 4241(a)), or

"(B) the transfer of assets would cause the old plan to go into reorganization (within the meaning of section 4241(a)).

"(2) In any case in which a transfer of assets from the old plan to the new plan is prohibited by paragraph (1), the plan sponsor of the old plan shall transfer—

"(A) all nonforfeitable benefits described in subsection (b)(2), if the value of such benefits does not exceed the withdrawal liability of the employer with respect to such withdrawal, or

"(B) such nonforfeitable benefits having a value equal to the withdrawal liability of the employer, if the value of such benefits exceeds the withdrawal liability of the employer.

"(f)(1) Notwithstanding subsections (b) and (e), the plan sponsors of the old plan and the new plan may agree to a transfer of assets and liabilities that complies with sections 4231 and 4234, rather than this section, except that the employer's liability with respect to the withdrawal from the old plan shall be reduced under subsection (c) as if assets and liabilities had been transferred in accordance with this section.

"(2) If the employer withdraws from the new plan within 240 months after the effective date of a transfer of assets and liabilities described in this section, the amount of the employer's withdrawal liability to the new plan shall be the greater of—

"(A) the employer's withdrawal liability determined under part 1 with respect to the new plan, or

"(B) the amount by which the employer's withdrawal liability to the old plan was reduced under subsection (c), reduced by 5 percent for each 12-month period following the effective date of the transfer and ending before the date of the withdrawal from the new plan.

Current contribution base.

"(c)(1) For purposes of this part, a plan's current contribution base for a plan year is the number of contribution base units with respect to which contributions are required to be made under the plan for that plan year, determined in accordance with regulations prescribed by the Secretary of the Treasury.

"(2)(A) Except as provided in subparagraph (B), for purposes of this part a plan's valuation contribution base is the number of contribution base units for which contributions were received for the base plan year—

"(i) adjusted to reflect declines in the contribution base which have occurred (or could reasonably be anticipated) as of the adjustment date for the plan year referred to in paragraph (1),

"(ii) adjusted upward (in accordance with regulations prescribed by the Secretary of the Treasury) for any contribution base reduction in the base plan year caused by a strike or lockout or by unusual events, such as fire, earthquake, or severe weather conditions, and

"(iii) adjusted (in accordance with regulations prescribed by the Secretary of the Treasury) for reductions in the contribution base resulting from transfers of liabilities.

"(B) For any plan year—

"(i) in which the plan is insolvent (within the meaning of section 4245(b)(1)), and

"(ii) beginning with the first plan year beginning after the expiration of all relevant collective bargaining agreements which were in effect in the plan year in which the plan became insolvent,

the plan's valuation contribution base is the greater of the number of contribution base units for which contributions were received for the first or second plan year preceding the first plan year in which the plan is insolvent, adjusted as provided in clause (ii) or (iii) of subparagraph (A).

"(d)(1) Under regulations prescribed by the Secretary of the Treasury, the minimum contribution requirement applicable to any plan for any plan year which is determined under subsection (b) (without regard to subsection (b)(2)) shall not exceed an amount which is equal to the sum of—

"(ii) the amount necessary to amortize in equal annual installments the increase in the value of vested benefits under the plan due to increases in benefits described in clause (i) over—

"(I) 10 years, to the extent such increase in value is attributable to persons in pay status, or

"(II) 25 years, to the extent such increase in value is attributable to other participants.

Funding standard requirement.

"(2) For purposes of paragraph (1), the funding standard requirement for any plan year is an amount equal to the net charge to the funding standard account for such plan year (as defined in section 4241(b)(2)).

Ante, p. 1234.

"(3)(A) In the case of a plan described in section 4216(b), if a plan amendment which increases benefits is adopted after January 1, 1980—

"(i) paragraph (1) shall apply only if the plan is a plan described in subparagraph (B), and

"(ii) the amount under paragraph (1) shall be determined without regard to paragraph (1)(B).

"(B) A plan is described in this subparagraph if—

"(i) the rate of employer contributions under the plan for the first plan year beginning on or after the date on which an amendment increasing benefits is adopted, multiplied by the valuation contribution base for that plan year, equals or exceeds the sum of—

"(I) the amount that would be necessary to amortize fully, in equal annual installments, by July 1, 1986, the unfunded vested benefits attributable to plan provisions in effect on July 1, 1977 (determined as of the last day of the base plan year); and

"(II) the amount that would be necessary to amortize fully, in equal annual installments, over the period described in subparagraph (C), beginning with the first day of the first plan year beginning on or after the date on which the amendment is adopted, the unfunded vested benefits (determined as of the last day of the base plan year) attributable to each plan amendment after July 1, 1977; and

"(ii) the rate of employer contributions for each subsequent plan year is not less than the lesser of—

"(I) the rate which when multiplied by the valuation contribution base for that subsequent plan year produces the

annual amount that would be necessary to complete the amortization schedule described in clause (i), or

"(II) the rate for the plan year immediately preceding such subsequent plan year, plus 5 percent of such rate.

"(C) The period determined under this subparagraph is the lesser of—

"(i) 12 years, or

"(ii) a period equal in length to the average of the remaining expected lives of all persons receiving benefits under the plan.

"(4) Paragraph (1) shall not apply with respect to a plan, other than a plan described in paragraph (3), for the period of consecutive plan years in each of which the plan is in reorganization, beginning with a plan year in which occurs the earlier of the date of the adoption or the effective date of any amendment of the plan which increases benefits with respect to service performed before the plan year in which the adoption of the amendment occurred.

"(e) In determining the minimum contribution requirement with respect to a plan for a plan year under subsection (b), the vested benefits charge may be adjusted to reflect a plan amendment reducing benefits under section 412(c)(8) of the Internal Revenue Code of 1954. 26 USC 412.

"(f)(1) The Secretary of the Treasury may waive any accumulated funding deficiency under this section in accordance with the provisions of section 303(a). 29 USC 1083.

"(2) Any waiver under paragraph (1) shall not be treated as a waived funding deficiency (within the meaning of section 303(c)).

"(g) For purposes of making any determination under this part, the requirements of section 302(c)(3) shall apply. 29 USC 1082.

"OVERBURDEN CREDIT AGAINST MINIMUM CONTRIBUTION REQUIREMENT

"SEC. 4244. (a) For purposes of determining the minimum contribution requirement under section 4243 (before the application of section 4243 (b)(2) or (d)) the plan sponsor of a plan which is overburdened for the plan year shall apply an overburden credit against the plan's minimum contribution requirement for the plan year (determined without regard to section 4243 (b)(2) or (d) and without regard to this section). 29 USC 1424.

"(b) A plan is overburdened for a plan year if—

"(1) the average number of pay status participants under the plan in the base plan year exceeds the average of the number of active participants in the base plan year and the 2 plan years preceding the base plan year, and

"(2) the rate of employer contributions under the plan equals or exceeds the greater of—

"(A) such rate for the preceding plan year, or

"(B) such rate for the plan year preceding the first year in which the plan is in reorganization.

"(c) The amount of the overburden credit for a plan year is the product of— Amount, determination factors.

"(1) one-half of the average guaranteed benefit paid for the base plan year, and

"(2) the overburden factor for the plan year.

The amount of the overburden credit for a plan year shall not exceed the amount of the minimum contribution requirement for such year (determined without regard to this section).

"(d) For purposes of this section, the overburden factor of a plan for the plan year is an amount equal to—

"(1) the average number of pay status participants for the base plan year, reduced by

"(2) the average of the number of active participants for the base plan year and for each of the 2 plan years preceding the base plan year.

"(e) For purposes of this section—

"Pay status participant."

"(1) The term 'pay status participant' means, with respect to a plan, a participant receiving retirement benefits under the plan.

Active participants, numerical determination.

"(2) The number of active participants for a plan year shall be the sum of—

"(A) the number of active employees who are participants in the plan and on whose behalf contributions are required to be made during the plan year;

"(B) the number of active employees who are not participants in the plan but who are in an employment unit covered by a collective bargaining agreement which requires the employees' employer to contribute to the plan, unless service in such employment unit was never covered under the plan or a predecessor thereof, and

"(C) the total number of active employees attributed to employers who made payments to the plan for the plan year of withdrawal liability pursuant to part 1, determined by dividing—

"(i) the total amount of such payments, by

"(ii) the amount equal to the total contributions received by the plan during the plan year divided by the average number of active employees who were participants in the plan during the plan year.

Alternate methods.

The Secretary of the Treasury shall by regulation provide alternative methods of determining active participants where (by reason of irregular employment, contributions on a unit basis, or otherwise) this paragraph does not yield a representative basis for determining the credit.

"Average number."

"(3) The term 'average number' means, with respect to pay status participants for a plan year, a number equal to one-half the sum of—

"(A) the number with respect to the plan as of the beginning of the plan year, and

"(B) the number with respect to the plan as of the end of the plan year.

Average guaranteed benefit.

"(4) The average guaranteed benefit paid is 12 times the average monthly pension payment guaranteed under section 4022A(c)(1) determined under the provisions of the plan in effect at the beginning of the first plan year in which the plan is in reorganization and without regard to section 4022A(c)(2).

Ante, p. 1210.

"(5) The first year in which the plan is in reorganization is the first of a period of 1 or more consecutive plan years in which the plan has been in reorganization not taking into account any plan years the plan was in reorganization prior to any period of 3 or more consecutive plan years in which the plan was not in reorganization.

"(f)(1) Notwithstanding any other provision of this section, a plan is not eligible for an overburden credit for a plan year if the Secretary of the Treasury finds that the plan's current contribution base for the plan year was reduced, without a corresponding reduction in the plan's unfunded vested benefits attributable to pay status partici-

pants, as a result of a change in an agreement providing for employer contributions under the plan.

"(2) For purposes of paragraph (1), a complete or partial withdrawal of an employer (within the meaning of part 1) does not impair a plan's eligibility for an overburden credit, unless the Secretary of the Treasury finds that a contribution base reduction described in paragraph (1) resulted from a transfer of liabilities to another plan in connection with the withdrawal.

"(g) Notwithstanding any other provision of this section, if 2 or more multiemployer plans merge, the amount of the overburden credit which may be applied under this section with respect to the plan resulting from the merger for any of the 3 plan years ending after the effective date of the merger shall not exceed the sum of the used overburden credit for each of the merging plans for its last plan year ending before the effective date of the merger. For purposes of the preceding sentence, the used overburden credit is that portion of the credit which does not exceed the excess of the minimum contribution requirement (determined without regard to any overburden requirement under this section) over the employer contributions required under the plan.

Used overburden credit.

"ADJUSTMENTS IN ACCRUED BENEFITS

"SEC. 4244A. (a)(1) Notwithstanding sections 203 and 204, a multiemployer plan in reorganization may be amended in accordance with this section, to reduce or eliminate accrued benefits attributable to employer contributions which, under section 4022A(b), are not eligible for the corporation's guarantee. The preceding sentence shall only apply to accrued benefits under plan amendments (or plans) adopted after March 26, 1980, or under collective bargaining agreements entered into after March 26, 1980.

29 USC 1425.
29 USC 1053, 1054.

"(2) In determining the minimum contribution requirement with respect to a plan for a plan year under section 4243(b), the vested benefits charge may be adjusted to reflect a plan amendment reducing benefits under this section or section 412(c)(8) of the Internal Revenue Code of 1954, but only if the amendment is adopted and effective no later than 2½ months after the end of the plan year, or within such extended period as the Secretary of the Treasury may prescribe by regulation under section 412(c)(10) of such Code.

26 USC 412.

"(b)(1) Accrued benefits may not be reduced under this section unless—

Ante, p. 1233.

"(iii) each employee organization which, for purposes of collective bargaining, represents plan participants employed by such an employer,

that the plan is in reorganization and that, if contributions under the plan are not increased, accrued benefits under the plan will be reduced or an excise tax will be imposed on employers;

"(B) in accordance with regulations prescribed by the Secretary of the Treasury—

"(i) any category of accrued benefits is not reduced with respect to inactive participants to a greater extent propor-

tionally than such category of accrued benefits is reduced with respect to active participants,

"(ii) benefits attributable to employer contributions other than accrued benefits and the rate of future benefit accruals are reduced at least to an extent equal to the reduction in accrued benefits of inactive participants, and

"(iii) in any case in which the accrued benefit of a participant or beneficiary is reduced by changing the benefit form or the requirements which the participant or beneficiary must satisfy to be entitled to the benefit, such reduction is not applicable to—

"(I) any participant or beneficiary in pay status on the effective date of the amendment, or the beneficiary of such a participant, or

"(II) any participant who has attained normal retirement age, or who is within 5 years of attaining normal retirement age, on the effective date of the amendment, or the beneficiary of any such participant; and

"(C) the rate of employer contributions for the plan year in which the amendment becomes effective and for all succeeding plan years in which the plan is in reorganization equals or exceeds the greater of—

"(i) the rate of employer contributions, calculated without regard to the amendment, for the plan year in which the amendment becomes effective, or

"(ii) the rate of employer contributions for the plan year preceding the plan year in which the amendment becomes effective.

"(2) The plan sponsors shall include in any notice required to be sent to plan participants and beneficiaries under paragraph (1) information as to the rights and remedies of plan participants and beneficiaries as well as how to contact the Department of Labor for further information and assistance where appropriate.

"(c) A plan may not recoup a benefit payment which is in excess of the amount payable under the plan because of an amendment retroactively reducing accrued benefits under this section.

Amended plans.

"(d)(1)(A) A plan which has been amended to reduce accrued benefits under this section may be amended to increase or restore accrued benefits, or the rate of future benefit accruals, only if the plan is amended to restore levels of previously reduced accrued benefits of inactive participants and of participants who are within 5 years of attaining normal retirement age to at least the same extent as any such increase in accrued benefits or in the rate of future benefit accruals.

"(B) For purposes of this subsection, in the case of a plan which has been amended under this section to reduce accrued benefits—

"(i) an increase in a benefit, or in the rate of future benefit accruals, shall be considered a benefit increase to the extent that the benefit, or the accrual rate, is thereby increased above the highest benefit level, or accrual rate, which was in effect under the terms of the plan before the effective date of the amendment reducing accrued benefits, and

"(ii) an increase in a benefit, or in the rate of future benefit accruals, shall be considered a benefit restoration to the extent that the benefit, or the accrual rate, is not thereby increased above the highest benefit level, or accrual rate, which was in effect under the terms of the plan immediately before the effective date of the amendment reducing accrued benefits.

"(2) If a plan is amended to partially restore previously reduced accrued benefit levels, or the rate of future benefit accruals, the benefits of inactive participants shall be restored in at least the same proportions as other accrued benefits which are restored.

"(3) No benefit increase under a plan may take effect in a plan year in which an amendment reducing accrued benefits under the plan, in accordance with this section, is adopted or first becomes effective.

"(4) A plan is not required to make retroactive benefit payments with respect to that portion of an accrued benefit which was reduced and subsequently restored under this section.

"(e) For purposes of this section, 'inactive participant' means a person not in covered service under the plan who is in pay status under the plan or who has a nonforfeitable benefit under the plan. "Inactive participant."

"(f) The Secretary of the Treasury may prescribe rules under which, notwithstanding any other provision of this section, accrued benefit reductions or benefit increases for different participant groups may be varied equitably to reflect variations in contribution rates and other relevant factors reflecting differences in negotiated levels of financial support for plan benefit obligations.

"INSOLVENT PLANS

"SEC. 4245. (a) Notwithstanding sections 203 and 204, in any case in which benefit payments under an insolvent multiemployer plan exceed the resource benefit level, any such payments of benefits which are not basic benefits shall be suspended, in accordance with this section, to the extent necessary to reduce the sum of such payments and the payments of such basic benefits to the greater of the resource benefit level or the level of basic benefits, unless an alternative procedure is prescribed by the corporation under section 4022A(g)(5). "(3) Notwithstanding paragraph (2), if a plan sponsor determines in writing a resource benefit level for a plan year which is below the level of basic benefits, the payment of all benefits other than basic benefits must be suspended for that plan year.

"(4)(A) If, by the end of an insolvency year, the plan sponsor determines in writing that the plan's available resources in that insolvency year could have supported benefit payments above the resource benefit level for that insolvency year, the plan sponsor shall distribute the excess resources to the participants and beneficiaries who received benefit payments from the plan in that insolvency year, in accordance with regulations prescribed by the Secretary of the Treasury.

"Excess resources."

"(B) For purposes of this paragraph, the term 'excess resources' means available resources above the amount necessary to support the resource benefit level, but no greater than the amount necessary to pay benefits for the plan year at the benefit levels under the plan.

"(5) If, by the end of an insolvency year, any benefit has not been paid at the resource benefit level, amounts up to the resource benefit level which were unpaid shall be distributed to the participants and beneficiaries, in accordance with regulations prescribed by the Secretary of the Treasury, to the extent possible taking into account the plan's total available resources in that insolvency year.

"(6) Except as provided in paragraph (4) or (5), a plan is not required to make retroactive benefit payments with respect to that portion of a benefit which was suspended under this section.

"(d)(1) As of the end of the first plan year in which a plan is in reorganization, and at least every 3 plan years thereafter (unless the plan is no longer in reorganization), the plan sponsor shall compare the value of plan assets (determined in accordance with section 4243(b)(3)(B)(ii)) for that plan year with the total amount of benefit payments made under the plan for that plan year. Unless the plan sponsor determines that the value of plan assets exceeds 3 times the total amount of benefit payments, the plan sponsor shall determine whether the plan will be insolvent in any of the next 3 plan years.

"(2) If, at any time, the plan sponsor of a plan in reorganization reasonably determines, taking into account the plan's recent and anticipated financial experience, that the plan's available resources are not sufficient to pay benefits under the plan when due for the next plan year, the plan sponsor shall make such determination available to interested parties.

"(B) inform the parties described in section 4242(a)(2) and the plan participants and beneficiaries that if insolvency occurs certain benefit payments will be suspended, but that basic benefits will continue to be paid.

"(2) No later than 2 months before the first day of each insolvency year, the plan sponsor of a plan in reorganization shall notify the

Secretary of the Treasury, the corporation, and the parties described in paragraph (1)(B) of the resource benefit level determined in writing for that insolvency year.

"(3) In any case in which the plan sponsor anticipates that the resource benefit level for an insolvency year may not exceed the level of basic benefits, the plan sponsor shall notify the corporation.

"(4) Notice required by this subsection shall be given in accordance with regulations prescribed by the corporation, except that notice to the Secretary of the Treasury shall be given in accordance with regulations prescribed by the Secretary of the Treasury.

26 USC 412.

"(i) the sum of the minimum contribution requirement for such plan year (taking into account any overburden credit under section 418C(a)) plus the plan's accumulated funding deficiency for the preceding plan year (determined under this section if the plan was in reorganization during such plan year or under section 412(a) if the plan was not in reorganization), over

"(ii) amounts considered contributed by employers to or under the plan for the plan year (increased by any amount waived under subsection (f) for the plan year).

"(2) TREATMENT OF WITHDRAWAL LIABILITY PAYMENTS.—For purposes of paragraph (1), withdrawal liability payments

(whether or not received) which are due with respect to withdrawals before the end of the base plan year shall be considered amounts contributed by the employer to or under the plan if, as of the adjustment date, it was reasonable for the plan sponsor to anticipate that such payments would be made during the plan year.

"(b) MINIMUM CONTRIBUTION REQUIREMENT.—

"(1) IN GENERAL.—Except as otherwise provided in this section for purposes of this subpart the minimum contribution requirement for a plan year in which a plan is in reorganization is an amount equal to the excess of—

"(A) the sum of—

"(i) the plan's vested benefits charge for the plan year; and

"(ii) the increase in normal cost for the plan year determined under the entry age normal funding method which is attributable to plan amendments adopted while the plan was in reorganization, over

"(B) the amount of the overburden credit (if any) determined under section 418C for the plan year.

"(2) ADJUSTMENT FOR REDUCTIONS IN CONTRIBUTION BASE UNITS.—If the plan's current contribution base for the plan year is less than the plan's valuation contribution base for the plan year, the minimum contribution requirement for such plan year shall be equal to the product of the amount determined under paragraph (1) (after any adjustment required by this subpart other than this paragraph) multiplied by a fraction—

"(A) the numerator of which is the plan's current contribution base for the plan year, and

"(B) the denominator of which is the plan's valuation contribution base for the plan year.

"(3) SPECIAL RULE WHERE CASH-FLOW AMOUNT EXCEEDS VESTED BENEFITS CHARGE.—

"(A) IN GENERAL.—If the vested benefits charge for a plan year of a plan in reorganization is less than the plan's cash-flow amount for the plan year, the plan's minimum contribution requirement for the plan year is the amount determined under paragraph (1) (determined before the application of paragraph (2)) after substituting the term 'cash-flow amount' for the term 'vested benefits charge' in paragraph (1)(A).

"(B) CASH-FLOW AMOUNT.—For purposes of subparagraph (A), a plan's cash-flow amount for a plan year is an amount equal to—

"(i) the amount of the benefits payable under the plan for the base plan year, plus the amount of the plan's administrative expenses for the base plan year, reduced by

"(ii) the value of the available plan assets for the base plan year determined under regulations prescribed by the Secretary,

adjusted in a manner consistent with section 418(b)(4).

"(c) CURRENT CONTRIBUTION BASE; VALUATION CONTRIBUTION BASE.—

"(1) CURRENT CONTRIBUTION BASE.—For purposes of this subpart, a plan's current contribution base for a plan year is the number of contribution base units with respect to which contributions are required to be made under the plan for that plan

year, determined in accordance with regulations prescribed by the Secretary.

"(2) VALUATION CONTRIBUTION BASE.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), for purposes of this subpart a plan's valuation contribution base is the number of contribution base units for which contributions were received for the base plan year—

"(i) adjusted to reflect declines in the contribution base which have occurred (or could reasonably be anticipated) as of the adjustment date for the plan year referred to in paragraph (1),

"(ii) adjusted upward (in accordance with regulations prescribed by the Secretary) for any contribution base reduction in the base plan year caused by a strike or lockout or by unusual events, such as fire, earthquake, or severe weather conditions, and

"(iii) adjusted (in accordance with regulations prescribed by the Secretary) for reductions in the contribution base resulting from transfers of liabilities.

"(B) INSOLVENT PLANS.—For any plan year—

"(i) in which the plan is insolvent (within the meaning of section 418E(b)(1)), and

"(ii) beginning with the first plan year beginning after the expiration of all relevant collective bargaining agreements which were in effect in the plan year in which the plan became insolvent,

the plan's valuation contribution base is the greater of the number of contribution base units for which contributions were received for the first or second plan year preceding the first plan year in which the plan is insolvent, adjusted as provided in clause (ii) or (iii) of subparagraph (A).

"(3) CONTRIBUTION BASE UNIT.—For purposes of this subpart, the term 'contribution base unit' means a unit with respect to which an employer has an obligation to contribute under a multiemployer plan (as defined in regulations prescribed by the Secretary).

"(d) LIMITATION ON REQUIRED INCREASES IN RATE OF EMPLOYER CONTRIBUTIONS.—

"(1) IN GENERAL.—Under regulations prescribed by the Secretary, the minimum contribution requirement applicable to any plan for any plan year which is determined under subsection (b) (without regard to subsection (b)(2)) shall not exceed an amount which is equal to the sum of—

"(A) the greater of—

"(i) the funding standard requirement for such plan year, or

"(ii) 107 percent of—

"(I) if the plan was not in reorganization in the preceding plan year, the funding standard requirement for such preceding plan year, or

"(II) if the plan was in reorganization in the preceding plan year, the sum of the amount determined under this subparagraph for the preceding plan year and the amount (if any) determined under subparagraph (B) for the preceding plan year, plus

"(B) if for the plan year a change in benefits is first required to be considered in computing the charges under section 412(b)(2) (A) or (B), the sum of—

26 USC 412.

"(i) the increase in normal cost for a plan year determined under the entry age normal funding method due to increases in benefits described in section 418(b)(4)(A)(ii) (determined without regard to section 418(b)(4)(B)(ii)), and

"(ii) the amount necessary to amortize in equal annual installments the increase in the value of vested benefits under the plan due to increases in benefits described in clause (i) over—

"(I) 10 years, to the extent such increase in value is attributable to persons in pay status, or

"(II) 25 years, to the extent such increase in value is attributable to other participants.

"(2) FUNDING STANDARD REQUIREMENT.—For purposes of paragraph (1), the funding standard requirement for any plan year is an amount equal to the net charge to the funding standard account for such plan year (as defined in section 418(b)(2)).

"(3) SPECIAL RULE FOR CERTAIN PLANS.—

"(A) IN GENERAL.—In the case of a plan described in section 4216(b) of the Employee Retirement Income Security Act of 1974, if a plan amendment which increases benefits is adopted after January 1, 1980— *Ante*, p. 1234.

"(i) paragraph (1) shall apply only if the plan is a plan described in subparagraph (B), and

"(ii) the amount under paragraph (1) shall be determined without regard to subparagraph (1)(B).

"(B) ELIGIBLE PLANS.—A plan is described in this subparagraph if—

"(i) the rate of employer contributions under the plan for the first plan year beginning on or after the date on which an amendment increasing benefits is adopted, multiplied by the valuation contribution base for that plan year, equals or exceeds the sum of—

"(I) the amount that would be necessary to amortize fully, in equal annual installments, by July 1, 1986, the unfunded vested benefits attributable to plan provisions in effect on July 1, 1977 (determined as of the last day of the base plan year); and

"(II) the amount that would be necessary to amortize fully, in equal annual installments, over the period described in subparagraph (C), beginning with the first day of the first plan year beginning on or after the date on which the amendment is adopted, the unfunded vested benefits (determined as of the last day of the base plan year) attributable to each plan amendment after July 1, 1977; and

"(ii) the rate of employer contributions for each subsequent plan year is not less than the lesser of—

"(I) the rate which when multiplied by the valuation contribution base for that subsequent plan year produces the annual amount that would be necessary to complete the amortization schedule described in clause (i), or

"(II) the rate for the plan year immediately preceding such subsequent plan year, plus 5 percent of such rate.

"(C) PERIOD.—The period determined under this subparagraph is the lesser of—

"(i) 12 years, or

"(ii) a period equal in length to the average of the remaining expected lives of all persons receiving benefits under the plan.

"(4) EXCEPTION IN CASE OF CERTAIN BENEFIT INCREASES.—Paragraph (1) shall not apply with respect to a plan, other than a plan described in paragraph (3), for the period of consecutive plan years in each of which the plan is in reorganization, beginning with a plan year in which occurs the earlier of the date of the adoption or the effective date of any amendment of the plan which increases benefits with respect to service performed before the plan year in which the adoption of the amendment occurred.

"(e) CERTAIN RETROACTIVE PLAN AMENDMENTS.—In determining the minimum contribution requirement with respect to a plan for a plan year under subsection (b), the vested benefits charge may be adjusted to reflect a plan amendment reducing benefits under section 412(c)(8).

26 USC 412.

"(f) WAIVER OF ACCUMULATED FUNDING DEFICIENCY.—

"(1) IN GENERAL.—The Secretary may waive any accumulated funding deficiency under this section in accordance with the provisions of section 412(d)(1).

"(2) TREATMENT OF WAIVER.—Any waiver under paragraph (1) shall not be treated as a waived funding deficiency (within the meaning of section 412(d)(3)).

"(g) ACTUARIAL ASSUMPTIONS MUST BE REASONABLE.—For purposes of making any determination under this subpart, the requirements of section 412(c)(3) shall apply.

26 USC 418C.

"SEC. 418C. OVERBURDEN CREDIT AGAINST MINIMUM CONTRIBUTION REQUIREMENT.

"(a) GENERAL RULE.—For purposes of determining the contribution under section 418B (before the application of section 418B (b)(2) or (d)), the plan sponsor of a plan which is overburdened for the plan year shall apply an overburden credit against the plan's minimum contribution requirement for the plan year (determined without regard to section 418B (b)(2) or (d) and without regard to this section).

"(b) DEFINITION OF OVERBURDENED PLAN.—A plan is overburdened for a plan year if—

"(1) the average number of pay status participants under the plan in the base plan year exceeds the average of the number of active participants in the base plan year and the 2 plan years preceding the base plan year, and

"(2) the rate of employer contributions under the plan equals or exceeds the greater of—

"(A) such rate for the preceding plan year, or

"(B) such rate for the plan year preceding the first year in which the plan is in reorganization.

"(c) AMOUNT OF OVERBURDEN CREDIT.—The amount of the overburden credit for a plan year is the product of—

"(1) one-half of the average guaranteed benefit paid for the base plan year, and

"(2) the overburden factor for the plan year.

The amount of the overburden credit for a plan year shall not exceed the amount of the minimum contribution requirement for such year (determined without regard to this section).

"(d) OVERBURDEN FACTOR.—For purposes of this section, the overburden factor of a plan for the plan year is an amount equal to—

"(1) the average number of pay status participants for the base plan year, reduced by

"(2) the average of the number of active participants for the base plan year and for each of the 2 plan years preceding the base plan year.

"(e) DEFINITIONS.—For purposes of this section—

"(1) PAY STATUS PARTICIPANT.—The term 'pay status participant' means, with respect to a plan, a participant receiving retirement benefits under the plan.

"(2) NUMBER OF ACTIVE PARTICIPANTS.—The number of active participants for a plan year shall be the sum of—

"(A) the number of active employees who are participants in the plan and on whose behalf contributions are required to be made during the plan year;

"(B) the number of active employees who are not participants in the plan but who are in an employment unit covered by a collective bargaining agreement which requires the employees' employer to contribute to the plan unless service in such employment unit was never covered under the plan or a predecessor thereof, and

"(C) the total number of active employees attributed to employers who made payments to the plan for the plan year of withdrawal liability pursuant to part 1 of subtitle E of title IV of the Employee Retirement Income Security Act of 1974, determined by dividing— *Ante*, p. 1217.

"(i) the total amount of such payments, by

"(ii) the amount equal to the total contributions received by the plan during the plan year divided by the average number of active employees who were participants in the plan during the plan year.

The Secretary shall by regulations provide alternative methods of determining active participants where (by reason of irregular employment, contributions on a unit basis, or otherwise) this paragraph does not yield a representative basis for determining the credit.

"(3) AVERAGE NUMBER.—The term 'average number' means, with respect to pay status participants for a plan year, a number equal to one-half the sum of—

"(A) the number with respect to the plan as of the beginning of the plan year, and

"(B) the number with respect to the plan as of the end of the plan year.

"(4) AVERAGE GUARANTEED BENEFIT.—The average guaranteed benefit paid is 12 times the average monthly pension payment guaranteed under section 4022A(c)(1) of the Employee Retirement Income Security Act of 1974 determined under the provisions of the plan in effect at the beginning of the first plan year in which the plan is in reorganization and without regard to section 4022A(c)(2). *Ante*, p. 1210.

"(5) FIRST YEAR IN REORGANIZATION.—The first year in which the plan is in reorganization is the first of a period of 1 or more consecutive plan years in which the plan has been in reorganization not taking into account any plan years the plan was in reorganization prior to any period of 3 or more consecutive plan years in which the plan was not in reorganization.

"(f) NO OVERBURDEN CREDIT IN CASE OF CERTAIN REDUCTIONS IN CONTRIBUTIONS.—

"(1) IN GENERAL.—Notwithstanding any other provision of this section, a plan is not eligible for an overburden credit for a plan year if the Secretary finds that the plan's current contribution base for any plan year was reduced, without a corresponding reduction in the plan's unfunded vested benefits attributable to pay status participants, as a result of a change in an agreement providing for employer contributions under the plan.

"(2) TREATMENT OF CERTAIN WITHDRAWALS.—For purposes of paragraph (1), a complete or partial withdrawal of an employer (within the meaning of part 1 of subtitle E of title IV of the Employee Retirement Income Security Act of 1974) does not impair a plan's eligibility for an overburden credit, unless the Secretary finds that a contribution base reduction described in paragraph (1) resulted from a transfer of liabilities to another plan in connection with the withdrawal.

Ante, p. 1217.

"(g) MERGERS.—Notwithstanding any other provision of this section, if 2 or more multiemployer plans merge, the amount of the overburden credit which may be applied under this section with respect to the plan resulting from the merger for any of the 3 plan years ending after the effective date of the merger shall not exceed the sum of the used overburden credit for each of the merging plans for its last plan year ending before the effective date of the merger. For purposes of the preceding sentence, the used overburden credit is that portion of the credit which does not exceed the excess of the minimum contribution requirement determined without regard to any overburden credit under this section over the employer contributions required under the plan.

26 USC 418D.

"SEC. 418D. ADJUSTMENTS IN ACCRUED BENEFITS.

"(a) ADJUSTMENTS IN ACCRUED BENEFITS.—

26 USC 411.

"(1) IN GENERAL.—Notwithstanding section 411, a multiemployer plan in reorganization may be amended, in accordance with this section, to reduce or eliminate accrued benefits attributable to employer contributions which, under section 4022A(b) of the Employee Retirement Income Security Act of 1974, are not eligible for the Pension Benefit Guaranty Corporation's guarantee. The preceding sentence shall only apply to accrued benefits under plan amendments (or plans) adopted after March 26, 1980, or under collective bargaining agreement entered into after March 26, 1980.

Ante, p. 1210.

"(2) ADJUSTMENT OF VESTED BENEFITS CHARGE.—In determining the minimum contribution requirement with respect to a plan for a plan year under section 418B(b), the vested benefits charge may be adjusted to reflect a plan amendment reducing benefits under this section or section 412(c)(8), but only if the amendment is adopted and effective no later than 2½ months after the end of the plan year, or within such extended period as the Secretary may prescribe by regulations under section 412(c)(10).

Ante, p. 1274.

26 USC 412.

"(b) LIMITATION ON REDUCTION.—

"(1) IN GENERAL.—Accrued benefits may not be reduced under this section unless—

"(A) notice has been given, at least 6 months before the first day of the plan year in which the amendment reducing benefits is adopted, to—

"(i) plan participants and beneficiaries,

"(ii) each employer who has an obligation to contribute (within the meaning of section 4212(a) of the Em-

ployee Retirement Income Security Act of 1974) under the plan, and *Ante*, p. 1233.

"(iii) each employee organization which, for purposes of collective bargaining, represents plan participants employed by such an employer,

that the plan is in reorganization and that, if contributions under the plan are not increased, accrued benefits under the plan will be reduced or an excise tax will be imposed on employers;

"(B) in accordance with regulations prescribed by the Secretary—

"(i) any category of accrued benefits is not reduced with respect to inactive participants to a greater extent proportionally that such category of accrued benefits is reduced with respect to active participants,

"(ii) benefits attributable to employer contributions other than accrued benefits and the rate of future benefit accruals are reduced at least to an extent equal to the reduction in accrued benefits of inactive participants, and

"(iii) in any case in which the accrued benefit of a participant or beneficiary is reduced by changing the benefit form or the requirements which the participant or beneficiary must satisfy to be entitled to the benefit, such reduction is not applicable to—

"(I) any participant or beneficiary in pay status on the effective date of the amendment, or the beneficiary of such a participant, or

"(II) any participant who has attained normal retirement age, or who is within 5 years of attaining normal retirement age, on the effective date of the amendment, or the beneficiary of any such participant; and

"(C) the rate of employer contributions for the plan year in which the amendment becomes effective and for all succeeding plan years in which the plan is in reorganization equals or exceeds the greater of—

"(i) the rate of employer contributions, calculated without regard to the amendment, for the plan year in which the amendment becomes effective, or

"(ii) the rate of employer contributions for the plan year preceding the plan year in which the amendment becomes effective.

"(2) INFORMATION REQUIRED TO BE INCLUDED IN NOTICE.—The plan sponsors shall include in any notice required to be sent to plan participants and beneficiaries under paragraph (1) information as to the rights and remedies of plan participants and beneficiaries as well as how to contact the Department of Labor for further information and assistance where appropriate.

"(c) NO RECOUPMENT.—A plan may not recoup a benefit payment which is in excess of the amount payable under the plan because of an amendment retroactively reducing accrued benefits under this section.

"(d) BENEFIT INCREASES UNDER MULTIEMPLOYER PLAN IN REORGANIZATION.—

"(1) RESTORATION OF PREVIOUSLY REDUCED BENEFITS.—

"(A) IN GENERAL.—A plan which has been amended to reduce accrued benefits under this section may be amended

to increase or restore accrued benefits, or the rate of future benefit accruals, only if the plan is amended to restore levels of previously reduced accrued benefits of inactive participants and of participants who are within 5 years of attaining normal retirement age to at least the same extent as any such increase in accrued benefits or in the rate of future benefit accruals.

"(B) BENEFIT INCREASES AND BENEFIT RESTORATIONS.—For purposes of this subsection, in the case of a plan which has been amended under this section to reduce accrued benefits—

"(i) an increase in a benefit, or in the rate of future benefit accruals, shall be considered a benefit increase to the extent that the benefit, or the accrual rate, is thereby increased above the highest benefit level, or accrual rate, which was in effect under the terms of the plan before the effective date of the amendment reducing accrued benefits, and

"(ii) an increase in a benefit, or in the rate of future benefit accruals, shall be considered a benefit restoration to the extent that the benefit, or the accrual rate, is not thereby increased above the highest benefit level, or accrual rate, which was in effect under the terms of the plan immediately before the effective date of the amendment reducing accrued benefits.

"(2) UNIFORMITY IN BENEFIT RESTORATION.—If a plan is amended to partially restore previously reduced accrued benefit levels, or the rate of future benefit accruals, the benefits of inactive participants shall be restored in at least the same proportions as other accrued benefits which are restored.

"(3) NO BENEFIT INCREASES IN YEAR OF BENEFIT REDUCTION.—No benefit increase under a plan may take effect in a plan year in which an amendment reducing accrued benefits under the plan, in accordance with this section, is adopted or first becomes effective.

"(4) RETROACTIVE PAYMENTS.—A plan is not required to make retroactive benefit payments with respect to that portion of an accrued benefit which was reduced and subsequently restored under this section.

"(e) INACTIVE PARTICIPANT.—For purposes of this section, the term 'inactive participant' means a person not in covered service under the plan who is in pay status under the plan or who has a nonforfeitable benefit under the plan.

"(f) REGULATIONS.—The Secretary may prescribe rules under which, notwithstanding any other provision of this section, accrued benefit reductions or benefit increases for different participant groups may be varied equitably to reflect variations in contribution rates and other relevant factors reflecting differences in negotiated levels of financial support for plan benefit obligations.

26 USC 418E.

"SEC. 418E. INSOLVENT PLANS.

"(a) SUSPENSION OF CERTAIN BENEFIT PAYMENTS.—Notwithstanding section 411, in any case in which benefit payments under an insolvent multiemployer plan exceed the resource benefit level, any such payments of benefits which are not basic benefits shall be suspended, in accordance with this section, to the extent necessary to reduce the sum of such payments and the payments of such basic benefits to the greater of the resource benefit level or the level of

26 USC 411.

basic benefits, unless an alternative procedure is prescribed by the Pension Benefit Guaranty Corporation under section 4022A(g)(5) of the Employee Retirement Income Security Act of 1974. *Ante*, p. 1210.

"(b) DEFINITIONS.—For purposes of this section, for a plan year—

"(1) INSOLVENCY.—A multiemployer plan is insolvent if the plan's available resources are not sufficient to pay benefits under the plan when due for the plan year, or if the plan is determined to be insolvent under subsection (d).

"(2) RESOURCE BENEFIT LEVEL.—The term 'resource benefit level' means the level of monthly benefits determined under subsections (c) (1) and (3) and (d)(3) to be the highest level which can be paid out of the plan's available resources.

"(3) AVAILABLE RESOURCES.—The term 'available resources' means the plan's cash, marketable assets, contributions, withdrawal liability payments, and earnings, less reasonable administrative expenses and amounts owed for such plan year to the Pension Benefit Guaranty Corporation under section 4261(b)(2) of the Employee Retirement Income Security Act of 1974. *Ante*, p. 1261.

"(4) INSOLVENCY YEAR.—The term 'insolvency year' means a plan year in which a plan is insolvent.

"(c) BENEFIT PAYMENTS UNDER INSOLVENT PLANS.—

"(1) DETERMINATION OF RESOURCE BENEFIT LEVEL.—The plan sponsor of a plan in reorganization shall determine in writing the plan's resource benefit level for each insolvency year, based on the plan sponsor's reasonable projection of the plan's available resources and the benefits payable under the plan.

"(2) UNIFORMITY OF THE BENEFIT SUSPENSION.—The suspension of benefit payments under this section shall, in accordance with regulations prescribed by the Secretary, apply in substantially uniform proportions to the benefits of all persons in pay status (within the meaning of section 418(b)(6)) under the plan, except that the Secretary may prescribe rules under which benefit suspensions for different participant groups may be varied equitably to reflect variations in contribution rates and other relevant factors including differences in negotiated levels of financial support for plan benefit obligations.

"(3) RESOURCE BENEFIT LEVEL BELOW LEVEL OF BASIC BENEFITS.—Notwithstanding paragraph (2), if a plan sponsor determines in writing a resource benefit level for a plan year which is below the level of basic benefits, the payment of all benefits other than basic benefits shall be suspended for that plan year.

"(4) EXCESS RESOURCES.—

"(A) IN GENERAL.—If, by the end of an insolvency year, the plan sponsor determines in writing that the plan's available resources in that insolvency year could have supported benefit payments above the resource benefit level for that insolvency year, the plan sponsor shall distribute the excess resources to the participants and beneficiaries who received benefit payments from the plan in that insolvency year, in accordance with regulations prescribed by the Secretary.

"(B) EXCESS RESOURCES.—For purposes of this paragraph, the term 'excess resources' means available resources above the amount necessary to support the resource benefit level, but no greater than the amount necessary to pay benefits for the plan year at the benefit levels under the plan.

"(5) UNPAID BENEFITS.—If, by the end of an insolvency year, any benefit has not been paid at the resource benefit level, amounts up to the resource benefit level which were unpaid shall

be distributed to the participants and beneficiaries, in accordance with regulations prescribed by the Secretary, to the extent possible taking into account the plan's total available resources in that insolvency year.

"(6) RETROACTIVE PAYMENTS.—Except as provided in paragraph (4) or (5), a plan is not required to make retroactive benefit payments with respect to that portion of a benefit which was suspended under this section.

"(d) PLAN SPONSOR DETERMINATION.—

"(1) TRIENNIAL TEST.—As of the end of the first plan year in which a plan is in reorganization, and at least every 3 plan years thereafter (unless the plan is no longer in reorganization), the plan sponsor shall compare the value of plan assets (determined in accordance with section 418B(b)(3)(B)(ii)) for that plan year with the total amount of benefit payments made under the plan for that plan year. Unless the plan sponsor determines that the value of plan assets exceeds 3 times the total amount of benefit payments, the plan sponsor shall determine whether the plan will be insolvent in any of the next 3 plan years.

"(2) DETERMINATION OF INSOLVENCY.—If, at any time, the plan sponsor of a plan in reorganization reasonably determines, taking into account the plan's recent and anticipated financial experience, that the plan's available resources are not sufficient to pay benefits under the plan when due for the next plan year, the plan sponsor shall make such determination available to interested parties.

"(3) DETERMINATION OF RESOURCE BENEFIT LEVEL.—The plan sponsor of a plan in reorganization shall determine in writing for each insolvency year the resource benefit level and the level of basic benefits no later than 3 months before the insolvency year.

"(e) NOTICE REQUIREMENTS.—

"(1) IMPENDING INSOLVENCY.—If the plan sponsor of a plan in reorganization determines under subsection (d) (1) or (2) that the plan may become insolvent (within the meaning of subsection (b)(1)), the plan sponsor shall—

"(A) notify the Secretary, the Pension Benefit Guaranty Corporation, the parties described in section 418A(a)(2), and the plan participants and beneficiaries of that determination, and

"(B) inform the parties described in section 418A(a)(2) and the plan participants and beneficiaries that if insolvency occurs certain benefit payments will be suspended, but that basic benefits will continue to be paid.

"(2) RESOURCE BENEFIT LEVEL.—No later than 2 months before the first day of each insolvency year, the plan sponsor of a plan in reorganization shall notify the Secretary, the Pension Benefit Guaranty Corporation, the parties described in section 418A(a)(2), and the plan participants and beneficiaries of the resource benefit level determined in writing for that insolvency year.

"(3) POTENTIAL NEED FOR FINANCIAL ASSISTANCE.—In any case in which the plan sponsor anticipates that the resource benefit level for an insolvency year may not exceed the level of basic benefits, the plan sponsor shall notify the Pension Benefit Guaranty Corporation.

"(4) REGULATIONS.—Notice required by this subsection shall be given in accordance with regulations prescribed by the Pension Benefit Guaranty Corporation, except that notice to the Secre-

tary shall be given in accordance with regulations prescribed by the Secretary.

"(5) CORPORATION MAY PRESCRIBE TIME.—The Pension Benefit Guaranty Corporation may prescribe a time other than the time prescribed by this section for the making of a determination or the filing of a notice under this section.

"(f) FINANCIAL ASSISTANCE.—

"(1) PERMISSIVE APPLICATION.—If the plan sponsor of an insolvent plan for which the resource benefit level is above the level of basic benefits anticipates that, for any month in an insolvency year, the plan will not have funds sufficient to pay basic benefits, the plan sponsor may apply for financial assistance from the Pension Benefit Guaranty Corporation under section 4261 of the Employee Retirement Income Security Act of 1974. *Ante*, p. 1261.

"(2) MANDATORY APPLICATION.—A plan sponsor who has determined a resource benefit level for an insolvency year which is below the level of basic benefits shall apply for financial assistance from the Pension Benefit Guaranty Corporation under section 4261 of the Employee Retirement Income Security Act of 1974.

"(g) FINANCIAL ASSISTANCE.—Any amount of any financial assistance from the Pension Benefit Guaranty Corporation to any plan, and any repayment of such amount, shall be taken into account under this subpart in such manner as determined by the Secretary.".

(b) CLERICAL AMENDMENT.—The table of subparts for part I of subchapter D of chapter 1 is amended by adding at the end thereof the following new subpart:

"Subpart C. Special rules for multiemployer plans.".

SEC. 203. MINIMUM FUNDING REQUIREMENTS.

Section 412 (relating to minimum funding standards) is amended— 26 USC 412.

(1) in subsection (b), by striking out "(40 plan years in the case of a multiemployer plan)" and "(20 plan years in the case of a multiemployer plan)" each place they appear;

(2) by adding at the end of subsection (b) the following new paragraphs:

"(6) CERTAIN AMORTIZATION CHARGES AND CREDITS.—In the case of a plan which, immediately before the date of the enactment of the Multiemployer Pension Plan Amendments Act of 1980, was a multiemployer plan (within the meaning of section 414(f) as in effect immediately before such date)— *Ante*, p. 1208. *Post*, p. 1288.

"(A) any amount described in paragraph (2)(B)(ii), (2)(B)(iii), or (3)(B)(i) of this subsection which arose in a plan year beginning before such date shall be amortized in equal annual installments (until fully amortized) over 40 plan years, beginning with the plan year in which the amount arose;

"(B) any amount described in paragraph (2)(B)(iv) or (3)(B)(ii) of this subsection which arose in a plan year beginning before such date shall be amortized in equal annual installments (until fully amortized) over 20 plan years, beginning with the plan year in which the amount arose;

"(C) any change in past service liability which arises during the period of 3 plan years beginning on or after such date, and results from a plan amendment adopted before such date, shall be amortized in equal annual installments

(until fully amortized) over 40 plan years, beginning with the plan year in which the change arises; and

"(D) any change in past service liability which arises during the period of 2 plan years beginning on or after such date, and results from the changing of a group of participants from one benefit level to another benefit level under a schedule of plan benefits which—

"(i) was adopted before such date, and

"(ii) was effective for any plan participant before the beginning of the first plan year beginning on or after such date,

shall be amortized in equal annual installments (until fully amortized) over 40 plan years, beginning with the plan year in which the change arises.

"(7) SPECIAL RULES FOR MULTIEMPLOYER PLANS.—For purposes of this section—

"(A) WITHDRAWAL LIABILITY.—Any amount received by a multiemployer plan in payment of all or part of an employer's withdrawal liability under part 1 of subtitle E of title IV of the Employee Retirement Income Security Act of 1974 shall be considered an amount contributed by the employer to or under the plan. The Secretary may prescribe by regulation additional charges and credits to a multiemployer plan's funding standard account to the extent necessary to prevent withdrawal liability payments from being unduly reflected as advance funding for plan liabilities.

Ante, p. 1217.

"(B) ADJUSTMENTS WHEN A MULTIEMPLOYER PLAN LEAVES REORGANIZATION.—If a multiemployer plan is not in reorganization in the plan year but was in reorganization in the immediately preceding plan year, any balance in the funding standard account at the close of such immediately preceding plan year—

"(i) shall be eliminated by an offsetting credit or charge (as the case may be), but

"(ii) shall be taken into account in subsequent plan years by being amortized in equal annual installments (until fully amortized) over 30 plan years.

The preceding sentence shall not apply to the extent of any accumulated funding deficiency under section 418B(a) as of the end of the last plan year that the plan was in reorganization.

Ante, p. 1274.

(2) striking out the seventh sentence, which begins, "Any insurance offered against loss in yield . . .", and inserting in lieu thereof the following: "Any insurance offered against loss in yield shall make available to producers protection against loss in yield that covers 75 per centum of the recorded or appraised average yield of the commodity on the insured farm for a representative period (subject to such adjustments as the Board may prescribe to the end that the average yields fixed for farms in the same area, which are subject to the same conditions, may be fair and just). "(2) The producer may elect to have deleted from the Corporation's policy of insurance the coverage against losses caused by hail and fire and to obtain coverage therefor from other than a Federal insurer. Upon notice in writing of such election to the Corporation and submission of evidence of such substitute coverage on the commodities insured by the Corporation in a dollar amount not less than that provided by the Corporation's policy of insurance, the producer's premium, as calculated by the Corporation, shall be reduced by an amount equal to 40 per centum of the prevailing average county hail and fire insurance premium charged by other than Federal insurers for the dollar amount of the coverage provided by the Corporation's policy of insurance, as determined by the Corporation: *Provided,* That the producer's premium shall not be reduced by less than 15 per centum nor more than 30 per centum: *Provided further,* That, notwithstanding the preceding provisions of this sentence, the producer's premium shall not be reduced by an amount that exceeds the premium for the substitute coverage of a dollar amount equal to that provided by the Corporation's policy of insurance. Any premium reduction in excess of the amount of premium that the Corporation determines would have been necessary for the Corporation to charge in order to cover indemnities actually paid by other than Federal insurers for hail and fire coverage deleted from the Corporation's policy of insurance shall be regarded as premium paid by the Corporation. Premium reduction.

"(3) For the purpose of encouraging the broadest possible participation in the insurance program, 30 per centum of each producer's premium (reduced, where applicable, for hail and fire exclusion, or State or State agency subsidy), as calculated by the Corporation on any coverage under the Corporation's policy of insurance up to a maximum of 65 per centum of the recorded or appraised average yield, as adjusted, shall be paid by the Corporation.

"(4) The producer's premium, or share thereof, shall be collected at such time or times, and shall be secured in such manner, as the Board may determine. Premium collection.

"(5) The Board may enter into agreements with any State or agency of a State under which such State or agency may pay to the State agreements.

Corporation additional premium subsidy to further reduce the portion of the premium paid by farmers in such State.

Partial payment.

"(6) With respect to any crop insurance covering the 1981 crop of wheat, feed grains, upland cotton, or rice, a producer shall not be eligible for a partial payment of the premium by the Corporation under paragraph (3) of this subsection for such commodity if the producer elects to make the acreage of the commodity eligible for payments under the disaster payment provisions for wheat, feed grains, upland cotton, and rice of the Agricultural Act of 1949 (as amended effective for the 1981 crops): *Provided further,* That a producer who is not eligible for a partial payment of premium by the Corporation under this subsection because of the producer's election to make the acreage of the commodity involved eligible for disaster payments in 1981 shall remain eligible to purchase Federal crop insurance on the 1981 acreage of the commodity at the full cost of the premium.";

7 USC 1421 note.

(2) amending subsection (c) to read as follows:

A test program of such reinsurance shall be made available, to the maximum extent possible, to begin not later than with the 1982 crops. In order to provide equity among producers purchasing crop insurance, whenever the Corporation provides reinsurance under this subsection to any such insurers, the Corporation shall pay a portion of each producer's premium for such insurance so reinsured. Each such payment shall cover the same per centum of the premium, and be subject to the same restrictions regarding payments of premiums for crop insurance on commodities, as provided in subsection (b) of this section for Federal partial payments of Federal crop insurance premiums. The Corporation shall also pay operating and administrative costs to insurers of policies on which the Corporation provides reinsurance to the same extent that such costs are covered by the Corporation on the Corporation's policies of insurance. Insurers of policies on which reinsurance is provided shall make use of licensed private insurance agents and brokers on the same basis as provided for policies of the Corporation under section 507(c)(3) of this title, except that the provisions for compensating agents and brokers from premiums paid by the insured shall not apply.

Beginning in the 1981 crop year and ending after the 1985 crop year, the Corporation shall also conduct a pilot program of individual risk underwriting of crop insurance in not less than twenty-five counties. Under this pilot program, to the extent that appropriate yield data are available, the Corporation shall make available to producers in such counties crop insurance under this title based on personalized rates and with guarantees determined from the producer's actual yield history. Public Law 96-366
96th Congress

An Act

Sept. 29, 1980
[H.R. 3292]

To assist the States in developing fish and wildlife conservation plans and actions, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Fish and Wildlife Conservation Act of 1980".

Fish and Wildlife Conservation Act of 1980.
16 USC 2901 note.

SEC. 2. DECLARATION OF FINDINGS AND PURPOSE.

16 USC 2901.

(a) FINDINGS.—The Congress finds and declares the following:

(1) Fish and wildlife are of ecological, educational, esthetic, cultural, recreational, economic, and scientific value to the Nation.

(2) The improved conservation and management of fish and wildlife, particularly nongame fish and wildlife, will assist in restoring and maintaining fish and wildlife and in assuring a productive and more esthetically pleasing environment for all citizens.

(3) Many citizens, particularly those residing in urban areas, have insufficient opportunity to participate in recreational and other programs designed to foster human interaction with fish and wildlife and thereby are unable to have a greater appreciation and awareness of the environment.

(4) Historically, fish and wildlife conservation programs have been focused on the more recreationally and commercially important species within any particular ecosystem. As a consequence such programs have been largely financed by hunting and fishing license revenues or excise taxes on certain hunting and fishing equipment. These traditional financing mechanisms are neither adequate nor fully appropriate to meet the conservation needs of nongame fish and wildlife.

(5) Each State should be encouraged to develop, revise, and implement, in consultation with appropriate Federal, State, and local and regional agencies, a plan for the conservation of fish and wildlife, particularly those species which are indigenous to the State.

(b) PURPOSE.—It is the purpose of this Act—

(1) to provide financial and technical assistance to the States for the development, revision, and implementation of conservation plans and programs for nongame fish and wildlife; and

(2) to encourage all Federal departments and agencies to utilize their statutory and administrative authority, to the maximum extent practicable and consistent with each agency's statutory responsibilities, to conserve and to promote conservation of nongame fish and wildlife and their habitats, in furtherance of the provisions of this Act.

SEC. 3. DEFINITIONS. 16 USC 2902.

As used in this Act—

(1) The term "approved conservation plan" means the conservation plan of a State approved by the Secretary pursuant to section 5(a) of this Act.

(2) The term "conservation plan" means a plan developed by a State for the conservation of fish and wildlife which meets the requirements set forth in section 4.

(3) The terms "conserve", "conserving", and "conservation" mean to use, and the use of, such methods and procedures which are necessary to ensure, to the maximum extent practicable, the well being and enhancement of fish and wildlife and their habitats for the ecological, educational, esthetic, cultural, recreational, and scientific enrichment of the public. Such methods and procedures may include, but are not limited to, any activity associated with scientific resources management, such as research, census, law enforcement, habitat acquisition, maintenance, development, information, education, population manipulation, propagation, technical assistance to private landowners, live trapping, and transplantation.

(4) The term "designated State agency" means the commission, department, division, or other agency of a State which has primary legal authority for the conservation of fish and wildlife. If any State has placed such authority in more than one agency, such term means each such agency acting with respect to its assigned responsibilities but such agencies, for purposes of this Act, shall submit a single conservation plan.

(5) The term "fish and wildlife" means wild vertebrate animals that are in an unconfined state, including, but not limited to, nongame fish and wildlife.

(6) The term "nongame fish and wildlife" means wild vertebrate animals that are in an unconfined state and that—

(A) are not ordinarily taken for sport, fur, or food, except that if under applicable State law, any of such animals may be taken for sport, fur, or food in some, but not all, areas of the State, any of such animals within any area of the State in which such taking is not permitted may be deemed to be nongame fish and wildlife;

(B) are not listed as endangered species or threatened species under the Endangered Species Act of 1973 (16 U.S.C. 1531-1543); and

(C) are not marine mammals within the meaning of section 3(5) of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1362(5)).

Such term does not include any domesticated species that has reverted to a feral existence.

(7) The term "Secretary" means the Secretary of the Interior.

(8) The term "State" means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, Guam, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands.

SEC. 4. CONSERVATION PLANS. 16 USC 2903.

The conservation plan for any State must—

(1) provide for the vesting in the designated State agency of the overall responsibility for the development and revision of the conservation plan;

(2) provide for an inventory of the nongame fish and wildlife, and such other fish and wildlife as the designated State agency deems appropriate, that are within the State and are valued for ecological, educational, esthetic, cultural, recreational, economic, or scientific benefits by the public;

(3) with respect to those species identified under paragraph (2) (hereinafter in this section referred to as "plan species"), provide for—

(A) the determination of the size, range, and distribution of their populations, and

(B) the identification of the extent, condition, and location of their significant habitats;

(4) identify the significant problems which may adversely affect the plan species and their significant habitats;

(5) determine those actions which should be taken to conserve the plan species and their significant habitats;

(6) establish priorities for implementing the conservation actions determined under paragraph (5);

(7) provide for the monitoring, on a regular basis, of the plan species and the effectiveness of the conservation actions determined under paragraph (5);

(8) provide for plan review and revision, if appropriate, at intervals of not more than 3 years;

Public views.

(9) ensure that the public be given opportunity to make its views known and considered during the development, revision, and implementation of the plan; and

Consultation.

(10) provide that the designated State agency consult, as appropriate, with Federal agencies, and other State agencies during the development, revision, and implementation of the plan, in order to minimize duplication of efforts and to ensure that the best information is available to all such agencies.

16 USC 2904.

SEC. 5. APPROVAL OF CONSERVATION PLANS AND CERTAIN NONGAME FISH AND WILDLIFE CONSERVATION ACTIONS.

(a) APPROVAL BY SECRETARY OF PLANS.—(1) Any State may apply to the Secretary for approval of a conservation plan.

Regulations.

(2) Applications for the approval of conservation plans shall be made and reviewed by the Secretary in such manner as the Secretary shall by regulation prescribe.

(3) As soon as practicable, but not later than 180 days, after the date on which a State submits (or resubmits in the case of prior disapproval) an application for the approval of a conservation plan the Secretary shall—

(A) approve the conservation plan, and designate it as an approved conservation plan, if he determines that the plan—

(i) meets the requirements set forth in section 4, and

(ii) is substantial in character and design; or

(B) disapprove the conservation plan if he determines that—

(i) the plan does not meet the requirements set forth in section 4, or

(ii) to implement any part of the plan on the basis of the specifications, determinations, identifications, or priorities therein would threaten the natural stability and continued viability of any of the plan species concerned.

Written disapproval statement.

If the Secretary disapproves a plan, he shall give the State concerned a written statement of the reasons for disapproval and provide the State opportunity for consultation with respect to deficiencies in the plan and the modifications required for approval.

(b) EFFECT OF APPROVAL OF PLANS.—If the Secretary approves the conservation plan of any State under subsection (a)—

(2) that portion of such plan that pertains to fish conservation shall be deemed to be an approved plan for the purposes of section 6(a)(1) of the Act of August 9, 1950 (16 U.S.C. 777c(a)(1)), commonly referred to as the Dingell-Johnson Sport Fish Restoration Act. 16 USC 777e.

(c) CONSERVATION ACTIONS.—If the Secretary approves the conservation plan of any State under subsection (a), those conservation actions set forth in the plan which pertain to nongame fish and wildlife shall be deemed to be eligible as nongame fish and wildlife projects for which reimbursement is available under section 6.

(d) NONGAME CONSERVATION ACTIONS IN THE ABSENCE OF AN APPROVED PLAN.—In the absence of an approved conservation plan, and on a showing of need by the State, the Secretary may deem certain conservation actions to be nongame fish and wildlife projects for which reimbursement is available under section 6(a)(3) if they—

(1) are consistent with such of the requirements set forth in section 4 as may be appropriate, including, but not limited to, the requirements in paragraphs (3), (4), (5), and (7) of such section; and

(2) are substantial in character and design.

(1) If reimbursement is sought under subsection (a)(1), such costs have been incurred in developing a conservation plan that meets the requirements set forth in section 4.

(2) If reimbursement is sought under subsection (a)(2), such costs have been incurred in revising the plan in a manner consistent with such requirements.

(e) LIMITATIONS.—(1) The total amount of the reimbursement paid to any State under this section with respect to any fiscal year may not exceed the allocation available to the State under section 8 for such year.

(2) No reimbursement may be paid under this section to any State for any cost incurred by the State during any fiscal year—

(A) after September 30, 1991, in developing a conservation plan;

(B) after September 30, 1986, for costs incurred in implementing certain nongame fish and wildlife actions approved under section 5(d);

(C) in which less than 80 percent of the costs to be reimbursed are for the principal benefit of nongame fish and wildlife or the users of nongame fish and wildlife;

(D) in implementing an approved conservation plan, unless the cost was incurred in implementing actions approved under section 5 (c) or (d);

(E) in implementing an approved conservation plan covering only nongame fish and wildlife, or any nongame fish and wildlife conservation action approved under section 5 (c) or (d), to the extent that more than 10 percent of such costs are paid for with moneys collected during such year by the State—

(i) from the sale of hunting, fishing, and trapping licenses, and

(4)(A) In computing the costs incurred by any State during any fiscal year in developing or revising conservation plans, in implementing approved conservation plans, or in implementing nongame fish and wildlife conservation actions approved under section 5 (c) or (d), for which reimbursement may be available under this section, the Secretary shall—

(i) take into account, in addition to each outlay, the value of inkind contributions and real and personal property received and applied during such year by the State for such purposes; and

(B) For purposes of subparagraph (A), inkind contributions may be in the form of, but are not limited to, personal services rendered by volunteers in carrying out surveys, censuses, and other scientific studies regarding fish and wildlife. The Secretary shall by regulation establish (i) the training, experience, and other qualifications which such volunteers must have in order for their services to be considered as inkind contributions; and (ii) the standards under which the Secretary will determine the value of inkind contributions and real and personal property for purposes of subparagraph (A).

(C) Any valuation determination made by the Secretary for purposes of this paragraph shall be final and conclusive.
